Donaldson's Glass Block Store!

We have now completed our many improvements which the phenomenal increase in our business the past season compelled us to make.

We've now better facilities, more modern methods and every known advantage of conducting

A BIG ENTERPRISE

A large business must naturally have a large outlet. Our purchases are made directly from the fountain-head, saving the middleman profit, and as a consequence save enough in purchasing alone to offer our merchandise at a less price than exclusive dealers pay for theirs.

Our business being conducted strictly on a cash basis, and where our sales run up into the millions annually, we can afford to take a very small margin of profit.

Credit and installment houses incur losses which the cash buyer is surely taxed for; hence where no credit is given no losses are made.

Donaldson's Glass Block Store has become a household word. Old and young are alike familiar with it.

Ours is the store for the people and

All Are Welcome!
