AN EQUITABLE DIVIDE.

Senators Pass a Bill to Govern the New York Apportionment.

Twenty-One Democrats and Thirteen Republicans to Be Elected.

Anti-Hill Men Gather and Pass Numerous Resolutions at Buffalo.

Both Sides Resting in Hope in Rhode Island--McCulloch on Silver.

ALBANY, N. Y., April 5 .- The bill providing for an apportionment of the counties of the state into new congres sional districts passed the senate to night. The Democratic leader, Senator Cantor, replying to criticisms of the bill, said the new arrangement was a fair one, whereupon Mr. Saxton said that he had examined it and found, on the basis of the last congressional vote, that twenty-one districts would be Democratic and thirteen Republican. The basis of representation would be 176,000. Of the 21 Democratic districts, 17, or 80 per cent, contained less that 176,000, while 9 of the 13 Republican districts contained over 176,000. The average population of the Democratic districts was 172,000, and of the Republican districts 183,000. This did not look very

ANTI-HILL RESOLVES.

Fairchild and Grace Make Talks to Buffalonians.

BUFFALO, N. Y., April 5 .- A large and enthusiastic meeting of anti-Hill Democrats was held tonight. Nearly 2,000 men, headed by the Cleveland Democracy, escorted the speakers, ex-Secretary Fairchild and ex-Mayor William R. Grace, of New York, from their hotel to the new hall. The resolutions adopted, after reciting the circumstances under which the February constances under which the February con-vention was held, continue as follows: Resolved, That as Democrats, having a profound interest in the maintenance and success of the principles of our party, we feel compelled by a sense of duty to con-demn in emphatic terms the political meth-ods which have resulted in fostering upon the Democratic party of this state, a so-called delegation to the national convention which, instead of fairly representing, in fact actually misrepresents the great body of the actually misrepresents the great body of the party in the state.

Resolved, That we ratify the call for the

convention to be held at Syracuse on the 31st day of May, and we authorize the delegates there chosen to represent us at the national

convention

Resolved, That we disclaim and repudiate, in accordance with the movement in favor of the Syracuse convention, any intention or desire to disrapt or in any way injure the Democratic party; but, on the contrary, we insist that our participation in such movement is based upon the most carnest desire to preserve its integrity and insure its success in the coming national contest, and upon the justifiable and warranted belief that such will be the result.

RHODE ISLAND FIGHT.

Both Sides Confident, After Final Kallies.

PROVIDENCE, April 5.-Tomorrow will be decided one of the most interesting political fights in the history of Rhode Island. The eve of the battle finds the work of preparation almost finished. Of course both parties are positive of victory, but the truth is the fight is very uncertain, and all sorts of wagers are being made on the result. Although the skirmish was practically ended last night, the Democrats held even meetings this evening, and the Repuglicans held thirteen meetings in various parts of the state. The contest tomorrow will be for state officers and the state legislature, which is to elect a United States senator.

The Democrats advanced no claim

beyond saying that they will elect their state ticket, but they appear very confident. The new elements entering int the present contest are so diversified that calculations based upon preceding elections are not regarded with much faith by the leaders of either party.

M'CULLOCH ON SILVER.

An Ex-Secretary of the Treasury Reviews the Question.

WASHINGTON, April 5 .- Under date of March 29, Hon. Horatio C. King wrote a letter to Hon. Hugh McCulloch, who was secretary of the treasury for four years, soliciting his views on the proposition for free coinage of silver. Mr. McCulloch's reply is as follows:

"Dear Sir: The recent vote in the house may prevent any important ac-tion upon the silver or bi-metallic question upon the silver or bi-metallic question at the present session of congress, but it is a question which is not likely to be settled at an early day. The most earnest advocates of the free coinage of silver in the United States, without regard to the action of other nations, are the owners of, silver mines and the debtor class, which in all enterprising countries is overwhelmingly the larger class. In all such countries the borrowers are numerous, the lenders comparaers are numerous, the lenders compara-tively few. The borrowers, as a class, are earnestly in favor of a liberal supply of currency, whether depreciated or not. The lenders, as, as a class, are as

the issue as will prevent depreciation.

The comparative value of the two
metals is now, by international accord,
fixed as far as it can be, one to sixteen—
so that one ounce of gold is worth sixteen of silver, and this will continue to be their comparative value, unless new and rich mines of one or the other shall be discovered. But while this has been

agreed upon, it has been found necessary by the leading nations to limit the coinage of silver or its legal tender value. It has been found impossible for the United States, without the co-operation of other nations, to give to the two met als equal comparative value. Hence the insuperable objection to the free coinage of silver. Being the inferior metal, it would drive gold out of circulation, and we should have for a standard a metal constantly fluctuating in value, to the great predjudice of all legitimate

business.

If I were in a position to advise congress, I should say, let us go on as we are now going; let the coinage of silver go on with a restriction upon its legal tender quality; let us profit by our own experiences; let us profit also by the action of Great Britain, the wisest of patients where silver course have free nations, where silver coins have a free and large circulation without disturbing the supremacy of gold. Very truly, yours, Hugh McCulloch.

"The financial question, of course. The West is decidedly in favor of free silver, and naturally in favor of tariff reform, but that is rather an old issue. The real issue in the next contest will be the money question."

Nettleton to Be Removed.

NEW YORK, April 5.-The Herald this morning says that it has information from the very best sources that Assistant Secretary of the Treasury Net-tieton is to be removed. He may be permitted to resign, it is said, but the chances are that his removal will be recommended to the president by Sec-retary Foster. Ellis island scandals are said to have led the secretary to decide on parting with his assistant.

Bayard for Delegate. WILMINGTON, April 5.-There is novement on foot to constitute Hon. Thomas F. Bayard, one of the Delaware delegates to the Democratic national convention at Chicago. The matter has not yet been mentioned to Mr. Bayard, but, as he unhesitatingly accepted a delegateship to the last state convention there is no reason to doubt that he tion, there is no reason to doubt that he would respond as readily to the call of his party to go to Chicago.

Equality Before the Law Becoming a Jest and a By-Word.

Anarchists and Arbitration Engage the Attention of Parliament.

Deplorable Conditions Result From Durham Miners'

London, April 5.—The newspapers join in universal condemnation of the sentence of Mrs. Montague as too lenient. They compare Mrs. Montague's case with that of Fannie Gane, the poor girl who was convicted and sentenced to death, the sentence being commuted to imprisonment for life, on the charge of having strangled her infant, although there was no convincing proof that she had intended to cause the death of the babe, and although if she did she was presumably insane at the time with her sufferings. It is argued that it is high time for a popular movement to enforce the equality of all before the law. There is a demand on the part of the press for the appointment of a permanent guard-ian for the remaining children of Mrs. Montague, and that the mother should be set aside so far as personal care and control of the children are concerned.

DUBLIN, April 5.—The Independent today, commenting on the sentence of Mrs. Montague, who was yesterday found guilty of manslaughter for killing her three-year-old daughter Helen, and sentenced to a year's imprisonment. sentenced to a year's imprisonment, says that Mr. Montague is a contemptible, henpecked creature, and that every

British Commons. London, April 5 .- In the house of commons today Howard Vincent asked whether, in view of the expulsion of anarchists from France and the fact that they were excluded from other European countries and partly from the United States under the alien law, thus leaving Great Britain their only refuge, the government would take steps to in-crease the powers of the authorities to restrict their entry into the country.

Home Secretary Matthews said he was not aware that France had expelled the anarchists. If it was probable that any of that class would attempt to gome to England the government would ask for the necessary powers to prevent them.

the necessary powers to prevent them. Henry Labouchere asked whether, in view of the fact that the American con-gress had authorized President Harrison to conclude treaties with other powers providing for the arbitration of disputed questions, the government intended to communicate with the United States with the view to the negotiation of such a treaty between Great Britain and the United States. J. W. Lowther, parliamentary secretary of the foreign office, replied that Mr. Gladstone, when prime minister, in replying to a similar question, said he was not prepared to do anything of the sort. Although he held the same opinion as Mr. Gladstone on the subject, the government did not desire to give such an abrupt statement of its views. The government, Mr. Lowther added, had shown itself not to be adverse to referring to arbitration several verse to referring to arbitration several disputes that had arisen with foreign countries, but there are questions, such as those involving territorial and other rights, that the government could not piedge itself beforehand to submit to

A HOPELESS STRIKE.

Great Distress Prevailing in Durham Coal Regions.

LONDON, April 5.-The situation in the Durham mining district is deplora-Terrorism is rampant. The leaders no longer pretend to exercise any control over the strikers, wno are com mitting all sorts of vandalism. The men are at war with themselves, and one reason why work is not resumed is that many of the mines will require a month's pumping out before they can be operated. One of the most noticea-ble features of the strike is that be operated. One of the most noticea-ble features of the strike is that the wives and families of the strikers, despite the sufferings to which they are subjected by the idleness of their bread winners are the strongest opponents of a sur-render. The day of submission, however, cannot be much longer delayed, as the case of the men is hopeless.

The town council of Hartlepool held

an emergency meeting tonight, to discuss measures for abating the prevailing distress. It was shown that thousands of destitute people are clamoring for relief. The call for work or bread was heard on every side, mingled with children's cries of hunger. The lists which had been prepared by the measurement of the control which had been prepared by the municipal officers showed that in addition
to the ordinary number of persons seeking relief there were now 800 families
in Hartlepool, who had been dependent upon work in the steel mills for
support, who were without fuel or food.

HOSTILE SPANIARDS.

Demand That Anarchists Be Hunted Like Wild Beasts. MADRID, April 5 .- The excitement caused by the attempt made yesterday to blow up the building in which the cortes meet does not abate. On the contrary, as further particulars of the attempted outrage are learned, the public becomes more indignant, and many threats are inculged in. It is thought here that the anarchists have been allowed too much latitude in spreading the tenents of their belief, and that hencefort the government should hunt them as wild beasts to be destroyed on sight. Two men arrested yesterday were arraigned for examination today before a police magistrate. The defense the prisoners made was ludizrous. Both of them protested in the face of their previous statements that they were perfectly innecent of any

chamber of deputies, the senate chamber, the royal palace, the Bank of Spain and other public buildings. The prisoners were held for trial. Upon the conclusion of the examination the police made a raid upon an anarchist club and arrested twelve of its members. A bomb exploded in a street in Valencia today. Nobody was hurt. Mothwill then return to St. Paul to meet Smith McHugh, his old antaronist. McHugh writes that he has discontinued his active training, and that he will be in St. Paul tomorrow for the meeting. He will come prepared to back himself for any sum that Moth is willing to stake. Moth feels sanguine of the outcome, and it promises to be a desperate struggle. Surrender by the Roads Left Out Will Mean Peace in Future.

Western Traffic Association Alleged to Be Weak--New

CHICAGO, April 5 .- It has just leaked

Two secret meetings have been held, ne in Pittsburg and, it is believed, the other in New York. The roads that are to be practically boycotted by this arrangement are the Rock Island, the Chicago, St. Paul & Kansas City and the Chicago & Alton in the West, and the Grand Trunk, the Erie, the Baltimore & Ohio and connecting lines in the East. It is plain to be seen that this is another attempt on the part of the Pennsylvania and Vanderbilt systems to do away with the payment of passen-ger commissions to ticket agents, and they have secured the assistance of four of the strongest road west of Chicago.

If by this deal they can force the other lines to surrender, a peaceful solution of the commission question may be expected, but nobody seems to an-ticipate such an outcome, at least until after there has been a hard fight. The combination has been handled very carefully, and it was not until today that reliable information on the subject could be obtained. The discovery of what has been going on will certainly lead to a row, and it is predicted the result will be a terrific rate war or the bandonment of the scheme

Indications of Weakening in the Western Association. CHICAGO, April 5 .- What will become of the Western Traffic association after April 13? is the absorbing question in railroad circles. Now that the attempt to hold a meeting on that date has been formally abandoned, and a call has been

formally abandoned, and a call has been issued for a special meeting in New York May 10, the opinion is expressed even more freely than before that the association is making its last gasp.

To Jay Gould is attributed the failure to secure a quorum for the proposed meeting in Chicago. The presidents of the lines that are accused by Gould of cutting rates, and who are certainly not anxious to help him wield the club with which he intends to punish them, may find it convenient to go to New York May 10. ONE MASS OF SCALES Afflicted 3 Years by Dreadful Skin and Blood Disease, with Intense Pain and Loss of Hair.

All Other Remedies Fail. Relieved Instantly and Cured in Four Weeks by the Cuticura Remedies.

I have a few words to say regarding the CUTICURA REMEDIES. They have cured me in four weeks' time from a Skin and Blood Disease which I have had for over three years. At certain times my skin would be very sore, and always kept cracking and peeling off in white scales. In cold weather my face was one mass of scales. When in the cold air the pain was intense; it would almost bring tears to my eyes, and my blood also being in a poor condition, with a loss of hair. I have tried every known remedy that was recommended to me, but it was of no use, and gave me very little benefit. So, hearing of your CUTICURA REMEDIES, I concluded to give them a trial. The first application gave almost instant relief. In a few weeks' time I found myself cured, and I am thankful for what they have done for me. Your CUTICURA REMEDIES are a blessing to those who may have the opportunity to use them. I can recommend them to any one.

FANTLE BROS. BEAUTIFUL HOMES.

We have now in our hands with out exception the mostbeautifulpiece of residence property in St. Paul. This is Clay's Addition, fronting on the river at the foot of Cleveland avenue. It is covered with fine trees, and lies perfectly. We propose to make this a choice residence neighborhood, and we will gurantee none but desirable neighbors. We will not sell to speculators, but to the right people desiring to build we offer special inducements. We do not intend to have any cheap houses on this addition. But if you will agree to build a good house, and are the right sort of man, we will sell you a lot 50 by 150 feet, worth \$1,000 or\$1,200, for a nominalprice. The West Seventh street electric line runs within a block of this addition. and it is accessible to the beautiful scenery and attractive society of Fort Snelling. We have, also, the best property in South St. Paul, as well as good property in other parts of the city, and fine acre property for market gardens.
