FAIR HANDS WILL AID

In the Work of Properly Representing Minnesota at the World's Fair.

President Mrs. Clarke Briefly Outlines the Work to Be Done.

Much Time Necessary in Arranging the Important Committees.

A General Resume of the Many Incidents of a St. Paul Day.

It was a very tired, but at the same time a very glorious woman who received the GLOBE representative just at twilight yesterday. There was a rain wind outside, and a vast deal of slipping, sliding, outside, but inside, in the soft light, the air was warm and sweet, and the room distinctly impressed with the individuality of its mistress.

Mrs. F.B. Clarke

Mrs. F. B. Clarke is a wonderful woman. Before the world's fair was heard of she was a very busy woman, but nowadays she is simply rushed to death. As a member of the board of lady managers of the World's Columbian commission, she appears on the committee on fine arts, of which she is the representative on the executive committee, on two of the committees on liberal arts, and on the executive committee. In addition to this she is chairman of the committee on music in the women's building, and to her falls the by no means considerable task of making out the programmes for the music. Music composed by women will be played and sung by women. There will be orchestras made up of women, female performers on all the musical instruments, and every other audible evidence of the work done by women in music all over the world.

Says Mrs. Clarke: "Of course, we are all worn out completely just now, and can rest with clear consciences while the county organizations are being perfected. We hope that organizations similar to the one in Ramsey county will be formed in nearly all the counties of the state. As soon as this is done there will be a meeting of the nine managers, and committees will be appointed. You will understand how great a task this appointing of committees is when I tell you that Mrs. Potter Palmer has been at work for two years, and has just announced her committees. I have asked the managers to designate the committees on which they prefer to serve. I find a great deal of interest manifested by all the women I meet, and am confident Minnesota will make a creditable showing."

It is in philanthropic, charitable and educational work that most are expected of Minnesota women, although Mrs. Clarke is sending pamphlets broadcast throughout the country, and is doing other work in which our women are engaged. Along the line of decorative art Minnesota women are especially talented. There are a number of painters on porcelain throughout the state. In the way of art loans Minnesota can compare with any of the Eastern states, for such art galleries as those of J. J. Hill and T. B. Walker, and such collections of antique silver and bric-a-brac as Mrs. Clarke's are scarcely to be surpassed anywhere. The Daughters of the American Revolution, of Minnesota, will mount a kind of an exhibit at the fair, although no plans are yet suggested. One lady suggests that the decorations, or at least a part of them—in the Minnesota state building consist of paintings of the lovely wild flowers of the state. The idea may be carried out in the series, or mural decorations in general.

The art center of the state is, of course, Minneapolis, since the Minnesota school for fine arts is of more than local reputation. There are women artists in both cities, but Mrs. Clarke has great expectations of a woman sculptor in Minneapolis.

Mrs. Clarke is, of course, very anxious that the prize offered for the best design for the lady managers' badge will be won by a Minnesota woman. "It is too early to give you any of the definite plans for work," she says, "but we have not had time yet to formulate any. We hope that Miss Sybil Carter will accept the chairmanship of the committee on Indian work, and will make an exhibit of the wonderful lace work and passementerie she is teaching the Indian women to do. Everything is in embryo, but you may say that the managers are greatly encouraged by the interest taken by the Minnesota women."

INTEREST IN MINING.

Want a Mining Exchange—Gossip of the Iron Stocks.

"About the time the snow goes off the ground," said a St. Paul business man yesterday, "the mining excitement in the northwestern end of the state will have reached fever heat. You have no idea how much St. Paul capital is invested, and how wide-spread is the interest here. Between the Cook county gold and silver fields in the West and the Mesabi and Vermilion iron ranges in the North there will be plenty of excitement. We are anxious to see a mining exchange completed in Duluth and put in active operation, as well for the facilitation as for the protection of the mining business."

There was some little interest yesterday in the stories concerning the Cincinnati stock at Duluth and St. Paul. Her father is a well-known police officer.

Greatest Blood Purifier before the people. Some of my friends say 'I was away with your medicine.' I said the same one, but since my daughter has taken it in circulation, chief among which was the story that the company, by mistake, has been sinking all its pits on the Biwabik property, which adjoins the Cincinnati stock at Duluth and St. Paul. More beautiful goods we never saw; perhaps you never saw prettier printings or better selections.

ZEPHYRS. Yes, that is the way they are billed to us, direct from Paisley, Scotland. Not like anything we ever saw. We can imagine the idea was taken from the Spider's Web, but where the Scotchman got his colorings we do not know. New! too new for us to describe. We will whet our ideas and try it later on. They are in the Gingham section because they are all cotton and claim first rank; so we put them alongside their Scotch neighbors. They seemed to nod to the fine goods already there, as if they had known each other "on the other side." (There is a lot of "Ragged Lace" and "Point de Gene" and "Guipure Laces" that will trim these goods beautifully—made on purpose, one would think. You will find them in the Lace Stock.)

SILKS. We have said much, and there is much yet to say about Silks. Here are a few silk threads; twist them together; they should make a band strong enough to draw every woman in the state to us who may need a silk this year.

Shanghai Silks, in black only, 27 in. wide, cost 79c, value \$1.00; the old story, true as when first told. It is a good one. We knew it would be a seller.
