The Superior, Red Wing & Southern Road Is Being Pushed.

Roads East of Chicago in a Squabble Over the Tariff on Salt.

The Chicago, St. Paul, Minneapolis & Omaha road has escaped the payment of a fine by appealing from a decision recently rendeted by Chairman Finley, of the Western Passenger association The company in question was accused by the Chicago, Milwaukee & St. Paul of doing a brokerage business by selling tickets at cut rates. After hearing the evidence Chairman Finley decided that the charge was sufficiently well founded to warrant the infliction of the usual penalty, but an appeal to arbitration has resulted in a reversal of this decision. The board of arbitration was composed of W. E. Davis, of the Grand Trunk, C. S. Fee, of the Northern Paeific, and F. I. Whitney, of the Great

Roads East of Chicago in a War on Salt Rates.

CHICAGO, Aug. 21.-A fight has broken out among the roads east of Chicago over salt rates. It came about through the sharp competition of the rival salt interests of Saginaw Valley and Cleveland, both of which have been for a long time struggling to get control of long time struggling to get control of the trade of Chicago packers. Formerly Saginaw vailey enjoyed a differential on this traffic, but for the past six months the rate has been the same for both points. In spite of this equalization it appears that Saginaw sait did not lose the foothold it had gained in Chicago, but continued to practically monopolize the business. Aug. 14 a meeting of the salt committee of the Central Traffic association was held at Toledo and a proposition to reduce the rate on salt was considered.

No agreement was reached and no action taken, but it is now claimed that on

tion taken, but it is now claimed that on the very date of this meeting Cleveland parties sold to Chieago packers about 40,000 barrels of salt, and on the 20th the Lake Shore road put into effect a reduced rate on that commodity from Cleveland to Chicago. The new rate is \$1 per ton, or 15 cents per barrel, a drop of 5 cents per barrel below the rate before. Although the Lake Shore complied with the law in issuing its reduced tariff, it did not give the usual ten days' notice to its competitors and they are satisfied that it had promised the Cleveland shippers, prior to the meeting of the 14th, that the reduction would be made. The Michigan Central, the Chicago & Grand Trunk and the Lake Shore road put into effect a rethe Chicago & Grand Trunk and the Flint & Pere Marquette roads have given notice that they will meet the rate from Saginaw valley, taking effect

REELED ON THE STREET.

One of the Sad Consequences of the Hot Weather-A Timely Sugges-

A man was walking along Broadway, in New York city, recently, who was seen to stagger. The observers first thought him intoxicated, but as he reeled and fell to the sidewalk heavily, it was discovered that he was sunstruck. People said it was the result of the hot weather. It was not. The man had failed to take proper care and precau-

Do you know, gentle reader, what you

need in hot weather?
Is it rest? Not necessarily.
Is it plenty of iced drinks? By no

means.

Is it hearty food? Not at all.

It is not your body that gets run down; but your nervous system that becomes debilitated. Weakness, despondency, weariness, and the indefinite thing, known as malaria, do not come from bodily weaknesses or physical causes, but are invariably due to nervous exhaustion or disorders. Did you not know that the nerves require a food? Did you not know that the nerves require care, nursing and attention just as much as a baby does. Bring up your nerve-tone and see if you do not seem to be another person; see how troubles will vanish and how pleasant life will seem.

not seem to be another person; see how troubles will vanish and how pleasant life will seem.

Do you ask how this can be done?
Ah, there is the difficult question. Many things have been suggested; few are good. There is, however, one recent discovery which is reliable, which is pure, which is an absolute nerve food. This preparation, which is a scientific discovery and not a bitters, nervine or sarsaparilla, is Paine's celery compound. It is surprising what an effect this pure and palatable compound is having upon people's nerves. Where there was weakness, exhaustion, trembling and entire loss of happiness there is now strength, activity, clear complexion, bright eyes and happiness. There are thousands of people who have discovered this secret of health and long life; there are thousands of others who are destined to do so. Are you one of the number? Every reliable dealer in America has it. Most persons who try to keep pace with the march of improvement use it. From its use the American nation, which has been considered a nervous nation is becoming stronger can nation, which has been considered a nervous nation, is becoming stronger and more happy.

PRICES RULED LOWER

Bulls Balked in Efforts to Score an Advance in Chicago.

Longs Deluged Them With Wheat on Opportunities to Realize.

Corn and Oats Were Working Up and Down During the Trading.

New York Stock Market in a Waiting, Transition State.

CHICAGO, Aug. 21.—Prices on board ruled lower all around to-day, but the feeling was still feverish. In the wheat pit the bulls made several attempts to score higher prices, but were met each time with a deluge of wheat from the longs, who found the opportunity for realizing too tempting to be re-sisted. Great export clearances, strong cables and rumors of probable removal of German duties were the news advices of im-portance. Free offerings of corn gave the impression that the alleged clique of New Yorkers was endeavoring to unload that cereal, and caused a severe slump in prices.

Yorkers was endeavoring to unload that cereal, and caused a severe slump in prices. The tendency to take up the October option was also a disturbing factor in the September future. Oats were very much unsettled, the market exhibiting a broadening tendency. Rye and pork were easier.

Wheat of end strong and higher, Liverpool being up 2024d. London, 3d up, and all domestic markets higher. Shorts wera nervous and made a rush to cover, and first sales of December were at \$1.68\(\text{2}\), though few lots changed hands at \$1.09. Free realizing by the 'longs,' however, soon started prices on the down grade. On the first symptom of weakness New York sent selling orders, and then the Northwest also began to sell, and the depression increased. Then came a cable from Paris saying that the Russian government had announced that it would not prohibit the exportation of wheat and this was followed by private cables reporting a drop of 2d in Liverpool from the opening, and there was a wild rush to sell, which eventually resulted in a drop of 3c from the start. December went off to \$1.65\(\text{1}\), Early in the last hour of the session wheat got strong again on the' big exports, which amounted to 1.271,000 but of wheat, and flour and late cables, which quoted marks higher on August, and 3\(\text{2}\) marks higher on September and October, and Paris 40 centimes up and London a shilling higher. December went to \$1.05\(\text{2}\), weakened again, and December closed at \$1.05\(\text{2}\), or 1\(\text{8}\)c under yesterday's closing price.

Corn oppened slightly higher, with Septem-

ber closed at \$1.034.07 13c under yesterday's closing price.
Corn opened slightly higher, with September at 674,2674.2c. This figure was apparent presented as a good opportunity for a sale, and prices quickly slid down to 654.2c. There was a recovery to 67c, and other collapse to 654.2c, an advance to 66c, and a finel close at 654.2c. Trading in September was severely let alone, the local dealers making their new ventures in a later option. October being the favorite option. September closed 14gc lower than on Thursday, while October declined only \$4c, year only 13c, and May even gained 14c. The local receipts were estimated for to-morrow 600 cars.

Oats opened excited at an advance of 120 24c, buying orders being numerous and a little of the grain for sale. Realizing by "bongs" turned the tide later, and prices declined 240 14c. The market then fluctuated up and down frequently, and closed 150 24c higher than on the previous day. September ciosing at 31 34c. The country bought freely and covered short sales. Pork followed corn, strong at the opening, followed by weakness later in the day. September started at \$10.35 20 1.40. and declined to \$10.20. January was relatively decling from \$13.121z to \$12.75. Lard and ribs acted in a similar manner to pork. September and October declined 5c and January 12 12c.

Spot rye held steady, while futures worked easier. There was a good export demand. The receipts were enormous at 502 cars, but the offerings were light. Estimated receipts for to-morrow: wheat, 548 cars; corn, 490 cars; oats, 330 cars. Wheat receipts at the eleven points to-day were 1,572,000 bus, shipments, 1,762,000 bus. Corn receipts at eleven points 381,000 bus; shipments, 256,000 bus. The leading futures ranged as follows:
