EXCITED BY CUTTING.

Northwestern Passenger Circles Made Very Anxious by Rumors.

Contracts Reported at \$5 Less Than the Rate Decided On.

The Northwestern and Its Eastern Connections Mentioned.

New York Central Makes Cut of Ten Cents on Duluth Grain.

CHICAGO, May 9.-No little excitement has existed today in Northwestern passenger circles over the report that neavy cuts are being made by lines east of Chicago in rates to the Republican national convention at Minneapolis. To make matters worse another report was started to the effect that one of the lines between Chicago and Minneapolis had contracted for certain delegations at \$6:50 per passenger for the round trip. This is five dollars lower than the agreed rate. It is not known how much of this reduction is borne by the Northwestern line, but in all probability a considerable proportion of it falls upon its Eastern connections, con sidering that the demoralization began in the territory east of Chicago.

A TEN-CENT CUT.

New York Central Makes a Low Rate on Grain.

CHICAGO, May 9.-The fact that eastbound shipments of grain have fallen off until they are thousands of tons short of the volume that was moving at this time last year is regarded as a sure indication that the bulk of this traffic is going East by other gateways than Chicago. The Trunk Line association has authorized a rate of 15 cents per 100 pounds on grain by lake and rail from Chicago to the seaboard, as against an all-rail rate of 20 cents, yet the report reached here today that the New York Central has made contracts for the Central has made contracts for the transportation of 2,000,000 bushels of wheat by lake and rail from Duluth to New York at a through rate of 71/4 cents per 1,000 pounds, which rate includes elevator charges at Buffalo, and all ter-minal charges in New York city. Against the Chicago rate of 15 cents, the rate from Duluth should not be less than 17½ cents, so that the new rate is regarded as a cut of 10 cents per 100

pounds.

Last week the east-bound shipments of dead freight from Chicago by all the railroads amounted to 55,968 tons, against 57,912 tons during the previous week and 55,508 during the same period last year. The shipments of flour, grain and provisions from Chicago to the seaboard by the roads in the Central Traffic association aggregated 18.512 tons, against 20,179 for the preceding week, a decrease of 1,677 tons, and against 27,481 for the corresponding week last year, a decrease of 8,969 tons. At the Front in the Methodist Con-

ference. OMAHA, May 9 .- Women and dancing were two of the topics that agitated the Methodist Episcopal general conference today. Committee membership was demanded for the former, and young members gave decided indications of a desire to enjoy the latter. The woman question was sprung in the form of a resolution by J. B. Maxwell, of Nebraska, asking that they be admitted to full participation in the doings of the gen-eral missionary committee. The resoeral missionary committee. The reso-lution, while exciting much interest, was referred under the rules without discussion. The project to mix gayety with piety came in the shape of a me-morial from the Troy conference, peti-tioning the general conference to ex-punge from the discipline section 242, relating to amusements, or at least relating to amusements, or at least asking that they be modified so that dancing may be permissible. Steady cables, light receipts here and throughout the Northwest, and reports of snowy weather in South Dakota. Nebraska and Iowa, with rains in the Northwest—all these had a bullish effect upon the market. A general break of 1c followed soon after, caused by a scare over what the government report would be tomorrow, and good reports from the Illinois wheat crop. NEW YORK, May 9.—The stock market to-day exhibited in the main rather more ani-mation than usual of late, and while prices mation than usual of late, and while prices are agreed prices were the result. Wheat started with strength enough for a two-cent advance, but left off with a modest leg gain on Saturday's closing price. Corn did exactly the reverse of wheat. It had even a wilder beging, and jumped up and down like mad; the total advance being 28cc, but the closing layance being 28cc. liquidation of long accounts in a few stocks, notably Omaha and Rock Island, but the influence of these declines was offset by more encouraging advices from London, where more interest was manifested in American stocks and higher prices established.

The industrials, however, occupied a more commanding position in the market than they have for some time, and the strength in those properties gave the list a stronger appearance than the course of prices among railroad stocks entitled it to. The strength in the industrials was manifested principally in Sugar and Chicago Gas. The manipulation of Sugar took the upward turn today, and a portion of its late material losses was recovered, while the advance in Chicago Gas was based on a more substantial basis.

The general list remained quiet and fluctuated within the narrow limits usual of late, exhibiting after a strong opening a rather reactionary temper at first, but later developing a firmer tone in response to the movement among the leaders. The strength in Hocking Valley and Wheeling & Lake Erie was due in a large measure to the rumor noted, but the others failed to score any marked changes.

The market steadily appreciated in the afternoon, and the close was fairly active and firm to strong at about the best prices of the day, though in most cases only slightly changed from the opening. Sugar, however, is up 2%: Hocking Valley, 2%: Chicago Gas, 2¼, Lackawanna and Louisville & Nashville, each 1½, and the other leaders fractional amounts.

Visible Grain Supply.

New York. May 9.—The visible supply of grain May 7, as compiled by the New York produce exchange, was as follows: Wheat, 51,91,000 bu; decrease, 1,753,000 bu. Corn, 4,902,,650 bu; decrease, 1,155,000 bu. Oats, 3,520,000 bu; decrease, 92,000 bu. Rye, 870,000 bu; increase, 55,000 bu. Barley, 503,000 bu; decrease, 33,000 bu.

LOCAL MARKETS.

Our quotations and market values are almost entirely for commission lots on orders sold from first hands. Dealers sending small orders to this market should not expect to have them filled at the inside figures or quotations, as shipping stock is always of selected varieties and best qualities.

Amount of trading yesterday not large; prices of hay, corn and oats again taking an upward turn; corn and oats about \(\frac{1}{2}\cong \text{pr}\) and hay 50c per ton for all grades.

The tendency of the butter market is to lower prices; stocks are not, however, increasing to any large amount, but dealers are cautious and keep stocks well cleaned up.

Oats and good, sound bright hay are in especial demand, and much larger receipts will meet quick sales!

For cheese the market continues steady. Increased supplies will have a weakening effect. St. Paul Produce.

Increased supplies will have a weakening effect.

In fruits we note but slight change in quofations. The market is well supplied with all kinds and the qualities are of the best, but bananas just at present are in excess of demand, and dealers are inclined to shade prices: trade in all lines is very active.

New vegetables of all the different kinds are now being received daily in large quantities, and dealers are prepared to fill all orders.

ders.

Good, sound, bright barley is wanted by shippers and malsters; discolored and poor slow sale.

MINNEAPOLIS.

The wheat market was higher, due mainly to storms that covered most of the spring wheat territory and delayed seeding in all parts that are behind with the work. Nearly 30 per cent of the whole Northwest, it is estimated, is not sown yet. Cables were mostly

steady. Berlin reported fear of damage in Germany from freezing temperature.

CASH WHEAT.

The demand for No. 1 northern wheat was good yesterday, with one local miller buying considerable. Sales of No. 1 northern were mostly made at \$3\frac{1}{2}\text{@}3\frac{1}{2}\text{@}4\text{e}}. A few fancy cars brought 8\text{ic}, and some thin ones sold at \$3\text{@}0\text{@}0\text{@}3\text{4}\text{e}}. A few fancy cars brought 8\text{ic}, and some thin ones sold at \$3\text{@}0\text{

at 50c@\$1.25 above. But little bag stuff selling now.

Corn—Receipts, 5,340 bu; shipments, 520 bu. Quoted at 39@40c for good dry No. 3,40@41c for No. 3 yeilow, and 37@3ec for dry No. 4. Damp corn is quotable at ½@2c less than dry, according to conditiou. No grade 1½@2c under No. 3, according to condition. Corn was higher. The bad weather for grading, and the cold, wet weather that keeps corn out of the ground, and that causes that planted to decay, with much sold for May delivery, were the causes that conspired to make higher prices in futures. The spot prices of samples were in some sympathy. But little corn came here lately, as the local market was too low for other places.

Outs—Receipts, 11,770 bn; shipments, 49,620 bn. Quoted at 2312@30c for No. 2 white, 2912 Outs—Receipts, 11,770 bu; shipments, 49,629 bu. Quoted at 24\(\frac{1}{2}\)30c for No. 2 white, 20\(\frac{1}{2}\)30\(\frac{1}{2}\)30\(\frac{1}

brisk, and there being few nice lots offered they sold quite well.

Rye-Receipts, 1,300 bu; shipments none; quoted at 73675c for No. 2. f. o. b.

Barley-Receipts, 1,900 bu; shipments, none. Held at 46652c for good No. 3, and 3964ic for No. 4. The barley market is steady, with a small supply of choice grain to sell. Demand is not excessive, but there is a demand to take all offered.

Flax-Receipts, 590 bu; shipments; 2,840 bu Flax sales are based, less freights, on Chicago market. The stock of flax in Minneapolis Monday was 350,030 bu in public and private storage. wate storage.

Feed—Millers held at \$14@14.50; less than

car lot, \$14.50@15, with cornmeal at \$13.50@ 13.75; bolted meal, \$16@16.50; granulated, \$1 @17.50.

Hay—Receipts, 101 tons; shipments, none. choice upland at \$11@11.50; Minnesota wild, \$16@11; coarse off color, \$5.50@8; timothy, \$12@13. Receipts very light and demand good. Market on better qualities very firm. A great deal of the hay coming is hot. caused by the recent heavy rains.
