

born in Germany thirty-five years ago, and came to St. Paul in 1851. He has always been engaged in the business of host.

WAS THE PIONEER.

Messrs. Gillette & Sargent introduced Lunch Counters in St. Paul.

The coffee house of Messrs. Gillette & Sargent, at 414 Wabasha, is almost as well known to require extended mention, as it has been in existence more than four years, and was the first lunch counter of its kind to be established in St. Paul. They have a Sprague motor for operating their fans, with power furnished by the Edison company. Messrs. Gillette & Sargent use the Edison incandescent lamp for illuminating purposes, and also two large Edison arc lamps. A feature of Gillette & Sargent's Coffee House is the great reputation they have acquired for the culinary art of making griddle cakes. This house never closes; it is open day and night. Besides the regular menu, this firm operates similar establishments at Denver, Omaha and Milwaukee. Mr. Gillette was born in Canada in 1855, and came to St. Paul in 1879. Mr. Sargent is from New Hampshire; was born in 1859 and came to St. Paul in 1882, at which time the present business was established. It can be truthfully said that quicker or better service cannot be secured than that which is furnished by Messrs. Gillette & Sargent's coffee house.

A COOL RESORT.

Pardee's Restaurant, on Seventh Street, in Great Demand.

J. S. W. Pardee, of 52 East Seventh street, is well known as one of the most popular restaurant keepers in St. Paul. Mr. Pardee has been in the city for many years, and by strict attention to business has secured the custom of many of the leading business men of the city. His place of business is most attractive, and the show of tables with neat napery and the usual things requisite to a dinner table always attracts those who enter the place. It is brilliantly lighted with incandescent lights, and on hot summer days the electric current is also used to work the cooling fans and electric fans. The menu is even if the mercury register in the nineties one can sit down to a meal and be disturbed by the heat or flies. The first things which always attract the attention of strangers who may walk on Seventh street are the live snappers and live crocodiles which Mr. Pardee keeps in his window, and which are his particular pets.

KEEPS ONLY THE BEST.

The Stock of Goods Mr. McDermott Always Handles.

The sample room of C. J. McDermott, at 410 Wabasha street, is lighted with Edison incandescent lamps, and has a C. & M. motor, operating a fan which describes from 800 to 1,000 revolutions per minute more than any other similar machine in the city. The increased rapidity of revolution is produced by a process known as re-winding. Mr. McDermott enjoys an enviable reputation for his goods, and has among his stock many choice brands of wines and Kentucky whiskeys. A well-selected assortment of choice brands of imported cigars is likewise constantly kept on hand to supply the needs of a critical class of patrons. Mr. McDermott was born in Dubuque, Iowa, in 1852, and came to St. Paul in 1882, at which time he established his present business. Mr. McDermott was formerly in the agricultural implement business in Dubuque, and patented several improvements on farm machinery.

WAS BORN HERE.

Henry Schade, the Well-Known Sample Room Proprietor, at 324 Robert street, in which is to be found an Edison incandescent lamp and an electric motor fan. The business was established about three years ago, and enjoys a reputation for its first-class place, its proprietor having had a large and varied experience in his line. He is a capable manager, and understands the business in which he is a native of St. Paul, where he was born in 1852. He has always been engaged in the present business, and during a period of three years, when he was manager of a restaurant.

What a Comfort! The ACME Blacking will pay for changing the appearance of old Furniture so completely that it will look like new.

Wolff's ACME Blacking. The woman knows a good thing and will use it. Wolff's ACME Blacking will pay for changing the appearance of old Furniture so completely that it will look like new.

WE CAN HAVE HAWAII

Queen Liliokani's Kingdom Is Becoming Desirous of Annexation.

Secret of Porter's Blundering Work in Taking the Census.

Gov. Pattison Calls a Senate Session to Investigate Scandals.

Jesse Grant on Mr. Blaine's Record—Senator Carlisle on Tariffs.

SAN FRANCISCO, Sept. 27.—Ex-Attorney General Thurston, of Hawaii, speaking today of the projects for the annexation of the islands to this country, said: "There is a deep underlying sentiment in Hawaii in favor of annexation to the United States. Even the native Hawaiian paper is pronounced in its favor. It is the first time the Hawaiians have been in favor of it. It would be going too far to say that the sentiment as a whole is in favor of annexation, but there is a very strong undercurrent, and it is growing. It is believed that so far as the sugar business is concerned annexation would bring the islands under the benefit of the bounty law."

Our sugar interests have been so demoralized by the McKinley bill, involving as it does the labor problem, that there is a feeling that something must be done. It is not thought that annexation of the islands would be in any way an infringement of the McKinley duty. Hawaii is directly in the path from San Francisco to the Orient, and a straight line drawn from the city to Hong Kong strikes the islands square in the center. I see by papers I have received, and which have been forwarded to me from the islands, together with conversation with persons just arrived from there, that the sentiment for annexation is growing, and that the McKinley bill is the cause of it. It is certain to come. The statement that the queen, Liliokani, is favoring the English in any way is entirely untrue.

THE BLUNDERED CENSUS. Porter's Bureau a Political Snap for Fine Workers.

NEW YORK, Sept. 27.—The Herald special correspondent, who was appointed by the National Civil Service Reform league to inquire into the taking of the New York census is completed. William Dudley Fouke, chairman of the committee, was asked last night at the residence of the committee's work. Mr. Fouke would not go into the details of the report in advance of its presentation to the executive committee at the annual meeting of the league, which will be held in New York on Oct. 1. He would, however, say that if the president had been willing at the start to have put the census bureau under the control of the civil service, it would have entirely disarmed the criticism which has been made of the census. He said that the census is a partisan principle and for political purposes. The civil service commissioners wanted him to do this, but Porter objected, and it was not done. "The great bulk of the clerks, supervisors and enumerators in the bureau were appointed by the president for political reasons. Naturally, the party excluded from taking part in this enumeration will complain, for if it were made up of the best men, the census would take the census by any other name. He is a capable manager, and understands the business in which he is a native of St. Paul, where he was born in 1852. He has always been engaged in the present business, and during a period of three years, when he was manager of a restaurant."

PATTISON IS ALERT. Pennsylvania's Governor After Unfaithful Officials.

HARRISBURG, Pa., Sept. 27.—Last evening the Pennsylvania legislature convened in extraordinary session on Tuesday, Oct. 13, 1891. The preamble sets forth that grave charges have been made against the auditor general and state treasurer, most of which are of a serious nature, and that the governor has charged them with the duty of investigating their official duties; that it is proper diligent inquiry should be made to ascertain whether or not the charges made against them are true; that there is a conviction in the public mind that they are guilty of grossly inefficient and wasteful management; that the charges are established by the evidence taken looking to the removal of the officials.

It is also set forth that much of the state money lost through Barsley's mismanagement has been accounted for by the breach between Lieut. Gov. Anderson and Premier Mercer, and the political affairs in the province are fast approaching a crisis. It is more than probable that serious trouble will ensue. The governor has appointed an auditor general and state treasurer, and has charged them with the duty of investigating their official duties; that it is proper diligent inquiry should be made to ascertain whether or not the charges made against them are true; that there is a conviction in the public mind that they are guilty of grossly inefficient and wasteful management; that the charges are established by the evidence taken looking to the removal of the officials.

GRANT AGAINST BLAINE. No Member of the Family Will Run for President.

CHICAGO, Sept. 27.—I don't see how a Grant could vote for James G. Blaine for president or even favor his nomination for that office on the Republican ticket," were the words uttered by Jesse T. Grant in an interview with a reporter in the city of Chicago yesterday. "No, sir, Blaine never received a vote for any political office which he runs for, for he and his personal friends are not worthy of the honor of my father here in the Chicago convention," continued Grant in answer to further questions.

His Supreme Effort. While Wildcatte—As last fall, I'm going to make a serious plunge for fame.

Papa Wildcatte—Thank heaven for your wise resolution. What will you do?

While Wildcatte—I'm to do the diving act in a tank show next season.

Confirmed. The favorite impression produced on the first appearance of the agreeable liquid fruit remedy Syrup of Figs for years ago has been more than confirmed by the experience of all who have used it, and the success of the proprietors and manufacturers, the California Fig Syrup Company.

ABOUT DRINKING WATER.

Larger Cities Investigating Their Water Supply—Discovery of Disease Germs—Smaller Cities Also in Danger.

New York and other cities are now agitating the very serious question of the water supply. Investigation has brought to light the fact that impure water, in spite of expensive attempts at prevention, will get their way into the streams from which the home supply is drawn. It has been known for years that a stream running in the open air will cleanse itself partly by setting of the impurities and partly by aeration, but it has recently been decided by the proper authorities that such process of self-purification takes place.

As in most places the water supply is drawn from streams which pass through land where cattle, horses or sheep graze, a very general movement has taken place in the United States toward the purification of water for drinking purposes. The home supply is drawn from a stream, and an effective method is to mix a little pure water with the water. It seems, however, not to get rid of the presence of poisonous bacteria. It is to be impressed on all those who are interested in the water supply that the health that the whiskey used must be pure. Duffy's Pure Malt is highly recommended by the chemists and scientists who have analyzed the purest medicinal whiskey on the market.

STUDYING TARIFFS. Senator Carlisle on the Work of the Senate Committee.

NEW YORK, Sept. 27.—The subcommittee of the senate committee on finance, which was appointed to make an exhaustive inquiry into the workings of the tariff laws, held another meeting today. When it gets the work of the committee, the committee is not investigating the operation of the McKinley bill alone, as is generally supposed, but is looking into the work of the tariff laws generally. The committee is unanimously of the opinion that it should ascertain, as far as possible, actual facts, and not state opinions or arguments from any source.

The committee is proceeding therefore to study the facts relating to duties, prices, wages, cost of living, etc., by the same methods that are adopted in taking a census or collecting other statistics. When it gets the facts, the members will draw their own conclusions, and then there may be wide differences of opinion among them, but up to the present time they have been unanimous in their proceedings. The senator is of the opinion that the report should be presented for consideration during the coming spring or early in the summer.

FLORIDA SENATORSHIP. Secretary Crawford Refuses to Sign Davidson's Commission.

PENSACOLA, Fla., Sept. 27.—The Pensacola News will publish to-morrow morning a special from Tallahassee, giving a new complication in the senatorial fight for the office of state treasurer. Secretary Crawford of Tallahassee refuses to attest the commission of ex-Congressman Davidson, appointed by Governor Davidson, to succeed Senator Call. Crawford is an old-line Whig, and is the great rival of the state of which he is custodian shall never admit any certificate for Call's successor without it is Call himself.

The Florida supreme court will convene on the 15th prox, and the governor will apply to the court to compel compliance with the constitutional requirement, providing that the governor of state shall attest all commissions issued by the executive. Many people in Tallahassee believe that Secretary Crawford will go to jail rather than attest the commission of the ex-Congressman.

CHICAGO GRANT STATE. Programs for an Unveiling Ceremonies.

CHICAGO, Sept. 27.—Twenty-five thousand men, representing the leading military and civic organizations of the United States, are expected to march in the procession at the unveiling of the statue of Gen. Ulysses S. Grant in Lincoln park. The procession will start from the lake front about 2 o'clock in the afternoon, and will march through the park. The unveiling will be presided over by Mayor Washburn, accompanied by a host of the board of Lincoln park commissioners, and the unveiling will be presided over by Mayor Washburn, accompanied by a host of the board of Lincoln park commissioners.

QUEBEC IS EXCITED. Threats of Annexation Being Freely Made.

MONTREAL, Sept. 27.—All the government papers are now based on accounts of the breach between Lieut. Gov. Anderson and Premier Mercer, and the political affairs in the province are fast approaching a crisis. It is more than probable that serious trouble will ensue. The governor has appointed an auditor general and state treasurer, and has charged them with the duty of investigating their official duties; that it is proper diligent inquiry should be made to ascertain whether or not the charges made against them are true; that there is a conviction in the public mind that they are guilty of grossly inefficient and wasteful management; that the charges are established by the evidence taken looking to the removal of the officials.

Harvest Excursions. Excursions for Home-seekers and others will be run by the "Northwestern Line," Chicago, St. Paul, Minneapolis and Omaha Railway, Sept. 29th, from St. Paul and Minneapolis and stations east of St. Paul, to all points in Central Dakota, Sioux City and points in Northwestern Iowa, to Omaha, St. Paul, Minneapolis and Chicago, and points in Nebraska, Kansas, Black Hills, Colorado, Wyoming, Montana, Utah, Idaho Territory, Texas, Arizona, Southwest Territory and Arkansas. Tickets for these excursions will be sold at very low rates, and will be good to start on only one day of the sale, and good to return three days.

For rates in any particular point, through car service or any information, apply to the Chicago and North Western Railway, 332 Hotel St. Louis Block, Minneapolis; or address T. W. Tensdale, General Passenger Agent, St. Paul.

His Supreme Effort. While Wildcatte—As last fall, I'm going to make a serious plunge for fame.

Papa Wildcatte—Thank heaven for your wise resolution. What will you do?

While Wildcatte—I'm to do the diving act in a tank show next season.

Confirmed. The favorite impression produced on the first appearance of the agreeable liquid fruit remedy Syrup of Figs for years ago has been more than confirmed by the experience of all who have used it, and the success of the proprietors and manufacturers, the California Fig Syrup Company.

CEREALS ADVANCING.

A Late Rally at Chicago Gives Wheat a Slight Boost.

News Was All Bearish, and Trading Exceedingly Slow and Dull.

Corn Displayed Strength, and Closed With a Fractional Advance.

Union Pacific and Missouri Pacific Chiefly Traded in on Wall Street.

CHICAGO, Sept. 25.—Wheat dull and weak during most of the session, but rallied in the afternoon and closed at a slight advance. The start there was an effort to stiffen prices, largely in the interest of the bears, who were to make a strong spot to sell on, but it proved to be very hard work, and the decline was easy. The news was nearly all bearish. The exports for the week showed a falling off of nearly 2,000,000 bushels from a time of the week previous, while foreign markets were reported weak and lower.

New York dispatches quoted a declining market there, with exports resulting and no receding in the price. The market was the result of a 100,000-bbl. lot recently bought for export was noted. A private cable noted great weakness in Berlin, Chicago, it was said, to be the more favorable condition of the German crops, as shown by the government report. Longs were discouraged and sold freely, while the trade was generally bearish and sold short.

During the last hour trade became exceedingly dull, and there would be five minutes at a time when there was no trading. The sense of anything else to do the crowd declared war on straw hats, which were worn by the crowd, and closed at 97 1/2. December opened at 97 1/2, and closed at 97 1/2. The market was the result of a 100,000-bbl. lot recently bought for export was noted. A private cable noted great weakness in Berlin, Chicago, it was said, to be the more favorable condition of the German crops, as shown by the government report.

ST. LOUIS Produce. St. Louis, Sept. 25.—Flour dull and weak, but unchanged. Wheat, 1 1/2. Corn, 1 1/2. Hogs, 10.00. Pork, 10.00. Lard, 10.00. Sugar, 10.00. Coffee, 10.00. Tea, 10.00. Rice, 10.00. Beans, 10.00. Peas, 10.00. Potatoes, 10.00. Apples, 10.00. Oranges, 10.00. Lemons, 10.00. Citrus, 10.00. Eggs, 10.00. Butter, 10.00. Cheese, 10.00. Canned goods, 10.00. Dry goods, 10.00. Hardware, 10.00. Groceries, 10.00. Miscellaneous, 10.00.

TOLEDO Grain. Toledo, Sept. 25.—Wheat dull; cash and December, 97 1/2. Corn, 1 1/2. Hogs, 10.00. Pork, 10.00. Lard, 10.00. Sugar, 10.00. Coffee, 10.00. Tea, 10.00. Rice, 10.00. Beans, 10.00. Peas, 10.00. Potatoes, 10.00. Apples, 10.00. Oranges, 10.00. Lemons, 10.00. Citrus, 10.00. Eggs, 10.00. Butter, 10.00. Cheese, 10.00. Canned goods, 10.00. Dry goods, 10.00. Hardware, 10.00. Groceries, 10.00. Miscellaneous, 10.00.

KANSAS CITY Grain. Kansas City, Sept. 25.—Wheat, 1 1/2. Corn, 1 1/2. Hogs, 10.00. Pork, 10.00. Lard, 10.00. Sugar, 10.00. Coffee, 10.00. Tea, 10.00. Rice, 10.00. Beans, 10.00. Peas, 10.00. Potatoes, 10.00. Apples, 10.00. Oranges, 10.00. Lemons, 10.00. Citrus, 10.00. Eggs, 10.00. Butter, 10.00. Cheese, 10.00. Canned goods, 10.00. Dry goods, 10.00. Hardware, 10.00. Groceries, 10.00. Miscellaneous, 10.00.

FINANCIAL. New York, Sept. 27.—The stock market today was less active than for any day this week, but there was enough interest centered in the market to bring about a rally. The transactions in the stock market were, however, not very active, and the market was generally bearish and sold short.
