

PENSION MONEY CUT

Vets in Soldiers' Homes Are to Have but \$5 Per Month.

All Above This Amount Is to Go to the Treasurers of the Homes.

The House Aims a Blow at Peculiar Methods for Increasing Fees.

How a British Slave Driver Lorded It Over Census Office Clerks.

Special to the Globe.

WASHINGTON, May 21.—Congressman Harris, of Minnesota, in speaking on the soldiers' home clause of the sundry bill today, said the part he wished to debate was a proposition made by the gentleman from Alabama to require the payment of all in excess of \$5 per month of the pensions received by the inmates of the soldiers' homes to the board of managers for the use of the home.

"Now, I think I am in a position to speak with entire kindness in behalf of any soldier," said Mr. Harris, "but I think that it is a benefit to him who is sent to the home, and has no one dependent upon him but himself, that the amount of money he may have to spend should be controlled to a certain extent; and \$5 per month, or \$60 a year, would be an ample and sufficient fund to enable him to provide for all reasonable expenditures. If you give him more than that it is wasted, and in a manner that may do him a particle of good, but possibly a great deal of harm.

"The Minnesota Method." "But we are unaware, Mr. Chairman, that in one of these homes you can calculate with the same certainty that a sutler would at a post, as to the amount of money he would get monthly, because there is not any of it left after a certain period in the pockets of soldier. He is bound to spend it if he is given the opportunity to do so. In the state I have the honor in part to represent, we adopted from the beginning the method of taking from the hands of all of his pension in excess of \$2 per month.

Mr. Blount—That is a state institution? Mr. Harris—That is a state institution, and is now under the law, receiving \$10 for each inmate from the national government. The amount of money which is thus received, in addition to what is made up from his pension, has been almost sufficient to pay the average expense of each inmate. In fact, the criticism has been made against us lately that we are really making money on the transaction. But, of course, nobody designs or desires to do that in Minnesota, and you can readily see that if the party was able to turn over a certain amount—his pension is \$12 per month and he turns over \$10 per month to the home, or \$120 a year, and in the same time he receives \$100 from the general government, making \$20 in all, and the average cost of such an inmate, including the salary of the manager, medical director and other necessary expenses of the home, does not exceed a charge of \$187 for each inmate—there is money made out of the transaction. This is a matter we ought not to look at from any partisan standpoint.

WASHINGTON, May 21.—In the house today, Mr. Henderson, of Iowa, endeavored to secure unanimous consent for the consideration of a bill for the preparation of a site and the erection of a pedestal for a statue in Washington of Gen. Sherman. Mr. Watson, of Georgia, objected, unless the house would agree to consider, his resolution requesting the committee on ways and means to report the sub-treasury bill, and the matter went over.

Mr. Outwater, (Dem.) of Ohio, from the committee on military affairs, reported a bill for the selection of a site and purchase of a pedestal for a statue of Gen. Sherman, and Mr. Henderson introduced a resolution setting apart May 25 as a day for considering the same.

Mr. McMillin, (Dem.) of Tennessee, from the committee on rules, submitted a resolution providing that hereafter the sessions of the house should begin at 11 a. m. Adopted.

In committee of the whole Mr. Forney, of Alabama, offered an amendment to the sundry bill providing that the board of managers of national homes for disabled volunteer soldiers shall apply the excess over \$5 a month of the pensions of all inmates to the support of the homes—except when the inmate has a dependent wife, child or parent.

Cut on Funds and Fees. This gave rise to a good deal of discussion, and was vigorously opposed. In advocating the amendment Mr. Snodgrass, of Tennessee, said that the pension roll, which should be a roll of honor, had become, owing to the legislation of the Republican party, a roll of dishonor. Mr. Blaine announced his willingness to have the dependent pension act repealed. Mr. Forney's amendment was adopted, 96 to 36.

On motion of Mr. Forney, of Massachusetts, an amendment was adopted providing that a statement of expenditures of the board of managers should be submitted in the annual book of estimates.

An amendment drafted at the suggestion of the government, accepting of officers was adopted, to correct abuses arising from attempts on the part of court officers to increase their fees, the principal requirement being that prisoners shall be taken to the nearest judicial officers of the United States. An amendment was also adopted providing that no United States commissioner shall be allowed fees for adjourned hearings. The committee then rose and the house adjourned.

CENSUS MISMANAGEMENT. How an Alien Slave Lorded It Over a Division. WASHINGTON, May 21.—The census office investigation was resumed today, and J. Frazier Richards, discharged clerk from the division of wealth, debt, taxation and local government in the census office, testified to what he regarded as a large number of instances of mismanagement and waste of public money in division. The chief, whose name was T. Campbell Copeland, had been an officer in the English army, and conducted the office as he would an English convict station.

CATARH SUPPERSERS.

Here Is Something of Interest to You.

Chronic catarrh is, by far, the most prevalent disease in the United States; it affects at least one person out of every three in some degree affected by it. Probably the most common seat of the disease is in some part of their respiratory passages, viz., nose, throat, larynx, bronchial tubes and lungs.

The treatment of chronic catarrh, wherever located, consists of, first, local treatment, which includes gargles, sprays, douches, inhalants, snuff, creams, suppositories, and atomized fluids. These remedies are useful only as palliatives. They can never effect a permanent cure.

The treatment of catarrh consists, second, of the proper regulation of food and drink, and is a very important item in the treatment of any case.

The third item in the treatment of catarrh is the regulation of the bodily habits as to clothing, exercise, cleanliness and sleep.

The fourth and most important item, without all other efforts will be fruitless, is the proper internal medication. The only medicine which can always be relied upon to do this work is Pe-ru-na. This medicine can now be obtained nearly all the drug stores in the United States, accompanied by complete directions for use.

Any one desiring to become acquainted with the details of the treatment of catarrh in each of the four items above enumerated, should write the Peru-na Drug Manufacturing Co., of Columbus, Ohio, for a copy of The Family Physician No. 2. This book also gives cause and cure of la grippe, coughs, colds, bronchitis and consumption. Sent free to any address for a limited time.

EUROPEAN VULTURES. LONDON, May 21.—A dispatch from Paris says that the condemnation of Edward Parker Deacon to one year's imprisonment at Nice has caused a painful surprise in the English and American colonies. It is said that several of the nobles in Paris, and their licentiousness is only equalled by their impudence.

More Original and Tasteful Designs. In Millinery at Vose's, 522 Nicollet avenue, Minneapolis, than anywhere else.

AMERICAN NEWSPAPER PUBLISHERS' ASSOCIATION!

NEW YORK, May 11, 1892.

To the Members of the American Newspaper Publishers' Association: GENTLEMEN—The undersigned, a committee appointed by the president to investigate into the merits of the various typewriting machines with a view to the adoption of some machine for the use of this association, respectfully report that in their judgment, all things having been considered, the Remington is the machine which they would recommend for adoption, believing that in its superiority of design and excellence of workmanship, its great simplicity, durability and easy manipulation, it is more desirable for use in newspaper offices than any other. In addition, the fact that it is understood and operated by a great many thousands of young men and women, that the use of it is being taught not only in the public schools, but in commercial schools and colleges throughout the land, and its being generally referred to as the standard, the large number of offices which the company have scattered throughout the country, making it easy to have repairs made at the least expense, have all had some effect in basing their judgment.

EXECUTIVE COMMITTEE: W. C. BRYANT—Brooklyn Times, C. W. KNAPP—St. Louis Republic, J. A. BUTLER—Buffalo News, M. A. MURPHY—Cincinnati Post and St. Louis Chronicle, A. S. PEASE—Woonsocket Reporter.

Address all communications to the Secretary, care New York Office, 206 Potter Building.

OFFICERS: PRESIDENT, JAMES W. SCOTT—Chicago Herald, VICE PRESIDENT, E. H. WOODS—Boston Herald, SECRETARY AND TREASURER, L. L. MORGAN—New Haven Register.
