houses have been built in remote suburbs on their reliance, and tradesmen have gained and lost customers because the old routes and methods of travel have been altered. If the system proposed were to be able to walk up stairs with comfort. But now, when the elevator stops running, business is suspended everywhere above the second or third stories.

Nothing pleases Senator CULLOM more than to have it said that he looks like ABRAHAM LINCOLN. Some way it ticks the president's fancy in his honor. There is no more resemblance than in the average of cases, and the senator has never risen above the grade of politicians who know enough not to write letters that need burning, but he has had a steady run of luck since he joined the Republicans and was elected to the legislature in 1890. He has had hardly a glimpse of private life since.

AT THE late New England dinner in New York city ladies were admitted to the boxes to hear the speeches, and the statement of Judge RUSSELL that it was a mistake to allow their presence has raised the question as to whether the published reports of the speeches were accurate. The descendants of the Pilgrims could not require the absence of ladies on such occasions.

THERE are eighteen harvester companies named as members of the new trust. Perhaps they will reduce the number one-half after they have discharged 8,000 employes, as it is alleged they can.

LAFAYETTE COLLEGE, in Pennsylvania, a leading institution, proposes to give one student from each county a year's free instruction in school building. Good roads help out any county.

NOTICE that the senate is composed of married men with a single exception. The only widower is a senator from the house the Benedicks are to the bachelors almost as to ten to one. This shows that most of our Solons have already achieved something, and marks them as men of steady habits and position.

THE GLOBE wishes the new legislature good morning, and bids it welcome to the city.

says that they ought to furnish free theaters and music halls for the amusement of the people. No one of these things has any connection with party lines, as far as we can see. They are business matters, in the proper management of which everybody is interested.

This change of view and this development have made the science of municipal government a special study of the day. It is not a matter of high grade of expert knowledge is required to deal with its various branches. The mere fact that a system has worked well or ill in a particular place is no evidence that it is or is not adapted to a community of a different sort. We would not be understood to approve or condemn the plan of the chamber of commerce, but we suggest that it be taken for reflection before it is adopted.

THE Nashville American means well, but it makes a genuine Irish blunder in saying: "Dr. Harrison might save himself a good bit of worry by forcing his head into his grand neck. There is no more resemblance of making a living after March 4, 1893." How much force does it require to put a number six head into a number eight hat?

Dr. Harrison is accused by some well meaning papers of jealousy in not appointing Judge Fresham to the supreme bench. The sentiment that Judge Harrison does not deserve the dignity of jealousy. It is ignominious, gutter-born, petty spite.

Vanderbilt was coarse, Senator Edmunds is classical and polished. Vanderbilt said: "The public be damned." The senator says: "What the people think is entirely immaterial to me." Vanderbilt is a different route. Vanderbilt came in a cattle car; Edmunds in a Pullman sleeper.

THE death of Gen. F. S. Spinner removes from earth a man whose wonderful photograph was worth as much before as after his death.

There are more presidential possibilities concealed in the tariff question than there are in present proposals. The tariff is a narrow, but it is a narrow reason for Republicans to learn, but they must learn it in 1902.

Marshall Field & Co., of Chicago, propose to knock right away, as soon as the supreme court of the United States can attend to their case, whether or not Bill McKinley is a bigger man than a horse, and whether or not the freight for the purpose of obtaining such information.

C. M. Schultz, editor and proprietor of the St. Joseph News, is responsible for the publication of a New Year's edition of his paper which was a masterpiece of journalism and ability and to the city of St. Joe. It comes to us a twenty-eight-page paper, with handsome illuminated cover, and all the highest style of clearness and statistical excellence. The journal also brings along with it an aroma of financial propriety not at all unfamiliar to the atmosphere in which Mr. Schultz's good work abounds.

Sarah Bernhardt, accompanied by her two snakes, will arrive in New York next week in February. Had Sarah managed to time her visit immediately after the holidays her snakes would have had lots of company in New York.

A New York clergyman lately said, in a sermon, that he was glad the Ten Commandments had no place in politics had been left at home for the next two days. It is pleasant to hear a clergyman say that, and it is a relief to hear a politician say that.

BUCKS IN A FERMENT. Turtle Mountain Indians Have a Grievance. ROLLA, N. D., Jan. 5.—The 3,500 Indians of the Turtle Mountain band are in a ferment over the action of United States Commissioners Hayes and Mahone, who left here Jan. 1 without accomplishing anything. It is said they wanted to be removed to White Earth, Minnesota, and are loud in their denunciation of the commissioners.

THE settlers in the neighborhood are alarmed at the situation, and a considerable number of troops in the region, and have sent a protest to Washington against the longer maintenance of this country on the reservation of the North Dakota border. The reservation consists of only two townships, and the Indians are generally thought to be a hardy lot.

A FAMILY AFFAIR. Tim E. Byrnes to Be Sued by Mrs. Goodrich. A suit has been begun against Tim E. Byrnes by Mrs. Goodrich, his wife's mother. It seems that some time ago the local attorney purchased from the lady quite a large amount of real estate, giving her as security mortgages upon the property.

CREATED DISGUST. Orders to Disarm Southern Indians Excite Anxiety. WICHITA, Kan., Jan. 5.—The orders telegraphed from military headquarters to Capt. Woodson, of the Fifth cavalry, to disarm the Indians in the Cheyenne and Arapahoe country have created the greatest anxiety among the settlers in Oklahoma and on the borders of Texas, and genuine disgust among the troops. The Indians of the Southwest reservation are angry at the order, and many of those who know the nature of the red man see in the proposed disarmament a source of a disappointment, and a comparative quiet which has been the result of a mild character.

HOW WALLACE DIED. Five Bucks Paid the Price of the Captain's Death. LEAVENWORTH, Kan., Jan. 5.—A letter from Pine Ridge agency details some hitherto unknown facts concerning the death of Capt. GLOBE TOWER SHOWS.

Uncle Jerry Rusk's presidential boom is being killed by the kicking of a Waterbury watch.

Bayonets are behind the force bill, and the force bill is knocking along behind a second term for Ben Harrison.

All attempts to explain the true inwardness of the machinations of the silver ring so far have failed. Every one is ready to admit that there is a speculative gang of silver bidders of uncertain ancestry, but no one has the hardihood to set an individual as "the man." The condition is best illustrated by the ancient stanza: "He who is in and who is out, He who is in and who is out, Whether the man who made the track Was going south or coming back."

Another collapse of brick walls in Chicago has been suggested in the news of the day. It looks as though Chicago were getting to be quite sensitive over such occurrences as are railway accidents concerning train wrecks and other accidents.

EMMA ABBOTT DEAD.

America's Favorite Prima Donna Passes Quietly From Earth.

The Sweet Singer's Last Words Were "I Am Not Afraid to Die."

The Closing Scene at the Diva's Deathbed a Most Pathetic One.

Biographical Sketch of a Heroic Life Struggle for Success.

SALT LAKE, Utah, Jan. 5.—Emma Abbott, the great American prima donna, died at the Hotel Templeton, this city, at 7:40 this morning, of pneumonia. She was taken ill Wednesday night, but persisted in going on the stage and singing her part in "Ernani" notwithstanding her physician's advice not to. On New Year's day she was taken alarmingly ill, and a conference of physicians was ordered. From that time she has grown worse until this morning, when she died.

Her husband, Mr. J. M. Abbott, mother of the late Emma Abbott, together with a younger brother and sister, reside in this city. Her brother says of her: "There are very few men who are as capable in the management of business affairs as my sister. She had a
