THE DIPLOMATIC ASPECT.

Among the difficult matters with which diplomacy has to deal is that of amenability of a nation for outrages resulting from violence. If nothing was done by the country in which the outrages occurred, it is the duty of the country subsequently dealt with the perpetrators according to law, it has been held that such occurrences are hardly ground for diplomatic rupture.

THE GLOBE'S WANTS!

Keeps you before the public through THE GLOBE!

Special to the Globe. ST. PAUL, S. D., Oct. 23.—This afternoon at 2 o'clock the United States grand jury marched into the court room and presented an indictment against eleven officers of the Louisiana Lottery company, located at New Orleans. Among the officers indicted are Gen. Beauregard, Paul Conrad, the president of the company, and Joseph R. Horner, secretary. The remaining eight are directors. The indictment carries with it in each case eighteen counts, which means that there are eighteen indictments against each of the eleven officers. The consolidated indictment was brought under the directions of the attorney general at Washington, who has been seeking a state favorably inclined to the lottery law, as a condition for congress, and settled upon South Dakota from the fact that the first conviction ever obtained was secured in this city in the United States court for the state. The several warrants were issued this afternoon and mailed to the United States marshal in Louisiana, who will make the arrests, and at once bring the defendants to this court to make their plea on the specific charge that they had transmitted lottery advertisements through the United States mails. The attorney general at Washington requested that every safeguard which could be provided be secured to prevent the fact from being made public. Your correspondent called on the district attorney, the marshal, and the clerk, but they deny any knowledge of the indictments. However, the facts are as related above to a certainty.

BRICK WORKS BURNED.

Many Men Thrown Out of Employment at Austin. Special to the Globe. AUSTIN, MINN., Oct. 23.—The Austin pressed brick works, the only one of the kind in the Northwest, was totally destroyed by fire this evening. The fire originated in the oil room shortly after the works shut down. How it started is a mystery, as the superintendent says there was no waste of any kind allowed to accumulate here, and that the door to a tramp secured entrance in some manner and was smoking there. The building and machinery were valued at \$25,000, and are an entire loss. The insurance is only \$5,000. The plant was considered a very valuable one, and doing a fine business. The quantity of the brick was considered by experts equal to that of St. Louis. Many of the large buildings of the state recently constructed were built of this brick, which was also used in the construction of the government building at Dakota. The brick was owned by a stock company organized in 1887 with a capital of \$100,000. The bulk of the stock was owned by Austin parties, the remainder by St. Paul and La Crosse men. About fifty men were employed, each of whom was thrown out of employment. It could not be learned to-night whether the company will rebuild this fall or not.

GOHEN IS BURIED.

Rosa Bray's Murderer's Body Finally at Rest. Special to the Globe. FORTS FALLS, Oct. 23.—After Adelbert Goben's body was taken down last night at 10 o'clock it was properly laid out and placed in a coffin furnished by the county, a cheap but good-looking one, and was placed in the steel casket connecting with the sheriff's office to await daylight. Several of those who attended the execution, including a number of the officers, sat in the office until an early hour of the morning, talking over the event and expressing their opinions thereon. There was a unanimous agreement on only two points: That the sheriff had done his duty, and that the coolness with which he conducted the affair, and that Goben was one of the most nervy men ever dropped through the mill. As one of the men present said: "He went down like a soldier." The rope with which the hanging was done was divided among the numerous applicants, and only a few were permitted to see the hanging. News of the hanging was very pleasantly impressed upon the minds of those who saw the execution, but as long as they had fair play in every way they did not make any complaint about that.

TOOK HORSE MEDICINE.

And Now He Is Across the River Styx. Special to the Globe. GRAND FORKS, N. D., Oct. 23.—Henry Busse, a farmer living two and a half miles from East Grand Forks, was found dead in his buggy this evening half a mile from home, the horse feeding by the roadside, headed towards home. Busse was found by the hired man, who brought word to the city. The dead man's brother, Charles Busse, of Baker City, with Mrs. Busse and Dr. Logan and an officer, started immediately for Busse's farm. The coroner spent the afternoon here and on the East side. The rumor that a murder had been committed proves erroneous.

ASSINIBOINE, MONT., Oct. 23.—Word has been received here of a battle which took place yesterday between a band of Blood Indians and a force of Canadian mounted police. The Lake was chosen as the site for the new conference, the vote standing Devil's Lake, 26; Bismarck, 25. Two ballots were taken to determine the site, the first being without choice, Presiding Elder Foster, of the Grand Forks district, leading, Rev. D. C. Plamette second. The case of N. Griffith, not in possession of character, was referred to the presiding elder to take the necessary action after the trial of the case. The Woman's Missionary society held a meeting at 3 p. m.

Yorke, ex-paymaster in the United States navy, from his wife Emma, has created surprise here, where Mrs. Yorke has a summer home. She was interviewed and said that her husband was seeking a divorce. The charges against her, she said, were that she had committed adultery and was guilty of adultery. She was advised to begin proceedings against the ex-paymaster to have his divorce declared fraudulent. She has obtained a writ of habeas corpus, and is now in the hands of the court. Special to the Globe. GREAT FALLS, MONT., Oct. 23.—The stone masons of Great Falls have entered a protest against the action of Contractor Carlisle in hiring stone masons in St. Paul and Minneapolis for \$3.50 per day to work on the construction of the Great Northern railway shops. The rate paid here has been \$5 per day, and local contractors threaten to reduce the rate to the same price paid by Contractor Carlisle. A strike is called for to-morrow, and a strike may result unless the wages are raised to figures paid by local contractors.

Much Grain Burned.

Special to the Globe. AUSTIN, MINN., Oct. 23.—While threshing at the farm, three miles south of this city, to-day a spark from the engine caught in one of the stacks, and before it could be extinguished the entire bulk of the grain, consisting of six stacks, was completely burned. The wheat and oats, were totally destroyed. It was only by heroic efforts that the fire was kept from spreading to the barn owned by Clark & Huntington. Huntington's share was insured. Thunder for Tories.

Dillon's Latest Advice to Tenants Furnishes It. LONDON, Oct. 23.—John Dillon's advice to the Irish farmers to ignore the legislation enacted by parliament for the purpose of enabling occupiers to become owners, has caused a decided sensation among English Liberals. The Tories are quoting Dillon's utterances as showing that the aim of the home rule movement is confiscation of the land, and that the generous movement of relief and assistance to the tenantry would not be accepted as sufficient by the agitators. Reports from all parts of Ireland show that the tenants are very generally claiming the benefits of the land purchase act, and it is thought that fact may have alarmed Mr. Dillon.

WHY AUSTIN QUIT.

Orangemen Did Not Find Him to Their Liking. LONDON, Oct. 23.—The abusive communication which led to the resignation of Grand Master Austin of the Orange lodges in England, are ascribed to the unwillingness of the late grand master to turn the Orange society into a military organization. It is known that in Ireland the Orange lodges are drilled like military bodies for the purpose of making ready to resist Irish home rule, should it be established. Austin was not in favor of extending this system to England, but advocated maintaining the order as a purely benevolent and beneficiary society. In this he differed from the aggressive Orangemen, who were in control, and who were a burden to them.

THE LITTLE HOHENZOLLERN PAPA'S WHISKERS.

Berlin, Oct. 23.—The Kaiser's conclusion to be clean-shaven again, but his mustache is said to be prompted by the earnest objections of the empress to the change in his appearance. He has also, it is whispered, been much annoyed by having his whiskers frequently and painfully pulled by the younger members of his household, on one occasion to the uncontrollable delight of a French nurse, who was promptly dismissed from the household for her lack of respect to the agony of her imperial master. It is possible that the further manufacture and sale of the Kaiser's picture with whiskers will be prohibited.
