The Catch of Seals. Uncle Sam Has a Row on With Great Britain. WASHINGTON, Sept. 18.—Sir Julian Paeford, the British minister, has officially called the attention of the United States to a violation of the terms of the modus vivendi in effect between the two countries, as to the catch of seal in Behring sea. By the agreement between the two countries, the North American Commercial company which leases the seal islands from the United States is restricted in the number of seals to 250,000 skins. It is alleged that the commercial company has exceeded this catch, thus violating the terms of the modus vivendi. The British minister for transmission to the foreign office in London. The company has exceeded the limit, and is understood that he makes the admission that the North American Commercial company has exceeded the limit of the catch—7,500 skins—fixed by the modus vivendi. The matter is regarded here as quite important, and may lead to the modus vivendi being declared inoperative after this date. A government official who is familiar with the question of Behring sea, speaking this afternoon of the complaint made by Sir Julian Paeford that this government had violated the modus vivendi in regard to the killing of seals, said that the question was on the construction of the treaty of June 15, 1891, which allows the North American Commercial company to take 7,500 seals. The treaty went into effect June 15, to expire June 15, 1892, and the question is whether the company was to be allowed to take 7,500 seals after June 15, or whether that number of seals during the entire season, which went into effect before the treaty was signed. That official said that the question is an anticipated in settling the difficulty.

Special to the Globe. GUTHRIE, O. T., Sept. 18.—A deputy sheriff has just arrived from the line of the eastern Indian lands, bringing news of a race war in progress there, just on the line of the Iowa reservation. The town of Landston was founded several months ago, and is inhabited solely by negroes. There are several thousand of them there, and more arriving daily on the line of the new lands. The negroes contemplate settling in a body in the Cimarron valley, as soon as the lands are opened. A gang of cowboys from the Cherokee strip also have their eyes on the locality, and say that any negro who attempts to settle there will be killed. Yesterday the cowboys visited Landston, got into a row and attempted to shoot Eggleston, editor of the Herald. Last night they returned, all drunk, and fired a score of shots into a crowd of negroes on the street. Several received slight wounds. The cowboys left, swearing they would return to-day and wipe out the town. The negroes have all armed themselves, and if they do return many will likely be killed. A force of officers has been sent to the scene.

Special to the Globe. THE LONG-DELAYED NEWS. From Washington announcing the opening of the ceded Indian lands for next Tuesday was received here this morning. The news is that the land is now open. Now will come a rush of home seekers almost as great as that which followed the opening of Oklahoma territory, and which has been called the grand rush. The land lies directly east of Oklahoma. The two regions are separated by the Indian meridian line. The north fork of the Canadian river runs directly through the new country. Thousands of people have been camped along the meridian line for days. Hundreds of men and women have been burning around Oklahoma City and Guthrie for weeks, and the streets have been filled with the people. Many of the merchants are closing their stores, and joining in the general rush. The receipt of the news from Washington was in the line for the evening to commence. Thousands of people swarmed the streets. The news spread rapidly. The intelligent negroes are planning to commence to move. Everybody is now making the best possible time in getting out of the city. It is very desirable for homes. The villages of the ceded reservations are now almost deserted. The Indians do not object seriously to the occupation of the lands by the whites, but they hate the negro. In the treaty with the Sac and Fox Indians the words "open to white settlement" were in the line for the evening to cause some trouble. The Indians say that they will insist on their stipulation, and will unite at once with the only political party that can give assurance of bettering the condition of those who earn their living by the sweat of their brow.
