SANBORN IS SLICK.

The Board of Aldermen Pass Upon a Mass of Routine Work.

Ald. Sanborn Relieves the Monotony by a Few Legal Objections.

And Has a Little Tilt With Doughty Aid. John Gehan.

Lowry to Have the Required Extension for Langford Avenue Line.

The regular bi-weekly meeting of the board of aldermen took place last evening, and when President Cullen called the meeting to order all the members answered the roll call. A vast amount of business was transacted, and in the course of the session two very important cases came up for discussion.

The first was the issuing of bonds for the purpose of carrying on the work of building the new city hospital, the second was the issue of certificates of indebtedness under the provisions of the new city charter.

Ald. Gehan introduced a resolution that bonds in the amount of \$50,000, bearing 4 per cent interest and payable in three years, be issued for the purpose of applying to the building of the new hospital as authorized by the legislature.

Ald. Sanborn, in a forceful manner, opposed the resolution. He would not vote for it because the money would be used to build a new hospital, and he felt that it was not in the interest of the city to do so.

The old council had refused to issue the bonds, and he felt that it was not in the interest of the city to do so.

Ald. Sullivan took up the matter and put a series of questions to Dr. Acker, the city physician.

Dr. Acker answered the money would be used to build at least two of the buildings in active operation. The late Mr. Roche had advised the hospital commission to let contracts last year on the belief that the bonds would be issued in January last, but when the question came up the council refused to issue the bonds as a balance of \$22,000 was on hand in the hospital fund.

The contract had been awarded and the work done. The doctor gave details of the deplorable lack of accommodation in the buildings now in use, and the necessity of erecting new buildings. He invited the members to inspect for themselves the amount of work which had been done on the new buildings.

Ald. Gehan made a strong appeal to have his motion carry, but as Aid. Bott moved to refer the matter to the committee on water and means, and as two-thirds of the board were necessary to pass the resolution, Aid. Gehan withdrew his motion to go to the committee.

Sanborn's Raises a Point.

The board concurred in the resolution passed by the assembly last week, authorizing the issue of certificates of indebtedness for \$350,000, in accordance with the provisions of the charter, the proceeds to be applied to the payment of certificates of the board of education outstanding March 24, 1891, and to support the public schools.

Another resolution passed by the assembly last week authorizing the issue of \$350,000 certificates of indebtedness, the proceeds to be placed to the credit of the board of education and local improvement fund was strongly opposed by Aid. Sanborn, who said that the use of the money as intended was illegal.

The proceeds of the certificates could only be used for the purpose of paying the floating or standing indebtedness of the city prior to March 24, 1891.

The board of aldermen do not concur in the resolution, and that a motion to rescind the same should be moved that the assembly, and drafted a resolution which would meet the approval of both parties. Eleven votes were cast for the motion of non-concurrence, and the chair appointed Aid. Sanborn, Dobner and Gehan on the committee.

Passed Both Chambers.

The list of St. Paul banks designated by the city attorney in which the city's funds can be deposited, approved last week by the assembly, was concurred in by the board. A communication from Dr. S. G. Cobb, asking for the privilege of erecting poles for a private telephone wire along First avenue to Cleveland park, was referred to the committee on streets.

TOILETS SESSION.

Boilermakers and Shipbuilders Meet to Pass Upon Weighty Subjects.

A Union Which Has Grown Marvelously Within the Past Year.

Painters Will Open a Co-operative Shop During Their Lockout.

The Bosses Determined to Enforce the Ten-Hour Day.

"In union there is strength."

The motto of the International Union of Boilermakers and Iron Ship Builders. They are holding their eleventh annual convention in Labor hall.

There were yesterday, the opening day, ninety-two delegates present, but more will follow to-day. The officers have every assurance that the number will swell to 135 at least.

The present officers are: Thomas J. Curran, of New York, president; Charles J. Brown, of St. Louis, secretary; Arthur W. Brooks, of Chicago, treasurer.

The executive committee covers the entire country and is composed of: Thomas J. Curran, of New York; Charles J. Brown, of St. Louis; Arthur W. Brooks, of Chicago; William H. Longacre, Reading, Pa.; William H. Longacre, Reading, Pa.; William H. Longacre, Reading, Pa.

The work accomplished yesterday was purely preliminary. Committees were appointed by the president on credentials to decide upon the eligibility of delegates; an auditing committee to inspect the accounts of the officers and expenses; and a committee on resolutions, to which will be sent all resolutions introduced during the session.

The present appointments were: Thomas J. Curran, of New York; Charles J. Brown, of St. Louis; Arthur W. Brooks, of Chicago; William H. Longacre, Reading, Pa.; William H. Longacre, Reading, Pa.; William H. Longacre, Reading, Pa.

The president reports that the organization has a membership of 11,000, an increase of 4,250 during the past twelve months. This growth is the natural effect of the act of congress in giving a subsidy for carrying mails for over 1,000 miles into foreign waters.

There has been an increase of four new yards since the adjournment of congress, and more are now in contemplation. The president reported that the union will become one of the colossal industries of America, and will give employment to a little army of skilled and unskilled laborers.

At the afternoon session L. S. Scott, secretary, reported that the union has a membership of 11,000, an increase of 4,250 during the past twelve months. This growth is the natural effect of the act of congress in giving a subsidy for carrying mails for over 1,000 miles into foreign waters.
