

MURPHY IS CHAMPION

The Australian Featherweight Cleverly Beats the "Bel-fast Spider."

Weir Had the Best of It Up to the Twelfth Round.

Then the Antipodean Drove Him Through the Ropes Several Times.

Knocked Down Eight Times, the Spider Quits in the Fourteenth.

SAN FRANCISCO, Jan. 13.—The fight to a finish between Joe Weir, the "Bel-fast Spider," featherweight champion of the world, and Billy Murphy, featherweight champion of Australia, for a purse of \$2,500, took place at the California Athletic club to-night. Before the fight President Fuda announced that John L. Sullivan had agreed with an accredited representative of the club on a purse for which he would meet Peter Jackson in the last fight of his life. The amount was \$15,000, and Jackson has accepted the terms. By a majority vote the club announced its approval of the proposition to empower the directors to make the match. Weir's weight was announced at 124 1/2 and Murphy's at 125 1/2. Time was called at 8:55 p.m. The match started in a lively race. Murphy's body blows were met by Weir's rapid upper-cutting. The first round ended with Weir slipping to the floor from Murphy's rally. In the second round Weir reached Weir's nose and was caught by the neck and punished by upper-cuts, which he received in the face and on the temple and laughter at the end of each round was uproarious. Weir's ankles caused great amusement. The fight was a close one, with Weir's rapid upper-cutting and the rapidity of his upper-cutting surprised both his opponent and the spectators. Murphy was knocked down by the nose in the second round, and beyond a few good body blows his punches and strong right-hand swings counted for naught. In the eighth round he fought bravely, but was nearly knocked out by a right-hand blow on the chin. From the eighth to the twelfth round little effective fighting was done. In the twelfth round Murphy's right hand with telling effect on Murphy's left ear and jaw, again planting right and left in the Australian's eye, as he came on heroically. Murphy's left eye was bleeding freely in the twelfth. He fought desperately and drove Weir to the ropes, but he was nearly knocked out by a right-hand blow on the chin. The thirteenth round was one of the greatest surprises ever seen in the club rooms. Murphy came up almost hopelessly, but fought bravely. He landed a right-hand on Weir's head that staggered him and in a minute was upon him swinging and upper-cutting with his right hand, sending the Spider down eight times in rapid succession. Twice the doctor reversed his contract with Weir, and rose within the last second and with a COURAGE BORN OF DESPERATION planted his right foot on Murphy's chest and drove him to the ropes. In the fourteenth round both men, though apparently too groggy to stand, came promptly up for the last round. Murphy again led; Weir countered, and in a second received another blow that sent him down and decided his fate. He writhed in agony for ten seconds, and when he rose at the call of time he was holding his wrist painfully with his left hand, claiming to have broken it. Murphy, though showing no signs of punishment from Weir, and though at one time almost knocked out, fresh and wonderfully in the last, and jumped lightly from the ring at the end of the fight.

Discarding and Drawing—After the trump has been made, each player discards from his hand, faced upward, an equal number of cards to the number of the trump. The dealer makes up a hand of six cards, which are dealt in order. If the deck runs out before all the cards are dealt, the dealer may supply the missing cards by the top of the deck.

Value of Cards in Dealing—Ladies cut for deal in all suits, and the lowest in cutting after which deal is made by the suit holder. After first game the first deal in each game is accorded to the lady who just comes to the table. Deuce is dealt to each player, three at a time.

Value of Cards in Drawing—The trump is made by drawing a card from the deck at the left of dealer bidding in the turn if they wish to raise the bid. The suit bid upon counts one trump, but any one until it is distinctly understood who bids highest; then the highest bidder has the trump. There are fourteen trumps in a pack, counting the second five-spot of the same color.
