FOYER GOSSIP. Comic opera of the class placed before the St. Paul public by the Wilbur, can scarcely be called a "trifle" in any sense, yet that it pleases the public has been evidenced by the packed houses which have marked the progress of the engagement here so far. The secret of success in production of the best known comic operas on the American stage to-day seems to consist in the amount of horse-play that can be crowded into each act, to the sacrifice of everything artistic that may have been in the piece as originally written. For the most part the members of the company now playing here are capable of much more artistic work than any they have done in the operas put on in St. Paul. The reason for this is the presence of the almanac gags and the transparent jokes which have been the originality of the operas upon which they are forced, is that said gags and jokes convince the audience with laughter and gain recalls for the jokers, while the operas themselves under the low comedy introduced would be pretty certain to fall flat. The antics and ancient jokes of the comic character cause spasms of laughter, while the portions of the operas most to be admired from

the beauty of the music or the sentiment gain but feeble recognition. It is not to be wondered at that operatic managers, recognizing that to be successful they must please the public, have abandoned the effort to be artistic in anything but the dressing of their productions. Shamefully crippld for the chorus, and handsome costumes to set them off to the best advantage, a strong vein of horse-play running through the entire performance, and trying to deceive the public by the successful opera company of to-day, it is useless to compare the tenor of such a company to that of Tom Karl. The former works for \$50 a week, and the latter for \$300, singing only three times; or to rave about De Lussan to the disparagement of Susie Kirwin, who does not draw De Lussan's salary nor claim the latter's right to the title of prima donna soprano. We have here a company, each member of which is of good reputation in his or her particular line, playing a repertoire of seventeen operas, and trying to deceive the public in each for 25 cents. It must be said in all fairness that the show is a phenomenally good one for the price.

Messrs. Oppenheim & Kalman state with regard to the Metropolitan opera house that the Wilbur company, was a success in every way.

Belle Hamilton and Norah Howard made their debut with Spanish dances in "The Chimes" last week. It was more gracefully executed on each succeeding night and may be referred to as one of the pleasing features of the performance.

J. H. Jones does a powerful bit of acting as Gaspard, a more truthful conception of the part of the miser having seldom been seen here.

St. Paul is, in a measure, interested in the success of the Lineau-Router concert company, which takes the road early this week. It is a first-class concert will please the people along the route to be taken they will be pleased, for a large aggregation of artists could scarcely be wished for. Mr. Lineau's tenor has won him laurels in St. Paul, and his voice merits all that praise which is given him. Herr Jacob Reuter as violinist is as fine an artist as has been heard in this part of the country, and his playing is of a high order. Miss Mary Louise Aigen will give dramatic readings in her inimitable style, and Prof. Eugene Kaufner is the pianist of the company. Fred C. Hueber is manager, and Bert H. Gordon business manager.

Conley's tenor has improved to such an extent since he was heard in "Erminie" as to give rise to a supposition that he had been laboring under the disadvantage of a bad cold. His work in "The Chimes" was such as to create a most favorable impression.

The class of '90 of the manual training school will hold graduating exercises Friday afternoon, June 13, at the school assembly hall. An extremely interesting programme is in course of preparation.

The scholars of St. Mary's school are preparing a musical orientation and will give shortly. The institution is usually well off for musical talent, and the event should be worth hearing.

New Trial Refused. Judge Kelly has refused the motion of the Manitoba road to grant a new trial in the case of N. H. Conger against the road. Conger received a verdict by the jury for \$500 damages by reason of an accident to an employee of the company on a train between St. Anthony Park and St. Paul.

In the case of the St. Paul National Bank against James Cannon et al. Judge Kelly has refused to grant the motion of Cannon's attorney for a new trial. The action was on a promissory note left with the bank as collateral, upon which judgment was given in favor of the bank.
