CHICAGO, Feb. 16 .- Secretary George SKI TOURNAMENT TO-DAY. J. Gibson, of the whisky trust, has been indicted by the grand jury, and to-morably be again arrested and compelled to give bail in the state courts in addition

sip. Yesterday afternoon was the time set apart by the court for memorial services to the late Judge H. R. Murdock, and at 2:30 nearly every member of the Washington county bar and several friends of the deceased were present at the court room. The following resolutions were framed by a committee consisting of Messrs. N. H. Clapp, Fayette Marsh, J. C. Nethaway, C. P. Gregory, F. V. Comfort and J. N. Searles, and in their behalf Mr. Clapp in a few appropriate remarks moved that they be pewar was accompanied to the gland jury room with a guard of five special government agents. evidence against Gibson that little if any was needed afterwards. Dewar had the letters said to have been received from Gibson and also the bottles of fluid and the infernal machine alleged to have been sent to him by the secretary. An experiment was made with the fluid in one of the vials, and it burst into a bright flame as soon as poured out on a piece of paper. The fluid was sworn to be precisely the same as was taken from the valise carried by Gibson the morning of his arrest. The infernal machine was not un-

The sum of \$50, supposed to have been taken by the robbers, was later found in a teapot. The Market Honeycombed With a Number of Bearish Features.

Wall Street Very Dull, and Lacking in Motive or Character.

Foreign Stocks Exert the Most Influence of Any on the List.

CHICAGO, Feb. 16 .- Hutchinson was selling wheat, corn, oats and provisions, and his was the dominating local influence in the grain pits. The continued liberal receipts of wheat and smaller decrease in the visible supply than the year before and heavy rains in California were the bearish features; the predictel cold wave and the strong European markets were the chief factors having an opposite tendency. Fluctuations in May were confined to 971/2@975/sc as the highest for the first hour. After touching 98% c there was a break on free selling to 97% @971/2, but there was a little recovery before the close. Corn was generally rather firm except during the break in wheat, when it sold off somewhat in sympathy. There was no news of importance affecting values, and local influences governed the trade throughout, which was light. Oats were about steady. The market was quiet, attracting little attention outside of the jocal scalping crowd. The provision business was dull and generally heavy in tone, without anything special which cropped up to-day to account for the downward tendency of the prices. The receipts of hogs were rather under

The farm movement of wheat was reported light in the amount delivered in country elevators, leaving a decrease of 148,000 bu in the latter for the last week. There is prospective decrease of more for the present week. Opening markets were quiet, and later, after a little firmness, the feeling was weak, and May sold down below the lowest figures reached Saturday. Liverpool was firm.

Later in the day prices advanced, and about noon were up to closing of Saturday, with ordinary fluctuations after it.

Cash wheat.

Local millers bought spot wheat freely at
the outset, but were soon filled up, and, with
a weakness in futures, held off for a break.
While they bought early in the session they
paid mostly about 98½e for No. 1 northern.
After that, and while futures were weak, it
was hard to get much above 93e for ordinary
country wheat. The poor wheat was dull
and slow, for shippers figured to hold off and
buy at the last, and get some advantage from
the necessity of seliers. Closed: No. 1 hard,
