Next Saturday afternoon will see in Minneapolis the most important football game of the season. It will be a struggle for the championship between Grinnell and the university of Minnesota played at Grinnell, but the game was a tie at 12 to 12, and the supremacy was still to be disputed.

Next Saturday's game in the ball park will decide this.

The competing teams are both in the best condition and pretty evenly matched. Grinnell brings up a heavy rush line and half-backs so flect that the Grinnell game may be expected to be a running and blocking one. The University of Minnesota will line up stronger than ever before. Pillsbury will be in his old place, and Patterson is again well enough to play.

The University of Minnesota boys have been taking a run of three and a half miles every morning, besides playing the usual game in the afternoon, and will be in the pink of condition physically.
