

HIS GALLERY SHOTS.

Jacob Schaefer Announces That He Has Largely Given Them Up.

His Attention Lately Turned a Good Deal to Three-Cushion Caroms.

He is Enthusiastically in Favor of Regular Billiard Tournaments.

A Scheme to Have Three, in New York, Chicago and Cincinnati.

NEW YORK, Oct. 19.—Champion Jacob Schaefer is in town. He got here at 6 o'clock last night on the flying express from Cincinnati with his wife and Billy Catton. He went direct to the rooms at Broadway and Thirty-third street. Nobody but the old Conane and a few intimates expected the champion, as it was generally understood that he would not come until Sunday. The news of his coming brought a throng of admirers. The champion looked in first-class physical condition. He mentioned without the slightest trace of feeling that he had seen from telegraphed reports that his rival, George Slosson, the coming match with whom he is to play, was playing steady billiards. He thought this meant great play at the match. He said that the report he had changed his own style of play was true.

He has been playing three-cushion caroms a good deal lately," he said, "and it has strengthened my game. I think I have given up the old tripping gallery look and have taken to the new style of playing the cue ball. I have been taking good care of myself, too."

"I am decidedly in favor of tournaments. Part of my errand here, in fact, is to induce the players to form a series of three-cushion billiard tournaments. My present idea is to have a series of three-cushion billiard tournaments in Chicago and Cincinnati. These are the three most important sporting centers in America, and if the games are played, so that the winners of the most games in all three tournaments shall win the emblem and be declared champion, then there will be no kicking. It will be a fair show all around for every one. I think that Ives, Carter and Catton will go in for it up to the hilt. I have been myself at fourteen-inch ball-kick billiards."

Schaefer said that Ives was branching out ambitiously in the billiard world. "He opened a parlor one block away from mine, and he says that he is going to challenge me in the fall. I am confident that he is dead sure that he can beat Slosson. He will be red-hot for the tourney scheme, you may depend upon it."

Schaefer found a table set up for him in Sexton's.

THE BICYCLISTS OFF.

Start of a Great Race in New York.

NEW YORK, Oct. 18.—Madison Square garden was packed to-night, 10,000 people being present to witness the start of the great six days' international bicycle race. The first start was made at a few minutes after midnight, but as early as 8 o'clock people sought admission, and while away the hours were spent in the excitement of the race. Promptly at midnight the first contestants were summoned. A flying start was decided upon. W. E. Parks, of London, led off with a pistol, and E. P. Prial acted as referee. At the signal, which was given at 12:15, O'Flanagan of Ireland's representative, O'Flanagan, made a great start. He made the first lap by a small margin. The others were not far behind him. The race was going very fast. Edlin, one of the four Englishmen contesting, finished the first mile in advance of his rivals in 2:45. Edlin still had the lead at the end of the second mile. But Lumsden, of the United States, was not far behind. States, led a merry dance. The crowd roared itself hoarse when Prince occasionally forced ahead. The score at the end of the first lap was as follows: First, J. S. Prince, of America, 18 miles; second, William Wood, of England, 18 miles; third, Alfred Hobbs, of England, 18; fourth, George Edlin, of England, 18; fifth, W. J. O'Flanagan, of Ireland, 18; sixth, William Martin, of Ireland, 18; seventh, J. D. Lumsden, of Scotland, 18; eighth, Charles Aslinger, of America, 18; ninth, Eddie McDowell, of America, 18; tenth, William Lamb, of England, 18. The other contestants were: M. Boy and J. Albert, of America, who closely followed several laps behind.

Peterson Beats Dutch.

SAN FRANCISCO, Oct. 18.—About 15,000 people gathered along Oakland creek this afternoon to view a boat race between C. Dutch and Henry Peterson. The course was in Dutch inlets, with a turn in the middle. The water was very rough. Peterson had the choice of positions in still water. He won the race easily in 10 minutes. The Dutch was six lengths or three seconds behind. Dutch made a mistake in the middle of the race, turning the wrong stake, his boat losing twenty seconds thereby.

They Want St. Blaise.

BALTIMORE, Oct. 18.—The Baltimore Jockey club to-day telegraphed Charles Reed, who purchased the stallion St. Blaise Saturday in New York, for \$100,000, that it would give \$25,000 for the exhibit his famous horse at Pimlico Wednesday or Thursday between races.

Won by the Mascots.

SPECIAL TO THE GLOBE. STILLWATER, Oct. 18.—The ball game to-day resulted: Mascots.....0 0 0 0 5 12 0-21 Black Caps.....0 0 0 0 1 1 1 0-9

Scraps of Sport.

The Yale-Frisch football match will probably take place at Eastern Park, Brooklyn, Thanksgiving day.

Billy McHenry, of Australia, and Tom Wall, of England, light show in London for a \$20,000 prize.

Ushman has signed a contract to manage the Milwaukee base ball team next season.

President Bush, of the Cincinnati league club, has signed Latham for next season.

The Columbus club has re-signed O'Rourke, Cooks, Bluff and Keel.

The Philadelphia club has given Fletcher King notice of release.

New York will give Mickey Welch another trial next year.

The Brooklyn club has released Fletcher Hemming.

RASCALLY STOREKEEPER.

How a Chicago Office Had a Land Office Hokey Business.

CHICAGO, Oct. 18.—John A. Cella, storekeeper of the Cook county insane asylum, was arrested last night for malfeasance in office in making false and fraudulent entries in the official records of the county. He is said to be one of the thieves who have been systematically robbing Cook county of unknown sums of money. These days are simple and easy to come by. The storekeeper has been in the office for eighteen months to furnish coal to the institutions. The lowest was that of J. T. Nash & Co., offering to furnish

THE WORK OF ADIES.

A Review of the End Aimed at by Women at the World's Fair.

Lady Managers Show Themselves Equal in Ability to the Sterner Sex.

Few People Aware of the Great Work That Has Been Accomplished.

The Columbian Exposition Destined to Do Great Work for Women.

The women of America have good reason to be proud of the work the board of lady managers of the world's fair has already accomplished. One might wish that for the sake of good taste and our honest Anglo-Saxon mother tongue they had taken upon themselves the honorable name of women instead of ladies; but, no doubt, the name is the work of the men who incorporated that special section. Congressman Springer said that those same men had but a faint conception of the board's results or its historical significance. Barely a year has elapsed since the organization of the board of lady managers, with Mrs. Potter Palmer as president, and yet the breadth and scope of the work accomplished up to this date. In many of the states the women have been hampered by the unwilling-

ness of legislators to follow the precedent set by congress, and accord full recognition to the lady managers. Even in the face of this and kindred obstacles and the thorough organization of the women, their perseverance and enthusiasm have achieved wonderful results. The board of lady managers has not only secured the recognition of the women of the world, but has also secured the recognition of the women of the world.

Another great and comparatively unknown industry in which women are engaged is flower farming. This has been introduced in South Carolina. Mrs. Thomson, the lady manager from that state, thinks it will prove a novel and profitable industry for the women of the South.

The Pennsylvania Woman's Silk association has already secured for space in which to show its industry, and it is believed the business in the United States will receive a stimulus from this exhibit have achieved wonderful results.

THE DOMINION'S DEFENSES.

Lord Stanley Demands an Official Report Upon Them.

Exciting Times Among the Argentine Politicians.

SLEEPS ON A VOLCANO.

Exciting Times Among the Argentine Politicians.

NEW YORK, Oct. 19.—A Buenos Ayres dispatch to the Herald recalls the fact of W. Mitre's resolve not to allow his name to be used in the coming campaign. Hardly had his followers and their opponents quieted down from the excitement his announcement had caused when yesterday the people were further stirred up by a manifesto from Gen. Roca, also announcing his retirement from politics. He likewise claims patriotic reasons as influencing him to do this. Coming so soon after Gen. Mitre's resignation, Gen. Roca's manifesto has caused a very profound sensation. Groups of citizens were to be seen throughout yesterday discussing the matter of withdrawing what it all meant. Shortly after Roca's announcement was made, the government was not pleased by the resignation from office of Minister Costa Carballido. Their action, it would seem, is to be followed by further withdrawals from office. It is said that nearly all of the other ministers will quickly follow the example which Costa and Carballido have set. Of course their departure will be a great loss to the government. The government is well aware of the dangers that beset it and how to start an uprising among the hot-heads in the ranks of the opposition. It has taken measures to avert a possible outbreak, and it stands out revolution at the first sign it shows. With this point in view the city garrison has been concentrated at Palermo Park. Great activity is evident on the part of the president in this emergency. The senate has increased the feeling of unrest by holding secret sessions. Several scenes enacted at its meetings are reported to have been interesting and exciting in the extreme. The money bill has been introduced. The president's usual average is 5,000 per hour. These figures are supported by affidavits of the navy minister. Yesterday it had reached 300.

BREAKING ALL RECORDS.

Rapid Work by a Mergenthaler Linotype Machine.

TOLEDO, O., Oct. 18.—F. J. Smith, a practical printer operating a Mergenthaler Linotype machine in the Commercial office, has performed some phenomenal work during the past week. On Tuesday night he set 47,000 ems corrected matter in eight hours regular copy of the book. Saturday night he set 47,000 ems corrected matter in eight hours, being an average of 6,187 ems per hour. His record for the week was 290,000 ems corrected matter representing forty-five hours' work. Three hours were lost Monday. The average for the week was 5,785 ems per hour for forty hours. Smith's usual average is 5,000 per hour. These figures are supported by affidavits of the navy minister. Yesterday it had reached 300.

THEY WANT ST. BLAISE.

NEW YORK, Oct. 19.—When the rumor was current that Mr. Reed's acquisition of St. Blaise, both Daly and Haggin had regrets. They had calculated on having the battle to themselves, and found that neither was in it. To-day, however, Mr. Haggin did not regret. He had calculated on having the battle to themselves, and found that neither was in it. To-day, however, Mr. Haggin did not regret. UNDER ARMS.

Clifton Forge, Va., Being Patrolled by the Army.

CLIFTON FORGE, Va., Oct. 18.—There is considerable excitement here to-night over a rumored uprising of the negroes, in consequence of last night's lynching, and Mayor Bowles has telegraphed to Gov. McKim to send the militia to Clifton Forge, Va., to-night, but the rumors are regarded by the military as unfounded. There are large numbers of negroes at the mines of this section.

A PARNELL MEMORIAL.

Suggestions on the Irish Question Thrown Out at Chicago.

CHICAGO, Oct. 18.—At a Parnell memorial meeting of Irish-American citizens of Chicago, held in Central Music hall, resolutions were adopted declaring that a final settlement of the Irish question must be based on Irish control of all Irish affairs, legislative and administrative, and urging the choice of a leader who would remove the Irish from the part of Protestants. The resolutions conclude as follows: "We regard, therefore, the recent efforts of the Irish Young Men's Democratic League of Chicago to establish ecclesiastical domination in the affairs of Ireland as the most dangerous obstruction to Irish self-government. Rev. C. J. Adams, an Episcopal minister, was one of the principal speakers at the meeting, and was accorded the warmest kind of a reception.

THEY BROUGHT RAIN.

And Ticked the Texans Almost to Death.

CAMP EDWARDS POWERS, Tex., Oct. 18.—The government rainmaker has been the hero of the hour here. The experiment which was begun yesterday afternoon and continued during the night was entirely successful. At 4 o'clock this morning rain fell in torrents. Never before were the people so glad to get a wetting. The men in the camp yelled and hurrahed, and danced frantically in the moon. The rain continued for nearly an hour. Telegrams received this morning from stations along the Texas and National railroad state that the rain extended 40 miles to the northeast, and 50 miles to the west and 50 miles to the southwest.

ROCHESTER, N. Y., Oct. 18.—George

Stolen Bonds Found.

UTICA, N. Y., Oct. 18.—Detectives employed by the American Express robbery case have found the bonds stolen from the train and some of the jewelry in a ravine four miles from this city. They were hid in a seam of the rocks near where the robber was seen on the day of the robbery.

Shot in the Head.

PITTSBURG, Pa., Oct. 18.—William Lyon Sr., sixty-nine years old, a prominent Allegheny business man, committed suicide at 8 o'clock this morning by shooting himself in the head. He died.

THE WORK OF ADIES.

Organization of the women of a thorough have an eye to consider.

Naturally the first thing that suggested itself in preparing a scheme for the display in the women's building was the comfort of the hundreds of thousands of women who will visit these headquarters. Adjoining the main entrance to the building will be a bureau of information extending the direction of the board of lady managers. Here the visitors, especially ladies traveling alone, can secure reliable answers to questions, and here girls and women as interpreters and guides will be supplied.

In the main gallery, which is 300 feet long and 30 feet wide, will be a special exhibit of the most brilliant things they have done. In providing the rather extensive sub-department, the board has set its standard high and enforced it by a resolution "to let no special exhibit be placed in the main gallery unless it is of the highest quality of work."

Whenever possible, duplicates will be given to the best work exhibited by women in the main buildings. One of the great features of the exhibit in the women's building will be the display of silk culture from Pennsylvania.

The women of America have good reason to be proud of the work the board of lady managers of the world's fair has already accomplished. One might wish that for the sake of good taste and our honest Anglo-Saxon mother tongue they had taken upon themselves the honorable name of women instead of ladies; but, no doubt, the name is the work of the men who incorporated that special section. Congressman Springer said that those same men had but a faint conception of the board's results or its historical significance.

Barely a year has elapsed since the organization of the board of lady managers, with Mrs. Potter Palmer as president, and yet the breadth and scope of the work accomplished up to this date. In many of the states the women have been hampered by the unwilling-
