trading was principally of a scalping character. The corn market was firm and made another slight gain in prices. The accounts from the states of Kansas and Nebraska were bullish in their tendency. Oats scored another advance on the strength of light receipts and a good demand for the cash article. Hutchinson Aldrich and schwartz-Dupee were the principal buyers, while Milmine-Bodman led the selling. The opening was at 46½c for May. Thence the price went to 46¾c 46½c, to 46½c, to 46½c, closing at that price, ¾c above yesterday. The provision market was dull and featureless. It opened quiet and unchanged. Cudahy was a seller of ribs and lard, and Ryan and other packers were sellers of ribs when an opportunity offered to do so without breaking the price. Opening at slight declines from yesterday's close, owing to heavy receipts of hogs, there was a small advance, followed by a reduction, then another advance to outside figures.

FITZGERALD & SMITH. COMMISSION -:- MERCHANTS, Gram, Provisions, Stocks,

May Yet Fight. Charleston, S. C., Jan. 9.—În reply to a challenge from J. R. Tillman, nephew of Gov. Tillman, to fight a duel, N. G. Gonzales has published a card, in which he explains the reason of the challenge, assigning the cause to the correspondence which went on during the recent campaign. No formal challenge has yet passed. Tillman is in Augusta, Ga., four miles from the famous sand bar ferry duelling ground. The gauntlet will probably be thrown down according to the code to-day, and the meeting will be had if the men are not arrested. CHARLESTON, S. C., Jan. 9.-In reply to

County Seat War.

TOPEKA, Kan., Jan. 9.—Adjt. Gen. Roberts started this morning for Garfield county to prevent trouble. A dispatch received here prevent trouble. A dispatch received here announced that Rawenna and Eminence, rival towns, are both claiming the county seat, and that an armed force has been organized in Revenua to capture the county records now at Eminence. Two years ago there was a fight between armed forces from the two towns on the same matter, and several men were killed.

severely strained many concerns, and prices of goods have been very low, but further reductions have been very low, but further reductions have been made during the past week in bleached cottons. The woolen manufacture is doing fairly, though extending but moderately, and buying wool with caution. In the boot and shoe manufacture the outlook is regarded as especially favorable. Reports of trade from different cities are still much influenced by reviews of last year's great business, but generally indicate a large volume of traffic in progress for the season, with marked improvement since the monetary pressure abated. Boston notes larger sales of boots and shoes and of feather, and stronger hides firm wool and quiet lumber. At Philadelphia the leather and shoe trades are duil; wool is in little demand, some uneasiness is seen regarding obligations in tobacco, but better collections in paints. At Chicago receipts of grain equal last year's: increase is seen in butter and cheese, hides and wool, but decrease in dressed beef, cured meats and lard; dry goods and clothing sales exceed last year's with excellent payments, and the shoe trade increases. St. Louis and Cincinnati note better trade. At Denver trade is good and at Salt Lake decidedly improved, while at other Northwestern points business is unchanged or comparatively quiet. Higher cotton produces great activity throughout the South; sugar and rice receipts at New Orleans are good. The money markets throughout the country are less stringent and reports of collections more favorable. Speculative operations continue wholesomely inactive. Wheat is 1½e lower, with sales of only 11,000,000 bu; corn, cotwholesomely inactive. Wheat is 1½c lower with sales of only 11,000,000 bu; corn. cot ton and pork unchanged: oats and hog higher, and oil 2½c, but coffee ¼c lower. The lingher, and oil 2½c, but coffee ¼c lower. The most active center of speculation at present is the stock exchange. Foreign trade continues favorable, exports showing a large gain over last year, while there is some decrease in imports. The merchandise movement supplies no reason for the advance in foreign exchange, nor does the local money market, and the treasury has put out during the week §1.500.000 more cash than it has taken in. For some weeks to come, at least, comparatively easy money might be expected if there should be no disturbance arising from legislation. The business failures occurring throughout the country during the past seven days number 4 13, as compared with a total of 348 last week. For the corresponding week of last year the figures were 373

and, while there were periods of dullness and some reaction. the upward movement met with no serious interruption during the day. The opening was strong, and during the forenoon the heavy covering of shorts sent prices up rapidly, and while the movement was much less pronounced later in the day, the strong tone was never impaired. Atchison rose on the reports that Mr. Gould had bought a large block of the stock from the Barlings and in the Villards which were prominent, though there was manipulation for higher figures, supposed to be by the Standard oil interest. The grangers were all strong on the results of the conference, but no marked gains were scored outside of Rock Island, which has been subjected to some severe pressure of late. The close was strong and confident at or near the best figures. Reading is the only one among the active stocks showing a decline this evening, and among the important gains are Sugar Refineries, 5 per cent; Rock Island and Northern Pacific, each 11½; Western Union, St. Paul and Colorado Coal, each 11½; Wabash preferred, 1½; Western Union, St. Paul and Colorado Coal, each 11½; Wabash preferred, 1½; western Union, St. Paul and Colorado Coal, each 11½; wabash preferred, 1½; important gains are subjected than at any time for a long while, certainly since last spring, and with transactions of \$3,972,000, material improvement was made in prices all along the line. The only marked exception to this rule was the Reading issues, which were sold because of the non-payment of interest on the income. There was again great activity in spots, and Atchison incomes furnished \$208,000, the Texas Pacific incomes \$2.65,000 the Northern Pacific fives \$232,000, and the Kansas & Texas seconds rose 3% to 44½; Toledo, St. Louis & Kansas (ity firsts, 2 to 87½; Louis Wille, St. Louis & Texas firsts, 2 to 80,000, earnment bonds have been dull and steady. Ohio Quakes. Tolebo, O., Jan. 9 .- Just at noon, a shock

TOLEDO. O., Jan. 9.—Just at noon, a shock of earthquake was felt here that shook houses, rattied windows and frightened horses. The shock came apparently from the south, and a slight rumble accompanied it. It was at first supposed that it was a dynamite explosion at some point in the oil field, but telephone messages to all points within a radius of fifty miles to the south and southeast showed that to be incorrect. The shock was about the same in its effects at all points as at Toledo. An exactly similar shock was experienced all over the same area in the fall of 1884.

Chamber of Commerce.

There was a feeling yesterday morning that wheat would advance, and there was more disposition to buy for future delivery. Prices advanced slowly, with a light trade mostly of a local character. Cables were strong, and on the strength of them there would have been more buying demand, only that many are waiting for the January government report. Snow in the Southwest and in Europe recently was the bear feature, giving better prospect of the future crops. The movement of spring wheat from farm granaries was reported small. The range was not wide, but there was enough to show an increasing interest in the trade. The talk was that if the government report is encouracing a good buying interest would develop. The small strivais in the country leaves no futures to sell against them. as it is supposed the shipments from interior elevators exceed the receipts at them. Total receipts at the four principal spring wheat points since Aug. 1, the beginning of the crop year, foot up: Minneapolis, 29,751.566 bu; Dulath, 10.701,753 bu; Chicago, 9,971,558 bu; Milwau-kee 4.222,89 bu, making a total of 54.652,466 bu, against 62,843,000 bu during the same time last year, and 40,162,315 bu in 1889. Total receipts of wheat at the four principal winter wheat points. Toledo, St. Louis, Detroit and Kansas City from July 1 to date are 20,346,117 bu, against 23,043,196 bu in 1890, and 24,862,465 bu in 1*89. Local flour shipments since Jan. 1 amount to 131,185 bbis, against 125.246 bbis during the same time in 1890 and 65,219 bbis in 1890. Cars inspected out since last report were: 1 No. 1 hard; No. 1 northern, 79 cars; 35 No. 2 northern; 15 No. 3; 17 rejected; 4 no grade. Combined receipts at Minneapolis and Duluth for 24 hours, 256 curs, against 219 cars a year ago. Flour shipments were 19,957 bbis.*

Cash wheat—There was a good cash wheat demand, and sales to arrive were more easily affected. Receipts only 230 cars, and the good wheat for local milling was needed here. A small number of cars were brought by elevato Chamber of Commerce.
