

BEAVER LAKE GETS IT

The Wood Harvester Site Has at Last Been Selected.

Beaver Lake Boomers Carry Off the Much-Coveted Plum.

The Selection Creates Widespread Dissatisfaction in the City.

White Bear Electric Road Shown to Be Behind the Deal.

After debating the question of particular advantages offered by different organizations and public spirited citizens, the Water & Wood Harvester works problem has finally been determined. The directors have chosen the so-called Beaver lake site, and they offer as their reason for this course that the railroad facilities offer special advantages...

It might be added that the different organizations of citizens that have been actively identified with the competition for this site are somewhat disappointed. They feel that the best interests of the city would have been better conserved had the company located the works within the city limits. But the company feels that it has the most at stake and should be the judges of the interests of the concern.

The company remained in secret session all afternoon and until nearly 7 o'clock last evening. It was a difficult and puzzling problem to solve. There were great advantages offered by every section of the city that proffered sites, and the company was in doubt until the final action was taken. It is determined to begin work at once in erecting the buildings that are required for the works. This will give ready employment to large crews of laboring men, and then will follow the regular crew that will be needed in the manufacture.

This selection of the Beaver lake site will prove very fortunate to certain of the bright young speculators of the city who had the happy faculty of predicting the outcome of the competition that has been waged between itself and other localities for the site. Several gentlemen secured options upon the most available tracts adjacent to the 55 acres that have been selected. It is calculated that the Wood Harvester Works will build up a little city of at least 10,000 inhabitants, sooner or later, at Beaver lake, and these investments in realty made at very low prices promise to bring in rich returns in the near future. The location, of course, is very unsatisfactory, and it is probable that the property interests led them to compete for the prize in some different locality, and there is some talk that moneyed men who had bought stock would like to retire. But it is more likely that the recalcitrant element will be fully reconciled in a short time, and everybody will be glad to hold the stock they own. The company is now operating the Wood Harvester works, but that institution will soon be abandoned, and all manufacturing operations will be conducted in St. Paul. The Minnesota Harvester patents have all passed into the possession of the Walter A. Wood company, and these, together with the patents held prior to the later purchases, make a mighty strong combination, and it is calculated that the Wood harvester will become the superlative and popular machine among investors in the West. The company will give employment to a little army of men, and these operations must live in St. Paul. Hence it is easy to conceive the benefits that must inure.

"SHE STOOPS TO CONQUER" Draws a Crowded Audience at the Metropolitan.

Says Hardcastle in the play, "I like old times, old friends, old times, old wine," and to the category the people in front would add, old plays. The humor of "She Stoops to Conquer," improves with age. Scarcely another play has such a hold on popularity. Not a play of the season has drawn a better first night house than the one which greeted Goldsmith's immortal comedy at the Metropolitan last evening. It was an audience to put spirit into any players, and when to the ability and finish of a well-balanced, well-trained company was added the zest and fire an appreciative audience always inspires, the result was such a production of "She Stoops to Conquer," as one seldom sees.

Interest, of course, centers in the Tony Lumpkin of Stuart Hobson. His unexpected squeak and drooly deliberation...

Fat is a vulgar word. Too much adipose or obesity sounds better. But fat is plainer. You cannot reduce it by violent exercise. There are two kinds of fats. The unhealthy adipose tissue, resulting from sedentary habits or from forcing the appetite through stimulants or from impure blood, or if irregular habits, is the kind that lays the possessor liable to heart disease, apoplexy, vertigo, etc. Then there is the genuine, healthy, life-giving tissue, the result from regular and moderate habits, or if irregular habits, the taking regularly and according to directions the famous Carlsbad Sprudel Salt. The salt will reduce unhealthy tissue and build in its place that firm and solid flesh which is the certain sign of perfect health. It is virtually taking the Carlsbad treatment in your home. Every drug store has it. The genuine has the signature of "Fisner & Mendelson Co., Sole Agents, New York," on the wrapper.

PEEP TO THE FUTURE

Rev. Joseph Cook Gives His Views on "Ultimate America."

Toughs Attack a Party of Young Business Men.

Moritz Michael Case Reopened in the District Court.

Financial Monthly Exhibits of the State, County and City.

Joseph Cook, the famous pulpit orator, was at the People's auditorium last evening with his erudite philosophy and Bostonese culture. "Ultimate America" was the theme upon which he held forth most entertainingly for fully two hours. The house was well filled with a cultured and appreciative audience. He remarked as he drew his magnificent physique to its full height: "I would rather be an American citizen today than a Roman citizen under the prodigious caesars." He proclaimed that caravans of great cities were in view for this country and that the cross-section of the world's cities, the growth of cities would lead to the treading of laborer upon laborer and the widening of the space between palaces. He postulated that era, however, two centuries.

This country was capable of sustaining a denser and greater population than the combined countries of Europe, Asia and Africa. Excluding the islands and mountains of the world, this country had 11,000,000 square miles of land through which the plough might pass to 10,000,000 square miles. In the Old World. He spoke of the effects of the trade winds carrying the moisture against the mountains and depositing it on the sides of the great mountain ranges. The subject of this was to illustrate the advantage this country has in moisture and productiveness. The wheat production of dry goods, with a remarkable increase in population, and still it has not been increased. The rapid increase in population, and still it has not been increased. The rapid increase in population, and still it has not been increased.

Double itself in the next fifty years. He took a turn at politics and spoke of the domination by the liquor power. He said that the liquor power, low license entangled the soul, but high license dragged down the daughter also. He said that the liquor power, low license entangled the soul, but high license dragged down the daughter also.

CLAIMS HE IS INNOCENT. William Hulett Would Like His Bail Reduced. An effort is being made to have the bail of William Hulett, of Shakopee, reduced to such amount as he may be able to give. Hulett is confined in the Ramsey county jail on a charge of taking obscene circulars from the postoffice with the purpose of giving them circulation. One lot of these circulars contains very filthy doggerel. Other matter is in the form of a small poster, in which the owner of a stock farm, residing at Shakopee, who is a dog fancier, together with his wife and children, are caricatured under the names of "Mr. and Mrs. Skinnybeak and Bill Bangtang." Another lot of these circulars, which were mailed by the Ramsey county postoffice, Mrs. Hulett was in the city yesterday to see if arrangements could be made to have her husband admitted to bail. She insists that her husband was only one of a number who received obscene circulars from the mail. That he is innocent of any crime, as he did not know what he was receiving, until the package was opened, and his attention attracted to the obscene circulars to her husband and others, by some enemy of Mr. Tucker, who owns a stock farm in the neighborhood.

Belts Free For Examination. In view of the fact that many persons who desire to procure genuine Electric Belts have been led to direct companies for information, and are undecided as to which have the best goods, we suggest that you order from each company the belt you wish to see, sent by express, C. O. D., with privilege of examination. When the belts have arrived at your place, please examine them, and if you find one better than ours, simply ask the express agent to return ours to us. All we ask is that you send us a fair one to all concerned, partially cover the express charges, and to protect us against merely curious persons who may desire to buy a belt, but simply want to see one. The 50 cents will be deducted from price of belt if it is accepted. We think this proposition a fair one to all concerned, for of course a buyer wants the best for his money, and it is a great pleasure to us to have our goods examined and compared with others before being bought. Send for illustrated pamphlet, mailed, sealed, free. Address office nearest you. S. A. A MIDNIGHT FIGHT. Toughs Attack Young Business Men When in a Maundin Condition. A street fight that was brutal in the extreme took place in front of Twombly's saloon on Wabasha street about 12:30 o'clock Thursday morning. The business men of considerable prominence, and who move in the best circles of society, were one party to the affair, and four toughs, who, by some freak of circumstances, are able to wear good clothes, but who can be found loafing about saloons at all hours of the day or night, made up the other party. Among the latter was Dick, a young man of flashy dress and loud appearance, generally. The three first mentioned had been imbibing too much, and just before leaving the saloon to go home, were joined by a fourth party, who was unknown to them. When they reached the sidewalk "Dead Eye Dick," with his pals, was standing near by, and as they passed a new addition to the party addressed a remark to Dick that made him resentful. No attention was paid to the real offender, however, but the four toughs at once assailed the three drunken men, who made as good a resistance as they could. The fight was fast and furious for some minutes and only by the intervention of a bystander could the men be heard, while a few hackmen gathered to enjoy the spectacle. Finally the toughs, finding that only one of their victims appeared to be standing his ground, assailed him on four sides at once and sent him reeling on the stone pavement. The man cried out in pain and held up his hands, but the brutes kicked him several times in the face and head before making a hasty departure. The man was carried to Lutz's drug store. He was literally covered with blood and had several ugly wounds on his face and head. A few minutes after the fight had occurred Officer Davis arrested one of the drunken men in the corner of Sixth and Walnut streets. He was "run in," gave the name of John Jones, paid bail of \$10, and was released.

AGAIN ON THE RACK. The Retrial of the Moritz Michael Arson Case. The Moritz Michael arson case is now on trial in the criminal branch of the district court, Judge Kelly presiding. The morning session yesterday was passed in an attempt to secure a jury with the result that eight were selected. An adjournment was then taken until this morning, when the other jurors were selected. This is the same case which resulted in a mistrial at the January term, the jury disagreeing. It will be remembered that Michael is charged with firing his dwelling to secure the insurance on his house.

Violent Exercise. Fat is a vulgar word. Too much adipose or obesity sounds better. But fat is plainer. You cannot reduce it by violent exercise. There are two kinds of fats. The unhealthy adipose tissue, resulting from sedentary habits or from forcing the appetite through stimulants or from impure blood, or if irregular habits, is the kind that lays the possessor liable to heart disease, apoplexy, vertigo, etc. Then there is the genuine, healthy, life-giving tissue, the result from regular and moderate habits, or if irregular habits, the taking regularly and according to directions the famous Carlsbad Sprudel Salt. The salt will reduce unhealthy tissue and build in its place that firm and solid flesh which is the certain sign of perfect health. It is virtually taking the Carlsbad treatment in your home. Every drug store has it. The genuine has the signature of "Fisner & Mendelson Co., Sole Agents, New York," on the wrapper.
