A DEFEATABLE ROGUE

Investigation of Anarchist Ravachol's Record Points Him Black.

Mean Crimes and Cowardly Actions Brought Home to Him.

London Again Stirred to Excitement by Thieving in High Life.

Arrest of an Audacious Rascal for a Mean Escapee in New York.

PARIS, April 1.—It is reported that a regular permit has been discovered at the lodgings of Ravachol, the anarchist, authorizing him to obtain 1,500 cartridges from the dynamite stores near the bourse.

It was thought that the arrest of Ravachol and his accomplices would put an end to the cowardly work of the anarchists, but it appears from a discovery made by the police that they have not succeeded in capturing the dangerous members of that party.

It appears that until Ravachol was arrested many of those who were aware of his misdeeds hesitated to speak, such was their fear of his vengeance.

It is reported that Ravachol is a New York rascal, and that he has been in London for some time, where he has been engaged in a series of thieving expeditions.

ANGRY ULSTER MEN. Revolt Threatened if Gladstone Is Returned. Knowing their days are numbered, they are passing the time by plotting to declare civil war in the event of a Liberal majority altering the constitution. DEFECTIVE PAPER.

Huntington's Name on a Million Dollars' Worth.

Murderer Shaw Caught.

Will Die in the Chair.

Ended His Existence.

NEW YORK, April 1.—More of the commercial paper of Paige, Carey & Co., bearing the forged indorsement of John Huntington, was brought up in New York yesterday. It is known that several hundred thousand dollars of the assets of the bankrupt North River bank are in notes bearing the signatures of John Huntington, and none of them have been paid yet. None of it has ever been cashed, however. Paige, Carey & Co. is said, kept an account of the notes, and it is believed that considerable of the worthless paper was carried there. The cashier of the bank, when seen, declined positively to have anything to say about the forged paper. He would not deny or admit that any drafts bearing Huntington's indorsement had been presented at his bank.

A. P. Baird, of Cleveland, called at the bank yesterday to make some inquiries about a \$200 note signed by Huntington which he held, and he said that the discovery of the forgeries had caused a tremendous sensation in financial circles in Ohio, and that he would not be surprised to learn in a day or two that several banks in that state had been forced to suspend business in account of the forgeries. It is believed that the total amount of the forgeries will be found to be almost \$1,000,000.

BABY FARMING. A Life Concern Unearthed in Massachusetts. LYNN, Mass., April 1.—By the arrest of Annie B. Fisher and her daughter Mary, of Sougan, a baby farm has been brought to light. State officers arrested two men on the charge of taking to board more than two children at one time without notifying the board of health. The dead body of an infant was found Wednesday in the house of the woman, an old farm house occupied by the Fisher women. An investigation of the house revealed ample evidence of the criminal occupation of its inmates.

Under their cars were found six children whose ages varied from three weeks to fifteen years. The woman refused to give the names of the parents of two of the children. One of them is a child girl nineteen years of age, who has been in the place four years. It is said that she has a brother and sister in Taunton. It is almost impossible to picture the wretched filth and depravity on the place. Officers say it is the worst case of the kind they have ever seen. The women refused to talk beyond the statement that they have done nothing criminal and that the children have had good care.

STUDYING THE NUDE. A Bold Young Rascal Adopts a Unique Method. NEW YORK, April 1.—Ernest Lasher, seventeen years old, said to be the son of parents who have means, is locked up here for personating an attack of the health board, hunting the Italian women in the streets for study. He had been informed that the concierge had found a dynamite cartridge in front of the house. The police were at once notified, and he was taken to the station where he placed the cartridge where it was found.

It appears that until Ravachol was arrested many of those who were aware of his misdeeds hesitated to speak, such was their fear of his vengeance. Now that he is in prison, they are coming against the man that the public are asking whether it is creditable to the efficiency of the police that such a desperate attempt should be made by a young man in Paris. Ravachol himself has apparently given up all hope of escaping, and is now studying for a degree in his crimes, and to be not unwilling to be regarded as a monster of guilt. His denials amount almost to admissions in progress, and it is believed that when it becomes known it will startle the world. Ravachol is known to have a large quantity of dynamite, and it is believed that he has some accomplices who betrayed him to the police.

FAIRBURY, Ga., April 1.—Walter Cook, a negro, was hanged here at 11 o'clock this forenoon for killing and robbing Kiser, a well-known white planter, last October. Cook accented the gallows expressing readiness to die and assurance that he would go to his grave with a clean conscience. He had repeatedly asked investigation of any or all his activities, and in plain words charges them with corruption.

LAKE CRUYSTAL, April 1.—The grand jury which has been sitting during the March term, investigating the evidence of Dr. Parkhurst and his agents as to the existence of gambling and disorderly houses in the city, has today issued its decision without interference by the police, brought in a presentment this afternoon which scores the police officials as most corrupt, and in plain words charges them with corruption.
