stood he would again appear. J. G. Greenwalt, the special pension office examiner who made the investigation, which resulted in Commissioner Raum's pronouncing the charge against Representative Cooper, was asked if he furnished the \$25 to Morgan which Representative Cooper refused to accept and returned.

Mr. Greenwalt declined to answer on the ground that in an interview Mr. Cooper had said he intended to prosecute in court the parties to the affair.

Mr. Cooper said he would, if necessary to get at the whole truth of the matter, relieve the witness himself of any fear.

Mr. Erwin asked if the witness declined to answer on the ground that it might criminate him.

The witness replied that he made the investigation as a subordinate, and had instructions to do anything he might think necessary to elicit everything connected with the transaction.

The witness did not want to make a further answer because it might furnish Mr. Cooper with information he could use in the prosecution of others.

Flaherty, however, he admitted that he had furnished Morgan the \$25 to send to Mr. Cooper in order to draw out the information he wanted.

He had done this in good faith, believing Morgan's statements. Gen. Raum had told witness he should not suffer pecuniary loss through the payment of money to get information.

Witness understood that Mr. Raum would reimburse him out of his own pocket if necessary, for witness knew it could not be paid from the public funds.

Witness was still out the \$25, as Mr. Morgan had not returned the \$25 after Mr. Cooper had declined to accept it. He supposed Morgan had it yet.

They looked upon their trial as a farce and joked with the jurors while awaiting the verdict. Nor were they in error as to the outcome. The jurors were lenient and the prisoners were all acquitted.
