\$2.98 Each.

## TO-MORROW ST. PAUL BARGAIN MONDAY!

All Purchases Delivered Promptly the Following Day.

Whilst thanking the ladies of the Twin Cities and Interurban District for the overwhelming patronage that they are pleased to favor us with, we deem it no aniss to refer briefly to the fundamental principles underlying and governing the methods that have enabled us to attain a success that has few, if any, parallels in this country or this century. From the inception of our business career we have never indulged in what may be termed BUNCOMBE ADVERTISING. You really can't believe half you read nowadays. It is a very easy matter for this value or that value to be put upon goods, but no article has two values in different places. In no single instance have we failed to keep faith with the public. Our goods are marked in plain figures that "he who runs may read," and when we advertise to sell an article at half price, or any other fixed reduction, as we often do, we cheerfully ignore the character or size of the loss entailed and accept the inevitable without any attempt at evasion by any manner of sharp practice.
