

NEARLY TWO CENTS LOWER
July Wheat Goes Backward at a Lively Rate.

THE BULLS ARE REALIZING.
St. Paul Steadily Appreciates in Value While Other Stocks Are Sagging.

CHICAGO, May 24.—A good business was transacted in wheat to-day, and trading was more general, but on buying and selling side. There was some buying at the start, but the most urgent orders were soon filled, and with rather free offerings a weak feeling set in. Operators soon after the opening became depressed, and it was felt that some one was selling wheat very freely and loading up the crowd, and this started a rather general desire to realize. It was thought that parties who were reported as being strong "bulls" the past few days had started to do some selling to-day, but whether this was for the purpose of breaking prices in order to get a better hold on the market, or for the purpose of unloading it is difficult to say. At any rate the feeling was unsettled. The opening sales for July were from 1/2 to 2/4 under the closing yesterday, held steady for a while and then declined to a point 2/4 below outside prices, fluctuated some, and closed about 1/2 lower than yesterday. May closed about 2/4 lower, August closed about 1/4 lower, and September 2/4 lower than yesterday. All sorts of bad crop news was again received from various winter wheat sections, a good deal of a repetition of the past few days.

Corn.—There was a continuation of the weak feeling manifested during the greater part of yesterday's session, and a still further decline was recorded on all futures. Trading was of a moderate volume and mainly local. The market opened at about the closing yesterday, but under free offerings, trading was sold 1/2 to 3/4 lower, ruled steady and closed 1/2 to 3/4 lower than yesterday. Oats were fairly active, but weaker and lower, with large receipts. There was a fair demand existing, but the selling pressure was too strong, especially for May, which received 2/4 to 3/4 under yesterday's closing. The market about inside figures. The more deferred futures sympathized with May, and received 1/4 to 1/2, closing at about the bottom figures. There was a little doing in pork. Opening sales were to be advanced, but prices received 1/2 to 3/4, again 1/2 to 3/4, and the market closed quiet. Only a moderate trade inlard, with steady feeling. Prices ruled about 2 1/2 higher, closing steady. The short rib market attracted but little attention. Prices exhibited very little change.

The leading futures ranged as follows:

Table with columns: Wheat, Corn, Oats, Pork, Lard, etc. and rows for various months and grades.
