SUGGESTIONS FOR THE SEASON.

Be especially careful of draughts and sudden changes. Do not overwork. Of what use is wealth without health? Keep your feet dry, but do not wear over shoes all the time. Remember that the pores of your skin, when in health, are always open, and that closing them causes sores. Dress warmly, but not heavily. Woolen clothing that permits the exhalations of the body to escape is best. Eat strengthening and hearty, but not too much fatty food. Contains the most vitality. If you feel chilly at any time, take a drink of whisky, at once. Duffy's Pure Malt is the purest and best and has the highest recommendations. Do not call the doctor for every slight ailment. WHEAT QUIET AND EASY.

Only a Light Business and a Decline of Three-Eighths of a Cent From Saturday.

Firm Feeling in Corn—Oats Quiet—Hog Products Advanced.

Financial Operations of the Money Kings—The General Quotations.

Chicago, March 31.—The weakness which was apparent in wheat on Saturday, for the fear of cold weather, was plainly shown today. While the market did not go to pieces, the talk and feeling became very bearish. The receding pace of the day was the decrease of 3/8 cent in the visible supply, when the popular estimate was for a decrease of about 300,000 bu. or less.

Country elevator stocks in the Northwest increased 428,000 bu. for the week, but this was surely expected. The bearish influences of the day were weak and favorable crop weather—a failure of the crop-killers to confirm previous reports of damage, small export clearances and the absence of anything like manipulation of the market.

The market opened steady, but after May sold 7/8 cent higher there was a disposition to let go of long stuff, and the offerings were so general that the trade was in quite a flurry as the price went off quickly to 79 1/2 c. After a little rally to 79 3/4 c. May went to 79 3/4 c. and the bottom figure up to 1 o'clock. Before noon there was a rally to 79 3/4 c., and at 1 p. m. the market was nervous.

June sold at 79 3/4 c. to 79 3/4 c., and 79 3/4 c. to 79 3/4 c. up to 77 1/2 c. and 79 3/4 c. to 79 3/4 c. New York cleared 53,000 bu. wheat and 10,000 pkgs. of flour. Other clearances were insignificant, aside from 10,000 bu. of wheat out of Philadelphia. Seaboard business reported no new export business and late cables were lower. There were no new features in wheat before the close. Last prices were near the bottom for the day. Receipts were 56 bushels, 807 cars corn and 103 cars of oats. Shipments of wheat, 94,787 bu. and 19,728 bu. oats. The visible supply statement shows: Wheat, 2,087,000 bu.; oats, increase, 23,000 bu. Corn was moderately active and stronger. There was a little much to bull the market on, but the backward spring was used as a lever, and the presence of brokers supposed to be acting for Hutchinson, who were bidding the market up, and good open buying by other prominent operators, who sold shorts to covering and developed a good deal of strength. Baldwin & Farnum, Schwartz & Dupe, Counselman, Harvey and McCormick all bought more or less May and June. The offerings were rather light throughout, and the feeling most of the time nervously firm. Oats were quiet, but steady and firm. May sold at 22 1/2 c. and 22 1/2 c., but very freely at outside. The strength was largely due to the firmness in the corn market. There was not much significant buying, but the price was very steady, with few weak spots. Provisions were quiet, firm, with no special features of any kind. There will be no session of the board of trade to-morrow, but the usual market clearing and deliveries will be made on Wednesday. The leading features ranged as follows:
