THE STORY OF A DAY. Winnipeg banks refuse American money.

DEMOCRATS FOR REFORM. There are honest and fairly intelligent people who think the Republicans managers always want to work at the ballot box.

FIRE SILVER COINAGE. The most encouraging sign of an awakening public conscience that has been seen for many a day was visible in the action of the senate on the silver bill.

BENJAMIN BACKS OUT. President Harrison is a wise man if he knows when he has enough. And if there be truth in the report that came from Washington last night that he would not be a candidate for re-nomination.

THE ORDER OF STATES. It is not believed that the census will change the rank of the four largest states from that held in the count of 1880.

THE MERRIAM SLATE. There will be a kick in the convention. It will not effect the slate; the politicians will see that it is nominated without a break.

COMING MINSTREL JOKES. Mr. Fargo (admirably)—What an exquisite carriage Mrs. Simcoe has!

NORTH DAKOTA'S HOPE. North Dakota looks hopefully, even confidently, to the return this year of one of the earlier time crop years.

THE IDEA OF CEDING HELIGOLAND TO THE KAISER WAS ENTIRELY ENGLISH'S. The idea of ceding Heligoland to the Kaiser was entirely English's.

FRANCE AND RUSSIA TO OPPOSE ENGLISH DOMINANCE OVER ZANZIBAR. London, June 18.—Lord Salisbury's surrender to Germany is the main topic of discussion.

AN IMPORTANT FACT OVERLOOKED. In their eager efforts to enact a federal election law which would affect the election of representatives to the Fifty-second congress, it appears that the Republicans overlooked the fact that their own party had elected their representatives in June instead of November.

HE MAY GET IT THERE. Memphis Avayhatch. The result of a bigger majority this fall than ever before. He ought to get it in the neck.

THE SPIRIT IS NOT DEAD. The resolution against George C. Peck, which was introduced by the Third and his ministers was a consequence of taxation without representation.

INDULGE IN SENSIBLE READING. Louisville Times. Mr. Clarkson complains loudly because the Republicans are reading Democratic newspapers; this is the best claim the G. O. P. has to be called the "party of progress and intelligence."

TAKE HIM IN CHARGE. Kansas City Times. Elliott F. Shepard, the revived modern day Balzac, who had been less than his ass, has been taken in by Cleveland and to this effect: "That had Harrison's predecessor been re-elected to the office of president, he had a secret plan for the South by which it should be the cherished object of his lavish bounty and nothing the Southern brigadiers should be for." Shepard carried out, Shepard says, "would have plunged this country into another war."

BETTER INDICATED. St. Louis Post-Dispatch. The press reformer comment on President Harrison's accepting several cargoes from admiring manufacturers. The press reformer says that the manufacturers are too large to be overlooked, and when such presents are made by distinct officers and large importers civil service reform is awfully scandalized.

PENSION HIM OFF. Fort Worth Gazette. Protection is making us famous as well as rich. It enabled Pettit, a young man from New York, to go to London and take the shine of the crack lawn tennis players of her majesty's proud realm.

THE LICENSE MONOPOLY STOPPED BY prohibition, and much less difficult to conclude that a big lottery is demoralizing. The temptations of the same, however, will apparently be avoided.

A TEAPOT TEMPEST. Wisdom is seldom born of ill-temper. nor is the clamor of an excited populace a proper substitute for argument.

THE INDEPENDENTS. An example of one-eyed wisdom is furnished by the St. Louis Globe-Democrat, the leading Republican paper of the Southwest, when it insists that the alliance independent movement is an attempt to divide the Democratic party.

THE ORDER OF STATES. It is not believed that the census will change the rank of the four largest states from that held in the count of 1880.

TOPICS TALKED ABOUT. Helena's Montana capitalist, is now on the road. The Adairville hotel, says the Chicago Tribune. He is one of the committee that went to New York to petition the Northern Pacific road to build a line from Helena to the Adairville.

SALISBURY'S BLUFF. The two leading English newspapers, the Times and Standard, both published in London and right under the eyes of Lord Salisbury, have recently assumed a belligerent attitude toward the United States, and talk as if war with this country were the most probable thing in the near future.

SATISFIES NOBODY. With anything less. A meeting of the Colorado Silver association was held here to-day, and was addressed by F. G. Newland of Nevada, a member of the national silver committee appointed by the St. Louis convention, who has been in attendance, was in Washington this winter. He gave an account of the pending legislation and the position of the Democratic party and the administration, and prominent politicians with reference to it. He urged the extension of the work of the national silver committee, the organization of a bimetallic league under the presidency of Gen. Warner, of Ohio, which would have the cooperation of the bimetallic leagues of France, England, Germany and Italy, and to extend in those countries the work of the national silver committee. A BLUNDER THAT MAY COST THE GOVERNMENT ITS VERY LIFE. The Russian minister of war has made a concession to the ladies by issuing an order prohibiting cavalrymen from wearing ordinary spurs at balls.
