Christol vs. Smith. The wrestling match to occur to-night at the Olympic between Lucien Marie Christol and Herman Smith is attracting a good deal of attention. Both men have talked a great deal about what they propose to do, and the match promises to be a rattler.

Queen Vic Is Generous. LONDON, March 20.—The queen has presented a cup valued at 100 guineas to the Royal Albert Yacht club, to be raced for during the coming summer.

HE TOOK IT FOR PORK. How a Baron Nearly Ate a Piece of Baked Ham.

St. Louis Republic. Beresford Alfred, Baron d'Este, and his wife, nee Harney, whose first husband was the Viscount de Noue, are at the Southern. The Baron d'Este is a Frenchman by birth, an Italian by descent, an Englishman through his mother, and a man of many countries by virtue of travel. In conversation with a representative of the Republic yesterday, he said that he had spent much of his life in the British colonies. The baron is a handsome man, with a sunburned face, speaks English with an Englishman's accent, and does not look over forty years of age, though he may be older. As a young man he spent several years in Australia, but in 1870, when cotton was commanding a very high price, he, in company with a number of friends, went into the business of raising the costly product on the Fiji Islands. The islands at that time were inhabited largely by cannibals. "The sister of my first wife," said the baron yesterday, "was shot down by the natives, along with her husband and two children, and the cannibals attempted to carry off the bodies, intending to eat them at their leisure in the mountains, but, fortunately, reinforcements came to our aid. I was once on the point of tasting human flesh myself. Some of the natives had been assisting us to build a house, and at the completion of the work was celebrated with a feast. In the course of the dinner I helped myself from a dish whose contents I did not know, and was about to taste of it when a friendly native nudged me with his elbow and whispered some suggestive and sufficient words. I needed no further explanation."

A BULLET ENDS PERSECUTION. Victim of an Anonymous Letter Writer Commits Suicide. JOLIET, Ill., March 20.—Miss Jessie White, the nineteen-year-old daughter of James S. White, an old resident, committed suicide last evening in a most sensational manner. She was out riding in a buggy, and drove up and down Chicago street several times, bowing and smiling to acquaintances. Finally, when nearly in front of a hotel she stopped the horse, took a box from the bottom of the carriage, drew out a revolver and shot herself through the heart. Several gentlemen rushed to the carriage just in time to catch her body as it was falling into the street. It is believed that the young lady was depressed as the result of a long series of persecutions at the hands of an anonymous letter writer. About three years ago he began his work. No solution over the sensational suicide of the young society belle, Miss Jessie White, was unabated today. No solution of the mystery regarding the letters she received has been found. The funeral will take place Saturday if it is a bright day, in accordance with the peculiarly minute instructions left in the girl's written farewell.

Whisky and Speculation. They Make an Embellisher of a Postoffice Clerk. SAN FRANCISCO, Cal., March 20.—Postoffice Inspectors Seybold and Irwin and Assistant Postmaster Carr commenced an examination last night of the accounts of James S. Kennedy Jr., foreign money order clerk of the San Francisco postoffice, and that the books show a shortage of 666 money orders, ranging in value from \$1 to \$200. Inspector Seybold received a dispatch from the chief of the secret service of New York city yesterday, inquiring about a money order issued in this city Feb. 19 last, payable at London, Eng., which was reported missing. Inspector Irwin was detailed to make an examination of the records and Kennedy's manner at once attracted his attention. After a number of futile attempts to escape, Kennedy fled, and it is said, confessed at first that he was short \$1,200 or \$1,500. He stated he had been drinking freely and speculating. When he was turned over to United States Marshal Franks last evening \$2,000 in 820 gold pieces and greenbacks were found concealed on his person. As it is said to have been the amount embezzled would reach \$12,000 or \$15,000. Kennedy was appointed clerk in the postoffice by ex-Postmaster Backus in 1887. Kennedy was taken before the United States commissioner this morning and his bonds placed at \$10,000. No date was set for the examination. The amount of his pecuniations is not known, though a close examination of his accounts is being made today.

Shaky Buildings to Go. The Mayor of Indianapolis Orders Weak Structures Razed. INDIANAPOLIS, March 20.—The wreck of the Bowen-Merrill Company and the other buildings had been sufficiently cooled at 8 o'clock this morning to permit the workmen to resume operations. It was decided, however, not to renew the search for poor Woodruff's body until all probability of another accident had been removed. An inspection of the buildings on either side of the ruins was therefore ordered at once. The board of inspectors made a careful examination, and decided that the Wason and Sloan blocks will have to come down. The west wall of the Wason block was found to be cracked.

Itching, Burning, Bleeding. And scaly diseases of the skin and scalp, causing days of misery and nights of sleepless agony, are instantly relieved, and speedily, permanently and economically cured by the CUTICURA REMEDIES when all other remedies and the best physicians fail. Substantial evidence of the truth of this statement is to be found daily in this season.

THE FAMOUS COCOA OF EUROPE. The Coming One of America. Van Houten's has fifty per cent more of the flesh-forming elements of cocoa than is obtained by the best processes of other manufacturers.

"BEST & GOES FARTHEST." Doctors and analysts of the highest standing all over the world, certify to this immense saving, and by VAN HOUTEN'S special process only can this be attained.

Van Houten's Cocoa ("once tried, always used") possesses the great advantage of leaving no injurious effects on the nervous system. No wonder, therefore, that in all parts of the world, this famous Cocoa is recommended by the most eminent medical men, instead of tea and coffee or other cocoa or chocolate, for daily use by children or adults, hale and sick, rich and poor. Ask for VAN HOUTEN'S and take no other.

Two Shot in a Brawl. LEON, Ia., March 20.—After a drunken revel at a "hole-in-the-wall" saloon last night Steve Little shot two of his companions, Fulton and Frank Parsons. Fulton is fatally wounded and Parsons may die.

STRUCK FROM BEHIND.

A Wealthy Missourian Cruelly Murdered and Buried in a Well.

His Throat Was Cut From Ear to Ear by the Assassin.

Colorado Springs' Prohibition Mayor a Mark for Incendiaries.

An Illinois Girl Commits Suicide to End Anonymous Persecution.

EVERTON, Mo., March 20.—The murder of "Lucky" Morgan at Dodoville, a small town near here, has just been discovered. Morgan had been missed by his friends for a day or two, and a search discovered his body at the bottom of his well. The circumstances surrounding the crime show that he was sitting before the fire, when his murderer struck him from behind, knocking him into the fire. His face was burned to a crisp. His throat had been cut from ear to ear. He was a rich old bachelor, and the murder was doubtless committed for the money which he was known to carry with him in large amounts. Great excitement has been occasioned by the crime.

TWICE EVICTED BY FIRE. The Mayor of Colorado Springs a Mark for Incendiaries. COLORADO SPRINGS, Col., March 20.—For over a year there has been a bitter war between the prohibition and the anti-prohibition element in this city. The feeling was so bitter that two months ago the residence of Mayor Stockbridge, a prohibitionist, was burned to the ground. His loss was \$11,000, and it is rumored his political career had a hand in the matter. At a meeting of the Republican and Liberal parties last night, Stockbridge was nominated for mayor, and the burning at 3 o'clock his new residence was fired and burned to the ground. The loss is \$8,000. The American hotel, adjoining, was damaged \$5,000.

RUINED BY CAVING. The Germania Mine Fire Will Result in Enormous Loss. ASHLAND, Wis., March 20.—The loss by the Germania mine fire is greater than first estimated, as the men had just struck a large body of rich ore, and how the fire level in shaft No. 3, which is ruined by caving. It is understood now that the fire started from a candle dropped by a miner coming up for supper at midnight. It is impossible to get down into the mine at present and searching for the bodies is given up until the mine can be cleared of caving and water. It is feared the fire will extend to rooms and the shafts and make the work of destruction enormous.

3 Bare Bodies Recovered. IRONWOOD, Mich., March 17.—The bodies of the remaining three miners, Waller, Sullivan, and Banks, were recovered from the Germania mine today. They were found together behind a large log chest at the bottom of Shaft No. 2. The fire has been extinguished. The loss is about \$10,000.

BLAZES OF ONE DAY. The Hammer Shop at Fullman Burned—A Big Fire in Chicago. CHICAGO, March 20.—The hammer shop at Fullman was burned early this morning, causing a loss estimated at \$28,000 by the company. JACKSONVILLE, Fla., March 20.—A disastrous fire at 1 o'clock this morning destroyed two blocks of buildings in La Villa, a suburb and boarding house in the city proper, causing a loss of nearly \$125,000, largely covered by insurance.

CREVASSES WIDENING. Raging Rivers are Inundating the Entire South. VICKSBURG, Miss., March 20.—The Raleigh and Odessa crevasses are making bad work with the railroads. The Mississippi Valley railroad is under water at La Grange and the track is being staked down and wired to trees to prevent it being washed away. The Shreveport division of the Queen and Crescent route is in about the same condition. The water is rising seven inches a day. The crevasses are widening, but no loss of life is reported. The damage to the country, however, is great. The Nita crevasse is now 450 feet wide, and the water has spread over plantations for a distance of over twenty-five miles.

Robbed of H. S. MILLS. CLEVELAND, O., March 20.—J. L. Sterrett, of Sterrettania, Pa., left St. Louis last night on the Big Four road with \$3,300 in his inside pocket. On the train was an honest appearing man, who said he lived near Mr. Sterrett's home. When the train arrived here today the stranger man snatched Sterrett's pocketbook and escaped with it. Sterrett is an old man, and is left penniless by the theft.

in numerous places and at several points on the second floor, there are holes large enough to allow a man to put his arm through. As soon as the report of the inspectors was agreed upon Commissioner De Lentyer began making preparations to raze the buildings. The rear half of the Becker block yet standing will be pulled down first, and it is believed that when it falls the Sloan block will tumble also. Mayor Sullivan sent for City Attorney Taylor and instructed him to proceed at once under the law and have all buildings supposed to be

inspected. Every building that is unsafe, said the mayor, must come down. Serve notice on the owners of such properties, and if they do not tear them down, we will do the work for them. This slaughter of human lives must cease, and death traps must be cleaned out. The city attorney is preparing the legal notices, and several buildings will either be taken down or made safe. The home of Henry Woodruff, the fireman whose body is still buried in the ruins, is the scene of a heartrending spectacle. When the widow was told of her husband's death, she bore up bravely, and her breaking heart beat in sympathy for her sisters in affliction. She only asked that the body be brought home instead of to the morgue, that she might give it the last offices of a loving widow. Seating herself beside the body, she passed up her arrival of the mangled remains. All day Tuesday she sat at the window gazing eagerly down the street. The long hours in the night she passed at her post, nor did she move the next day. At the rattle of every wagon, she started and then in low mournful tones she said: "Oh, why don't they come; will they never bring him back to me? Oh, God, why don't they bring him! Kind and sympathetic friends have begged her to rest, but she heeded them not, and brushing the glass wet from the dew from her eyes, continued her vigil. It was early this morning when she was told that another building had fallen over her husband's body and her anxious friends advised her to rest. She never forgotten by the persons present. Her's is not the frenzy of grief, but it is the grief that breaks the heart and kills.

CONSUMPTION

BE WISE IN TIME. Tuberculous deposits in the lungs characterize the initial stages of Pulmonary Consumption, that fatal scourge of our youth. They can be arrested in their growth and dispersed by the use of DR. COBB'S VEGETABLE COMPOUND, the most wonderfully successful remedy of the age.

Consumption, which annually carries off its hundreds of thousands, is the result of weak and vitiated blood. This, when pumped through the heart and into the arteries and veins, moves sluggishly and tends to form in the lungs the tubercles which mark and accompany Pulmonary Consumption. These increase and harden. The irritation which they cause induces coughing, the tubercles are torn away and expelled, and so the lung is destroyed. No medicine will make a new lung, but the prompt and continued use of DR. COBB'S VEGETABLE COMPOUND arrests decay, restores and invigorates the system, purifies the life-giving fluid, cleanses the skin and rejuvenates the entire system.

A WORD TO THE WISE. Scrofula, essentially an hereditary disease, caused by poisoned and impure blood, is one of the most wide-spread and deadly of the evils which afflict mankind. In the scrofulous body there is a tendency to the production and deposition of tubercles in the tissues and organs. The best treatment is hygienic. Great attention should be paid to the diet, which must be nutritious and abundant. Eggs, milk and animal food should be taken freely. As to medicine, its sole use in this disease is to strike at the root of the trouble by purifying the blood, and for this purpose nothing serves so well as DR. COBB'S VEGETABLE COMPOUND.
