SIX STILL SPURT

And Engeldrum Leads in the Walking Match.

The first two days of a walking match are the ones which test the participants, and, as a usual thing, those who finish twenty-four hours go through a six-days race. Of the eleven contestants who started in the men's race at the Jackson Street rink Tuesday five have dropped out, Benson being the last one to quit yesterday. He was not in condition, and stopped a fifty-five miles. There was no excuse for Palmer quit-titute who were incomplained as clause exonerating the complainants from any blame for the bringing of the suit. This clause gave rise to a heated discussion, and, after an unavailing effort by the adherents of Col. Bogg to have it stricken out, the other side got unanimous consent to have their protests recorded. The recommendations of the committee were adopted, and the agreement was indorsed by the bondholders by a vote of 7,621 to 1,505. indorsed by the bondholders by a vote of 7,621 to 1,565.

SCALING APPROPRIATIONS. The Senate Committee Cutting the Figures.

WASHINGTON, May 18.-The senate ommerce committee today applied the knife to the river and harbor bill. The committee has decided that the total of the bill as reported to the senate, \$22,346,077, was too large, and, realizing the endless trou-ble and dissatisfaction that would follow any effort to discriminate be tween the various contracts and contween the various contracts and continuing appropriation projects which it was determined should bear the brunt of the reduction, adopted the course of reducing the appropriations of all of them 25 per cent. The result was the reduction of the total appropriation made by the bill by \$2,083,750, bringing the total down to \$20,361,363, which is nearly \$1,000,000 less than the appropriation made by the bill si it. the appropriation made by the bill as it came from the house. Among other items scaled down were the following: Upper Missirsippi, from \$1,500,000 to \$1.185,000; lower Mississippi, from \$2,945,000 to \$2,228,750; twenty-foot canal, great lakes, from \$500,000 to \$375,-000; Cascades, Columbia, from \$35,000 to \$226,250; Dalles of Columbia, from \$250,000 to \$187,500.

The Kentucky Derby Winner Again Demonstrates His Stamina.

Phil Dwyer Easily Beaten for the Clark Stakes at Louisville.

"Newsies" Fired Bodily at Gravesend--Results at St. Louis.

Progress of the Great Relay Bicycle Race, Chicago to New York.

LOUISVILLE, Ky., May 18 .- The track at Churchill Downs today was simply wretched. It was several inches deep in mud, and for a part of the afternoon rain poured in torrents. About 2,000 braved the elements. The feature of the day was the Clark stakes, and it narrowed down to a splash between Azra, the Derby winner, and Ed Corrigan's Phil Dwyer. Just before the race Huron and Bashford were scratched. and the odds opened at 1 to 4 Azra, and 3 to 1 Phil Dwyer. They left the post at about these odds, and as they passed the wire Phil Dwyer was half a length in front. Azra ran beautifully this distance before Dwyer. Here Corrigan's colt collapsed entirely, and Azra romped in

the winner of \$3,040 by ten good lengths.

Bob Jacobs won the first race easily and Pretender, a second choice, the second. The third was the Clark stakes. Ingomar, second in the betting, won the fourth in a romp, and Palisade followed suit in the fifth. The last went to that promising mudlark Parolee, after a pretty little brush with Gray Goose. KILLED FOR A GIRL. One Dead and Two Dying as a Re-

sult of Jealousy. MARYSVILLE, Cal., May 18 .- Last vening Jesse Foulk, a young man nineteen years old, went to a picnic near town and met May Lane, the sixteenyear-old daughter of William Lane, a rancher. Foulk and the girl had hardly rancher. Foulk and the girl had hardly sat down to eat ice cream when her father appeared, accompanied by one Danley, grasped the girl by the head and threatened to shoot her if she did not go with him. When Foulk said she should not go, he was struck and knocked down. Thereupon Henry Flowers, colored, grasped Danley, and the latter and Lane discharged their pistols several times. Foulk fired twice at Lane, both shots taking effect. Lane and Foulk were brought to this city fatally wounded. Danley is under arrest, and from indications he is the one who fired the first shot. He has been attentive to the girl and objected to Foulk's attention. The colored man, Flowers, was also shot and died on the ground.

ONE SHY IN THE POOL. Rock Island Serves Notice of Withdrawal.

CHICAGO, May 18 .- The Rock Island road has given notice of its intention to withdraw from the Northwestern blind passenger pool. It takes this step rath, r than obey the order of the advisory board to divert certain excursion traffic to other roads in the pool. The excursion agency protested, declaring that they had contracted for the transportation of certain of their parties over that road, and if the business were diverted to any other line action would be brought against the railroad company for breach of contract. Notwithstand ing the embarrassing position in which the Rock Island was thus placed, the advisory board declined to help it out of its dilemma. Then the Rock Island flatly refused to obey the order, and also declined to attend a conference on the subject. Without revoking its first order the advisory board has now issued another, directing the Rock Island to turn over to the Burlington road all its west-bound immigrant business from the Atlantic seaboard by way of Chica-go, destined to or through St. Paul or Minneapolis. This was the hair that broke the camel's back.

The Work of City Building Goes Merrily and Rapidly On.

A Lusty Infant That Will Reflect Credit on Northern Wisconsin.

600,000,000 Feet of Pine Tributary to the New Town.

In all probability no stream in North-ern Wisconsin has been so extensively advertised on account of its picturesqueness as the Brule river. From its beginning to the point where it empties ito Lake Superior, some sixty miles distant, it is overshadowed on either side by towering pines, with a sprinkling of fir and cedar here and there, which make the banks most beautiful. The stream itself is narrow, and has a fall sufficient to make a moderately rapid current. The water is clear, and trout

current. The water is clear, and trout are found in no small quantities. Owing to these characteristics the term "Beautiful Brule" is frequently used when the stream is mentioned.

At the point where the Northern Pactic railroad crosses the river, twenty-five miles from Superior, thirty-six miles from Ashland and sixteen miles from Lake Superior, the stream is most beautiful. The surrounding timber is heavy and of the best variety, being largely white pine with a growth of large Norways mixed through it.

Site of Brule City.

Near the bridge of the Little Brule, a creek of clear water, which extends back in the dense woods for several miles, flows into the Brule river and widens it somewhat. And here, too, is the site of Brule City, platted by the Brule Land and Improvement company a few days ago. The company owns 3,040 acres of land adjoining the northwest quarter of section 14-47-10, which has been platted and divided into lots. The company is incorporated at \$250,000, and its officers are: Frank A. Root, president and general manager, and Joseph C. Henvis, vice president and treasurer. Both gentlemen are from Superior. Site of Brule City. en are from Superior.

Beginning of Brule. Six weeks ago the officers of the company perceived there was a demand for a town at this point, owing to the lum-bering concerns that will soon begin op-erations in the 600,000,000 feet of choice erations in the 600,000,000 feet of choice pine tributary to Brule City. They laid out the city one week ago, and while the property will not be placed on the market until tomorrow morning. \$10,000 worth of lots have already been sold. Ashland parties alone last Friday invested several thousand dollars in Brule real estate. Inquiries for lots are received from Ashland, Chippewa Falls, Superior and throughout the Chippewa timber district. Excursions will be run to the site from this city and Ashland durthe site from this city and Ashland dur-ing the week. The property which will be disposed of first will extend north from the track eight ayenues, and is cut lengthwise by Lake, Maple, Main, Chest-nut and Market streets. One hundred and firty men are engaged in felling the heavy timber on this property and cut-ting it into lengths for saw mill use and stovewood purposes.

Buildings at Brule. The company erected a cosy office on Market street and Second avenue y esterday, and have begun a saw mill, which will cut into building timbers the pine being removed from the townsite. Plans are prepared for a commodious hotel to accommodate 250 persons. The company has other builtings under consideration, among which are several two-story store structures. These will be erected before June 1.

Brule "Before the War." Brule prior to the locating of the Land and Improvement company had a postoffice, three general stores, a boarding house and a blacksmith shop. One of the stores is located in a one-story log structure, which is decidedly rustic
