A FEW SPECIMENS. ciasses to some extent, it is alleged that eign market relieves the main difficulty. A number of recent instances are reported that illustrate the practical value of these claims. One of these is that of the Buffalo manufacturer of patent dinment. Mr. EHLE, the head of the manby the Buffalo Courier in regard to the report that his works were to be removed to Canada. This was cabinet, they will not be refunded, but found to be the fact, and the explanation was that the increased cost of tin under the McKinley act made it impossible for him to manufacture his wares for foreign markets. Even for fiscal measure. In a public interview the American market there was more | Secretary Foster has stated that, if it profit in carrying on the manufacture in Canada. There was no prospect of ob- himself at liberty to use the \$100,000,000 taining any supply of American tin. of reserve set apart as the basis of the Across the river from Buffalo the for- nation's paper currency to meet the eign tin sells at \$3.62 a box, and on this side \$6. This is the statement of Mr. from this source that he expects to

our rent three times over."

"But haven't you forgotten the rebate of 99 per cent of the duties paid on all goods you \$100,000,000 reserve, which has been

Oh, no, we haven't forgotten that. But held in trust to meet any pos-"Oh, no, we haven't forgotten that. But our orders from abroad are smaller than our home orders, and when we figure on the labor and expense of collecting the rebate we find it does not pay to try for it."

"Are any other concerns moving into Canada for manufacturing purposes?"

"I understand that a number of American canners are about to go over, but they hope that the 2.2 cents duty will be taken off within a year."

This man is not a politician, but a business man, only interested in the success of his industry. Another industry of a similar character is the Weeden company, of New Bedford, Mass. It is one of the greatest producers of toys in the world. In their manufactures a great deal of tin is used. Heretofore they have been able to compete successfully in the markets of the world with the German and French dealers. The increased cost of tin and raw materials under the new tariff threatens to deprive them of their foreign trade. The abatement on the material when the manufactures are sent abroad is of no service to them.

An illustration in a different line is afforded by the American Screw company, of Providence, R. I. This is an old corporation, having been in existence over a half-century. It has pretty nearly control of the screw business in this country, and has had a large trade abroad. The tariff policy that adds to the cost of so much of its raw material has forced the company to abandon the foreign markets and establish manufactories abroad. It has in construction branch factories at Leeds, Eng., and Hamilton, Can., and will go also to Germany. The president of the company, in a statement in a Providence paper,

Says:

All the goods that we make in Canada and shall make in England and Germany could just as well be made in Rhode Island, were it not for the fiscal policy of this government. Employment could be given to thousands of workmen here in the manufacture of goods for the foreign market, if it were not hampered by a high tariff. We make better goods and could make them cheaper here than anywhere else in the world, in spite of the higher wages we have to pay, because our system of work is so much ahead of the European system. The American workman gets higher wages than his English brother, but he does more work in proportion.

We shall introduce the American system of work into our Leeds factory, with Americans after the close of the civil war, while

The rebate is of no use in this case also, because of the red tape and complications. About the only important in-dustry that it greatly benefits is the Standard Oil company. That, nowever, may be regarded as an industry that has assed the infantile stage, and is quite self-supporting, as are the great meatcanning houses at Chicago, and those of fish on the Pacific coast, who come in for benefits. The only features of the MCKINLEY system that are pointed to as affording any relief to the people are those that belong to free trade, and not to protection. Its tendencies are to shut out American manufactures from foreign markets, and obstruct access to them by the farmers.

some form of the Australian ballot reform. Do you think we are to blame, if, when w hear your name, who think of you as old Barnacle, the base ball crank?

Rev. Robert Christie, of the House of Hope church, writes the Globe as follows: Had the assumption underlying your leader of this morning entitled "Infant Damnation" been as sound as the spirit of the article is fair, I would not have troubled you with a word on the subject. Your assumption is that because one of the framers of the Westminster confession held that some in fants dying in infancy are lost, therefore the teaching of the confession contains the same doctrine. But apply this mode of reasoning to the Declaration of Independence and what would be the result? By reason of the relation that the writer of that document and a number of its signers bore the institution of human slavery, we would be compelled to believe that the words "All men are created free and equal, and have a right to life, liberty and the pursuit of happiness" were not intended to include the blacks then in America. If this process of reasoning be not legitimate when applied to that does not legitimate when applied to that docu-ment, why should it be considered conclusive when applied to the confession? Prssident Patton has well said: "The lan-guage of the confession is plain and our interpretation must conform to the funda-mental legal principle that requires us to find our materials for the construction of a document within the four corners of a docu

I need not remind you that my contentio in the letter which gave rise to your article was that the confession does not teach the doctrine, and, therefore, Presbyterian ministers and officers do not subscribe to it in ac now. All the towns, except perhaps | cepting that symbol of faith.

twelve or thereabouts was injured by a passing vehicle on the streets of St. Paul, picked up and carried to a hospital. It was found necessary to amputate one of his limbs, and he was delirious for days. Being a regular street "Arab," the nurses expected to hear some bad language from his lips during his delirium, but no; he talked incessantly, using no words which would offend the most sen sitive ear. When he began to recover the loss of his limb was kept from him as long as ossible, fearing the shock might increas his fever. One night, however, he insisted on being told just what shape he was in. The campaign for majority rule has been in-augurated by the Democrats, and should "I would have been in a h— of a fix if they nurse told him as gently as possible. had cut off the other leg."

An amusing scene occurred the other day It will be apt to take time to effect this, in one of the courts, and those who saw it have not yet done laughing over it. It appears that one of the old settlers of St. Paul, gardless of the popular vote, and will wearying of calling and dunning for a bill, brought suit to enforce its collection. When the day of trial came on, the old settler, who is as jolly an Irishman as ever wore sham-rock, was a little late showing up, and the jury had been empaneled and sworn. He entered, sat behind the attorney and rapidly ran his eye over the jury. When he reached the last man he sprang to his feet, and, regardless of court etiquette and decorum,

alled out:
"Holy Moses! Judge, every mother's son on that jury owes me a bill. Dismiss the case quick or I'll turn up in that fellow's debt."

RANDALL ON WINONA.

"While the citizens of other Minnesota of years to determine how effectively it cities are extolling their particular virtues and enviable conditions, I think you newspaper boys ought to say something about beautiful Winona," said R. A. Randall, of that city, at the Clifton last evening. "This is the season when our city is perfectly charming. The principal thoroughfares are shaded by giant elms that extend their rich. verdant arms almost across the street, so that the tree on the one side meets the environments of those on the other nearly completing a rich green canopy. Our streets are the delight and pride of our people. And we are thrifty and prosperous. Indeed, I doubt if there is another city in the entire state that is making the improvements the present season that we are. I notice very little building in St. Paul and Minneap is, and scarcely any other improvements in fact; but in Winona the new electric rail way system will be completed and in opera-tion the ensuing month, the new sewerage system will be finished before cold weather sets in, and there is no end to the number of buildings—residence and business—that are in course of erection. Besides nes of railroad during the war. Soliers were thick all the way, to obviate attenference by the nihilists. There were no speeches, no banquets at the ross roads. The ezar sees nihilists in already have a number of pretty squares and parkways, but this new institution will eclipse everything we have. Winona has en afflicted by the fire element of late, but it will not effect any serious drawbacks. For illustration, the wagon works were destroyed, but the establishment will be rebuilt at once, and I can say the same for the sash, door and blind company. In the latter instance th citizens readily subscribed \$10,000, and said more was forthcoming if needed."

## FOYER GOSSIP.

As a work of art the new drop curtain at the Metropolitan is of itself well worthy of a visit to the theater. The curtain was first un-folded to public gaze last evening, and the large audience which filled the theater ap peared immensely pleased. They evidenced their appreciation of the beautiful work disclosed by hearty applause. The scene presented was considerably heightened by calcium lights thrown upon the curtain. A more magnificent drop curtain is not to be found in any theater in this coun try, and too much praise cannot be bestowed upon the artistic abilities of W. F. Davies, of Chicago, and F. E. Powers, of St. Paul, who are responsible for the production. The curtain artistically corresponds with surr ing decorations. The top and sides are draped ing decorations. The top and sides are draped with a dark brown plush, otherwise lion's mane, leoped back with cords, diplaying deep, rich folds of drapery, inlaid with lace hangings. The center is filled twith a pretty picture of Scottish scenery—a picture which the spectator can never grow weary of look-ing at. The subject of the picture is taken from Scott-the Ettrick vale at the setting of the sun. Louis Amate gave a 'cello obli while the curtain was being exhibited under the calcium lights.

Ida Van Cortland will be seen for the last time in "Forget-me-not" at the matinee to-day. To-night she will appear as Lucretia Borgia, the poisoner, in the drama "Lucretia Borgia." Miss Van Cortland has created quite a favorable impression with her au-diences, last night's house showing quite an crease over that of Monday. Her work is trong and full of character.

Jacob Litt, of the Grand, will arrive in the city this morning, direct from New York.

In connection with the opening of the stock company at the Grand next Monday it may be of interest to state that in the scene in "The Ensign" which shows the spar deck of the San Jacinto, a United States vessel of war in '61, will be used the bell from the old Constitution. Mr. Litt obtained the loan of this historic pice of property from the navy yard authorities at Portsmouth, where the

Manager Billy Wells is highly elated at the way tickets have been going for his benefit,

to occur next Sunday evening at the Olympic of people already advertised to appear, the following have kindly volunteered: The Twin City Banjo, Mandolin and Guitar club; George E. Fisher, in his Chinese impersons

ions, by kindness of Managers Wilbur and scott. Jack Gallagher, the clever wrestler of St. Paul, is the man who has been selected to meet the famous wrestler, Charles Moth, in three bouts of mixed wrestling. James R. Fields, the celebrated comedian, will also be on hand, and appear in his button-burst

ing specialty, "Cousin Joe." It is characteristic of the Theodore Thomas concerts always to draw the most cultured people in every community. A list of Mr. Thomas' audiences will always include those people of refinement, wealth and enterprise who maintain the ethical, cultivated and fashionable life of any city, and those foremost in society, art and literature. This is particular true of St. Paul. Already these leaders of St. Paul society have been in to se-cure seats, and in such numbers as to make ssurance that the concerts to be given in the People's church Thursday evening will be a social as well as a musical event of a notable

ose interested in the work. William C. Hendy, one of the brightest young telegraph men in the Northwest, died Monday evening of consumption. His illness has extended over a period of nearly a year. He was the organizer of the Young Irish-American club and was its first president. He was also president of Division No. 3 of the Ancient Order of Hibernians, but resigned on account of sickness.

The Sacred Thirst society met last evening at Cretin hall for the purpose of electing delegates to the annual convention of that society for the Northwest, to be held in St. Paul June 17 and 18. It was also intended to present a musical and literary programme, out, owing to the rain of the early evening. few persons appeared. A business meeting was held and the other matters were deferred until a meeting to be called next week.

### WHAT THEY SAY.

There is a schism in the Alliance party of Minnesota. Ignatius Donnelly leads one faction and Sidney M. Oven, the Alliance candidate for governor, the other. Mr. Owen has paused long enough in his more or less picturesque career to remark in effect that when he runs around the corner for a collar but ton he is opposed to that financial poli-cy which compels him to convert his oil-cloth carpet sack into a pocketbook. "I do not believe," he is credited with saying, "in fiat money or the subtreas-ury scheme." Owen's head is level.— Clayeland Horald Cleveland Herald.

In the Shakespeare-Baconian discus-fon Donnelly has certainly shown himself, so far, a crushing overmatch for Ingersoll. In force of logic and his-toric accuracy, Ig. is a John L. Sullivan to Bob's Tom Thumb.—Fargo Argus.

Legislature or no legislature, this young and thriving state will have representation at the Columbian exposi tion. What this state needs is to let peo-ple know more of her resources and possibilities. She has unbounded re sources. She is proud of this fact and wants the world to know it. Her busiless men are not only determined that South Dakota shall be represented, but that her products shall be exhibited in a building constructed of Dakota ma terial.-Pierre Capital.

The courts of South Dakota are credited with doing an extended business in the divorce line. In view of this fact, it may be well for courts and petitioners to know it requires mighty fine work to secure a separation that will be valid in New York.—Sioux Falls Press.

Gov. Mellette announces that he will not call the extra session of the legislature unless it can be held without any expense to the state. Well, the passes still hold good, so there should be no mileage the members extill the territory of the members with the heart. nileage, the members ought to be patriotic enough to donate their per diem, and perhaps the Pierre hotels will make their part of it complimentary.-Mitchell Republican.

There will be more sheep brought into North Dakota this season than ever be fore. An Eddy county man, John Carroll, has just gone to Oregon to purchase 10,000 head. Jamestown parties alone will bring in 30,000 or 40,000 head.

If South Dakota continues to be so tenerously advertised as the Mecca for livorces, it will not be a bit surprising to have some ambitious city in the state advertising special attractions for ladies contemplating divorce.—Redfield Observe.

## BAD FOR BRIGGS.

The Presbyterian vote of 440 to 59 against Dr. Briggs is emphatic without being discouraging at least to Dr. Briggs or those who side with him. No one who has had the splendid advertisement, of which the vote is only a part, has any reason to be satisfied with it.-st. Louis Republic.

Dr. Briggs is too advanced for the brethren of the Presbyterian church and is told to take a back seat, Will Dr. Briggs how consent that the world doesn't move? Or will he take up quarters in another family that admits the light of day through less closely barred shutters?—Buffalo Times.

As far as Dr. Briggs is concerned, i may have no great effect. The seminary can re-elect him at once, and he may go on teaching until the next as sembly; or he may retire until the trial is over, and if acquitted may then be re-elected and approved by the assembly.

In Briggs ways bounced out of his Dr. Briggs was bounced out of his

chair of professor of theology by the De-troit assembly yesterday. The vote against him was 440 to 59. The bounce was so hard that it will make the doc tor's teeth rattle and will be hea around the world.—St. Joseph News. heard Prof. Briggs' friends in the Presby terian assembly were only 59 to 440 against him. Evidently the professor must recant or walk the plank .- Buf-

## SOME PEOPLE WONDER

Why the club seems to be more at tractive than the home. Why brick sidewalks are not abolished n business streets.

Why some people vote secretly for them they denounce publicly.
Why strangers seek directory information from citizens instead of police-Why stores and pavements are not

swept and windows washed earlier in the morning.

Why girls giggle when they pass a

ungentlemanly remarks.

Why travelers stand in hotel doors instead of occupying the comfortable seats in lobbies and reading rooms.—Pittsburg Dispatch burg Dispatch.

### CANADA'S PREMIER.

There is no Canadian leader in the Conservative party qualified to take the place of Sir John Macdonald who can ommand the support of his party. The choice of a figurehead would be followed by a struggle for supremacy pretty sure to result in a substantial hange of dominion policy .- New York Recorder.

Whatever the changes that his ab whatever the changes that his ab sence will bring about—and they must be radical—his fame will endure as that of a strong and capable man. Histori ans may record his faults and his mistakes, but these are not likely to impress posterity, It will see him as the creator of Canadian nationality and as the genius who realized, consolidated and expressed the power of a competent. and expressed the power of a competent people.-New York Tribune.

The premier of Canada is unquestionably the strongest man prominent of late years in dominion affairs. The government in his hands has been to a remarkable extent a personal government, and his individuality is reflecte not only in the general policy of the do-minion, but in almost every specific act of importance accomplished during his administration. — Philadelphia Teleresterday through the city inspecting gas and graph.

Sir John is a very picturesque figure in current Canadian history. What he lacks as a statesman he makes up as a politician. He is an ideal wire-puller, knows how to handle public opinion with skill and tact, and is a thorough and skillful expert in all the tricks and strategy of a campaign. His loss to the strategy of a campaign. His loss to the party will be very serious, for, though there are many able men in Canada, there is not one who can quite fill his place. What the effect of his decease may be on the party of Liberals, whose chief enemy he has been time alone can disclose.—New York Herald.

Cahensley's Scheme. Archbishop Ireland's criticisms of Mr. Cahensley, says the Chicago Tribune, who wants to perpetuate foreign nationalities in this country by dividing the United States into a number of Ger-man, Bohemian, Polish, Italian, French, Spanish and Irish dioceses, are pertinent and truthful. Cahensley undoubtedly represents a large element among the Roman Catholic clergy of America who were born and educated in Europe. They want to perpetuate European traditions in America. That is why they oppose the teaching of the American language in the public schools. That is why they sustain an agency at the Vatican to prevent the appointment of Americans or Americanized foreigners to American dioceses and to secure the appointments of Germans, Italians, Swiss, Frenchmen and Irish-Italians, Swiss, Frenchmen and Irishmen. They have succeeded, too. Through the agency of a Bavarian cardinal and an Iudiana bishop of German birth the Western dioceses have for years been kept under a foreign ecclesiastical domination. Recently Archbishops Ireland and Riordan, both of American birth, and Bishop Spalding, of long American descent, have sucof long American descent, have succeeded in breaking down the domination of the Bayarian-Indiana agency at Rome. Mr. Cahensley, of Lucerne, is trying to set it up in a most offensive form. Rome is too wise or too wily to do as Cahensley advises. The Roman Catholic church in America would be shattered by a schism.

The Dear Girls. Ethel-Don't you like these sofas that have just room enough for two? Maud-Yes, but I like those that have hardly room enough for two far better. On the Eve of the Wedding.

He (suddenly)-Do you ihink the minister will want to kiss you? She (pleadingly)-Let him, if he wants to, Harry. He's just grown a beautiful Not Insupportable. Effie-Wouldn't you like to ride on my bicycle, Amy!

Amy-No, thank you; I'm afraid I'm

# too heavy. Effie-Why, I heard Jack tell you in the parlor last night that you was as light as a feather. A SAILOR AT A BALL.

They gave a ball up town last night; I had a girl in tow, And she was rigged right up in style, I'll have you all to know; She had a brand-new suit of sails, from scupper up to truck, And held her eye right in the wind, as dainty as a duck.

Her dress was bent on to her arms with bands in some queer way,

And then 'twas cut down 'fore and aft, which means decoluter.

And then twas cut down fore and aft, which
means decolytsy.

They must have got the thing too long—you
never saw such gear;
It had a dozen reefs in front, and yet it
wasn't clear;
She had it guyed up in the ways—it hung off
in her wake,
And rose and fell just like a swell without a
sign of break.
She had a fan made fast around her dainty
little waist; little waist;
'Twas made of figured satin, and in all respects was chaste;

spects was chaste;
But when I swung that girl around, the gear,
as I could see,
Was not clewed up as shipshape as such
stuff like that should be,
And, if I'd been less careful with that silk
and satin dress,
Her halliards might have parted, and there'd
been a pretty mess.

George Temme, J. H. Krch, S. E. Fertig, C.V. Sterling, E. D. Spicer. sumed at the Capitol. All the members of the legislative The Commencement Exercises of wheat investigating committee were on

hand at 10 o'clock yesterday morning.

A request was read from R. J. Hall,

asking that Mr. Stockwell, of Minneap

olis, be sent back to Duluth to assist in completing the work there. This created a lengthy argument as to the advisability of spending more money on clerk hire. A vote being taken, it was decided to send Mr. Stockwell back to assist in expediting matters in Duluth.

Assistant Attorney General Child's introduced the testimony given before the house committee by John Loftus. Stenographer Shoemaker was placed on the stand to identify the testimony. the stand to identify the testimony. Loftus testified that he was employed in the elevators as foreman during 1888 and 1889, and had at different times loaded cars at night when the inspectors were not present. The cars were loaded by order of Supt. Rupley. Nothing was said about the state inspector being present. He made the returns to Supt. Rupley in the morning. He loaded forty-five or fifty cars in that way during January and February.1888, the first two months of his employment at the elevator. No cars were loaded without orders from Mr, Rupley. The witness was asked if he had had any conversation with any one regarding the testimony after he had been subpoenaed. He replied that he had. It was with Mr. Rupley, and the latter had advised him to tell the truth in the matter.

The statements of D. A.Christie, agent of the Lake Superior Transit company, before the house committee were also introduced. Mr. Christie had produced the books of the committee, showing the vessels on which the wheat had been shipped out during the season of 1886, together with the amount carried by each boat and the names of the parties to whom it was consigned. The The statements of D. A.Christie, agent ties to whom it was consigned. The reports covered the shipments made for the five years from January, 1886, to January, 1891.

The afternoon session was largely devoted to the voluminous correspondence offered by State Grain Inspector A. C. Clausen, between the Lake Superior Elevator company, of Duluth, and the railroad warehouse commission. admission of this correspondence was strenuously objected to by W. W. Erwin, but after considerable discussion, in which Messrs. Moore and Barrett took part, Mr. Erwin withdrew his ob-jections and the reading of the letters was gone through with. The bulk of them related to certain amounts of grain disposed of and showed on the face that the grain inspection for the past five years had been very disastrous to the elevator folks. At the conclusion of the reading of the correspondence Assistant Attorney General Childs asked Mr. Clausen if this correspondence included all correspondence or conversatian he had had with J. W. Cross, the Minnearolis inspector. Minneapolis inspector. He replied: "Yes, sir, this was all that I had with Mr, Cross until just prior to the election,

or rather when an article of length appeared in the Minneapolis Times."

Chief Grain Inspector Clausen explained at length the details of difficulties in the department at Duluth, which led to the removal of Deputy J. W. Cross from Daluth to Minneapolis. The disagreements between Deputies Ful-ton and Cross and the constantly arising dissension in the department as a result, were given as the reason for the latter's removal.

Correspondence between the chief in-

spector and Mr. Rupley regarding an article appearing in the Alliance papers, previous to the election, in rela-

of the majorities contests are unlikely, although there was some dissatisfaction with the proceedings During the early hours people crowded at the doors and citizens passed insid from booth to booth, showing voters how to mark their tickets under the Australian system. This voting under the new Keyes law was the first in Minnesota, and was not well understood Mayor Denny and others ordered the platforms cleared, and gave the voters a better chance to go into the booths. Explanations in German and wedish languages had been printed on the facisimile tickets, but still the judges were frequently called upon to tell the voter how to mark his ticket. The system was, however, looked upon as much better than the old one. The election was very quiet during the afternoon, but when it was announced that M. Gahan, superintendent of the Minnesota Packing company, had been elected mayor the packing house boys gave a whoop of joy, and marched around town to the music of a fife and drum. A brass band was none too good for them

last night. Both parties had done hard work in the canvass, and they duly "celebrated." "the people generally joined in serenading the mayor-elect, and they were received at the Gahan residence, near Spring Park, in right royal style. The band played while the company took refreshments, and then they returned through the stockyards district, a disance of two miles, to South Park in the First ward, where they made the nills ring with merriment and joyous

core. His voice is a very large and sympathetic baritone. The most anxiously awaited number was the famous moonlight sonata of Beethoven.

211 Frank W. Relf played it. The first movement is a little beyond him as yet, but his rendition of the allegro movement was exquisite. Miss Page plays with movement was exquisite. Miss Page plays ment was exquisite. Miss Page plays with unusual understanding, and Master Willie Fleer will soon develop into a very good musician. The other performers were: Miss Lille and Maud Borup, Miss Louise West, Miss Florence Crary, Miss Cornelia Saunders, Miss Hatte Page, Willie and Hermann Fleer, Willie Fleer, Miss Marguerite Barteau.

## DEPUTIES DONT GO.

Game and Fish Commission Pass Upon Important Subjects. The state game and fish commission met yesterday in executive session, and began by adopting bylaws and rules. A decision was reached not to appoint deputy game wardens at present, but to leave the matter in charge of Warden Stetson. Little of importance was done at the morning session. In the afternoon it was decided, after a discussion, to publish the game laws entire for the infor-mation of the public. A decision was also reached not to stock any stream in which the public are not allowed to fish. The remainder of the afternoon until adjournment was taken up with a discussion on ways and means.

## The Horse Shied.

G. W. Gile, residing at 630 Pleasant avenue, met with a serious accident yesterday by being thrown from his horse. He was riding on the avenue, and when near Summit the horse suddenly shied, throwing his rider to the ground. Mr. Gile was conveyed to the city hospital in the central patrol wagon, where, upon examination, his left shoulder was found dislocated and

READS VERY NICE.

Reply to a Stockholder Who Protests Against Consolidation.

An answer has been filed by the defendants in the case of James C. Stout against The Sidie-Fletcher-Holmes com pany, Fred C. Pillsbury, John Martin, Charles T. Fox, Charles K. Sidle, Henry G. Sidle and James W. Lawrence. The answer denies that the capital stock of the Sidle-Fletcher-Holmes company is worth \$400,000. It is not worth more than \$320,000, and its entire indebtedness exceeds \$405,000. It is asserted that the company cannot carry on its flouring business except at a loss; that it lost \$138,000 in carrying on its business from Sept. 1, 1888, to Sept. 1, 1889, and made a net loss of \$20,000 in the succeeding year and has single been garry. ceeding year, and has since been carry-ing on business at a loss. It is ad-mitted that the company has contracted mitted that the company has contracted to sell its property to the Northwestern Consoledated Milling company, which has been organized and which is to consolidate the defendant company, the Christian Brothers Mill pany, the Christian Brothers company (known as the Crown Roller Mill of Minneapolis), the Pettit mill property, the Galaxy mill and the Columbia Mill company. It is alleged that by the consolidation the expenses of running the mills will be reduced, and it will be profitable to so combine article appearing in the Alliance papers, previous to the election, in relation to the alleged stealing of wheat, was also read.

An adjournment was then taken until 10 o'clock this morning.

SOUTH ST. PAUL ELECTION.

A Political Combination Broken After a Lively Tussle.

The political combination at the Union Stockyards was broken by the South St. Paul election yesterday, and, although most of the old city officers were re-elected on the Peoples' ticket, the complexion of the ouncil was and it will be profitable to so combine under one management, ownership and control. It is admitted that a majority of stock in the Sidle-Fletcher-Holmes company is held by persons forming the combine and who will vote for the composition; that they so voted and will make the transfer as soon as the injunction in this case is dissolved; that all of the stockholders, except Stout, have assented to the transfer. It is claimed that the value of the stockholders in the Sidle-Fletcher-Holmes company will be of more value than the value of that company's stock. It is alleged to be the plan of the directors and all the stockholders, except Stout, have assented to the transfer as soon as the injunction in this case is dissolved; that all of the stockholders, except Stout, have assented to the transfer as the value of the stockholders in the Sidle-Fletcher-Holmes company will be of more value than the value of the stockholders in the Sidle-Fletcher-Holmes company will be of more value than the value of the stockholders in the Sidle-Fletcher-Holmes are in the stockholders in the Sidle-Fletcher-Holmes company will be of more value than the value of the stockholders in the Sidle-Fletcher-Holmes company will be of more value than the value of the stockholders in the Sidle-Fletcher-Holmes company will be of more value than the value of the stockholders in the Sidle-Fletcher-Holmes company will be of more value than the value of the stockholders in the Sidle-Fletcher-Holmes company will be of more value than the value of the stockholders in t
