SHARPS AND FLATS.

"Newspapers are sometimes guilty of the most stupid blunders," said a gentleman at the Ryan Hotel yesterday. A party from different newspapers engaged in naming prominent winners in the Western association. They were "fans," and pretty well posted on the game, but the names they gave were the names of the winners in the Omaha, Milwaukee and Lincoln.

"Some papers are more given to making bulls than others," observed another member of the party.

"Is that a reference to the first speaker?" "Yes," said the St. Paul-Sioux City game in this morning's Tribune. The city alleges that the game was played in Sioux City, and starts the report with a Sioux City newspaper which may have been intentional, however.

To issue national certificates to our foreign-born friends, who yearn to swear allegiance to the star-spangled banner that they may exercise the glorious functions of citizenship, is a big business. The state official who is qualified to administer the oath; but to Clerk Holcomb, of the supreme court, it is a matter of course. On the other hand, it entails a deal of work and other remuneration than is paid him by the state for the exercise of his plain duties at the office.

It is a matter of course, that a man who registers and an array of blank certificates, he left on a K. C. train for South St. Paul, to manufacture voters for the coming election.

A gold five-guinea piece is always worth \$25. Sometimes it is worth more and sometimes it is invaluable. It depends in point of value, largely upon the date of the coin.

Mr. White, the insurance attaché of Griggs, Cooper & Co., for illustration, possesses one that all the American dollars that may be exchanged in a national bank, if offered to the bank, would scarcely tempt from him.

Mr. White yesterday received from the St. Paul custom house a parcel of relics of all the nations and all departments of the world, the effects of his mother's estate. She died at an advanced age in England last fall.

Mr. White's ancestors for hundreds of years have been engaged in the naval department of the English government, and they profited by the opportunities afforded them by the sea.

The first sunny day at Lantonia witnesses some exciting contests. No stake events at Gravesend, but visitors were well repaid. A fifty to one shot mightily surprised Chicago race goers.

England's classical event is won by common in a canter. Cincinnati, May 27.—For the first time since the Lantonia races started the sun shone to-day. In the afternoon, however, the sky became overcast again.

Though a trifle cool, the weather was more pleasant than that of yesterday. Over 5,000 people enjoyed the sport. All the races were well matched and were characterized by close contests, the hindmost horse in every one of them keeping dangerously near to the fore.

An incident of the fifth race was the striking of Jockey Britton by Sir Charles in one of the false starts. Sir Charles ran around to the half, where he was caught. Britton remounted and rode the race.
