Former Comrades of Ex-Trooper Dell Wild Impeach His Veracity.

Several Soldiers Swear They Would Not Believe Him Under Oath.

Wild Is Positively Identified as a Deserter Called D. P. Ward.

Politician Plummer, Friend of the President, Fails for a Million.

CHICAGO, March 19.—The evidence given today before the Steele court martial was decidedly unfavorable to ex-Private Wild. It was shown that he had procured himself a new uniform, in which he had been tried at Fort Yates, while testimony was given by his former comrades that he was a stranger to veracity, and could not be believed under oath. He was shortly after 11 o'clock when the session opened, and although the spectators' quarters were crowded to suffocation by 1,500 men, the court retired to the outside of the hall. Considerable time was occupied in reading the verbatim report of yesterday's proceedings, and Wild was then recalled. In reply to the questions of the judge advocate, he said that Steele struck him with his clenched fist on the side of the face, but did not knock him down. Cross-examined by the court at the instance of the defense, Wild said that the blow only made a red mark. He was asked by Lieut. Crowder, counsel for Steele, how long he had known Wild under the name of Daniel P. Ward as a private in Company I, Eleventh Infantry, of which the witness at the time in question was first sergeant. The judge asked him if he had been introduced to the introduction of this testimony, eliciting so much applause that he threatened to clear the room. The witness went on to say that he had known Wild, and that he had been introduced to the introduction of this testimony, eliciting so much applause that he threatened to clear the room. The witness went on to say that he had known Wild, and that he had been introduced to the introduction of this testimony, eliciting so much applause that he threatened to clear the room.

Considered It Menial Work. The case for the prosecution was then opened with the examination of John Comas, post trader at Fort Pembina, N. D. His evidence being objected to by the judge advocate, the court decided to admit the testimony. Comas then swore that he had known Wild under the name of Daniel P. Ward as a private in Company I, Eleventh Infantry, of which the witness at the time in question was first sergeant. The judge asked him if he had been introduced to the introduction of this testimony, eliciting so much applause that he threatened to clear the room. FAILED FOR A MILLION.

Politician Plummer Goes to the Wall With a Crash.

New York, March 19.—The dry goods trade was started today by the failure of John F. Plummer & Co., following as it did so closely upon that of Harbison & Loder, which took place last week. The firm is composed of John F. Plummer and William S. Darling. They made a general assignment for the benefit of their creditors to Jeremiah P. Murphy, their cashier. Mr. Plummer also made an individual assignment to Mr. Murphy. Much regret has been expressed in the trade. Mr. Murphy, the assignee, said that the firm was principally due to depreciation in value of the goods which the firm had on hand and which they had been carrying for some time. When they realized their position they made every effort to go on, but found it impossible to obtain an assignment without preference. Mr. Plummer is recognized by the trade as a man of high honor and competent business ability. He was formerly a partner in the firm of Stone & Darling, which was owned by Mr. Plummer. The firm had a capital of \$1,000,000, of which about \$800,000 was for borrowed money and the balance is due to manufacturers and for trust money deposited with the firm by relatives and friends. The trust money is a family matter.

The assets nominally were a little larger than the liabilities. They consist of stock and outstanding accounts and some valuable real estate owned by Mr. Plummer. The liabilities are reported to be \$1,000,000, and nominal assets \$1,200,000. The trade attributes the failure to over advances, chiefly on the salesmen's accounts, and complications arising from the old firm of Stone & Darling, whose business John F. Plummer took over. It is said that the firm of Pomeroy & Plummer was taken up with the firm of Pomeroy & Plummer, which failed in September, 1888. Pomeroy & Plummer dissolved Jan. 1, 1889, and was succeeded by the present firm of John F. Plummer & Co. They took the business of Stone & Darling, to whom it is said they made the necessary advances to enable them to continue. The Pomeroy & Plummer company, of Rockville, Conn., is reported to be one of the largest creditors of the firm. Mr. Maxwell, president of the company, loaned Mr. Plummer \$50,000, which the latter borrowed the present firm, and it is said the loan was made last August. Mr. Plummer was for many years with the old house of Pomeroy & Adams, in which he was admitted a partner in 1868, and three years later he joined Pomeroy & Plummer. Plummer & Co. claimed a capital of \$300,000 and a business of \$3,000,000 in the last year of its existence. Their statement Jan. 1, 1889, showed assets \$800,078, and liabilities \$885,362. The open accounts amounted to \$224,570, and the principal assets. They did a

Large Business in Wooleens, and were negotiating to take Southern cotton goods accounts, which would have increased the business \$1,000,000 a year. Mr. Plummer was active in Republican politics, but it is claimed that did not interfere with his business. He is a personal friend of President Harrison, and took a leading part in the last presidential election in the dry goods trade. "It is serious," said a merchant today, "that two leading Republicans—Mr. Plummer, of New York, and Franklin

Woodruff, in Brooklyn—should fail within a month." New York, March 19.—W. W. Paton & Co., auctioneers, 230 Fifth avenue, assigned today.

New York, March 19.—Jacob Arnold, his son Charles and Joseph Schmitt, passengers on the steamer Werra, based at St. Paul, Minn., were searched today by custom house inspectors, and five gold watches, three gold breast pins and three gold chains, and a number of smokers' articles, they were smuggling were confiscated. They were allowed to go home without the jewelry.

LANDING PLACE FOR ALIENS. Conflict of Authorities Regarding an Immigrant Station. WASHINGTON, D. C., March 19.—Secretary Proctor has designated Gen. Schofield to represent the war department with the senate and house committees on immigration, next Friday, to look into the question of a site for the establishment of an immigrant station to take the place of Castle Garden. While there the committees will visit Bedloe's Island, in view of the opposition to the selection by Secretary Windom of Bedloe's Island, and the opposition in army circles to the selection of Governor's island as sites for the immigrant station the visit of the committees at this time is important as their recommendations in the matter will doubtless be final and conclusive as to the site that will in the future be the landing place of all immigrants who come into New York harbor. In the meantime Secretary Windom is going ahead on the theory that Bedloe's Island is his selection, and today there was a conference at the treasury department on the general subject of immigration, at which the new commissioner of immigration, Mr. Weber, Solicitor Hepburn, Assistant Secretary Tichenor, and Secretary Windom were present. The needs of the service, and the laws governing immigration were carefully gone over, and Commissioner Weber made acquainted with the views of the treasury department, as to how the service is to be conducted. Solicitor Hepburn and Surgeon General Hamilton will accompany the committees and represent the treasury department in the investigation.

VOLUNTARILY IDLE. Eight Thousand Gunmakers Strike for Shorter Hours. LONDON, March 19.—Eight thousand employees of the Armstrong gun factory at Elswick have struck for eight hours' work per day. LONDON, March 19.—Several more factories and mills at Accrington and Leeds have stopped running owing to lack of fuel. The situation growing out of the colliers' strike is becoming very alarming. PITTSBURGH, Pa., March 19.—One hundred men employed in the bolt works of Oliver Bros. & Phillips' mill quit work at 9 o'clock, and the rest of the men, 500 more, will quit at 12 o'clock, midnight, at the end of their turn. A conference of the management, association and the firm will likely be held tomorrow to arrange some kind of a settlement.

A Million Is Not Enough. Special to the Globe. WINNEPEG, Man., March 19.—The provincial legislature will be asked to vote a straight subsidy of \$1,000,000 to the Winnipeg & Hudson Bay railway, to be paid over on the completion of the road. This sum will not likely be voted, as the federal government, having decided to guarantee bonds for several million dollars, which will enable the company to build the road without further assistance.

Le Roy Will Be Interested. Special to the Globe. WINONA, March 19.—A corps of surveyors left yesterday for Spring Valley to lay a line from Spring Valley to Taopi in the interest of the Winona & Southwestern. Should this or another proposed line be adopted Le Roy will be left out in the cold.

Railroad Jots. Vice-President Clough, of the Great Northern, is expected home on Friday. General Manager Winter, of the Omaha, returned yesterday from the East. He said the sale of his house to the Quincy would not be made until after the policy of the Northern. The Chicago, Milwaukee and St. Paul and the Soo will remove their Minneapolis ticket offices next from the Snodden house block to the new American Guaranty and Loan building. It is stated that President Hill, of the Great Northern, will attend the next meeting of the board of directors of the Wisconsin, which is a satisfactory adjustment of rates for the ensuing season is assured. No definite action was arrived at. Delegates from points in the old Western Vice President's association to the annual convention of the Miller's National association in Minneapolis, June 16-21, will be given a one and one-third rate.

THE RESULT OF MERIT. When anything stands a test of fifty years among a discriminating people like the Americans, it is pretty good evidence that there is merit somewhere. The value of a medicine is best proved by its continued use from year to year by the same persons and families, as well as by a steadily increasing sale. Few, if any, medicines have with such continued success and popularity as has marked the introduction and progress of BRANDT'S PILLS, which, after a trial of over fifty years, are conceded to be the safest and most efficient purgative introduced to the public. That this is the result of merit, and that BRANDT'S PILLS actually perform all that is claimed for them, is conclusively proved by the fact that those who regard them with the greatest favor are those who have used them the longest. BRANDT'S PILLS are sold in every drug and medicine store, either plain or sugar-coated.
