

It would be hard to find a woman in St. Paul who does not belong to some society whose end and aim is to promote the Minneapolis end of the world's fair.

Infirmary, it was her custom to observe all the national festivals of the land which she best loves and to which she is always loyal, and to invite a large party of society friends to a grand Thanksgiving dinner every year.

Why Phillis Wheatley? Why, that's a name to conjure by. Phillis Wheatley was the first colored poetess in America.

WOMEN IN THE WORLD. Gossip About the Women Who Are Talked Of. Miss Adelaide Uter, of Kansas City, has recently been appointed clerk of the circuit court of the United States for the Western district of Missouri.

Mrs. E. J. Roberts, president of the Oklahoma Territory W. C. T. U., has lately been appointed field matron to the Cheyenne and Kiowa Indians, and will teach them to do all kinds of household work.

A woman bride tender is a novelty in Chicago. Mrs. David Power, whose husband died and left her care and support three children, has been given the position at the Adams street bridge, formerly held by her husband, through the generosity of William Swisher, who secured the contract for himself, paid his own bond fees and then turned the position and the salary over to the needy woman.

FASHION NOTES. Marie Antoinette's "last devoted." M. Eugene de Thines, has just died. He spent many years in collecting articles that belonged to her, and leaves a large variety of such relics. The fortunate possessors of old lace can now turn it to account. Yokes, capes looped at the shoulders, epaulettes, bibs and deep cuffs are of lace and the older it is the better. Mantles and capes, except for purposes of utility, have disappeared and dresses which were in vogue to hide the glories of the toilette, which for the most part lingers in the bodice.

PITTSBURG, July 28.—It is asserted by many conservative thinkers that the policy of the Carnegies with regard to the prosecution of the strikers is not only to prosecute, but to persecute the locked-out men.

WASHINGTON, July 28.—In the senate today the anti-option bill passed safely through the order of Mr. Wolcott's motion to refer it to the committee on finance with instructions to report it at the next session. That motion was in on the table by the very decisive majority of 32 to 13; but there were fully half a dozen voted senators who were paired and who voted only in order to make a quorum.

STOPPED BY EXHAUSTION. Afterward the amendments came up for action, and were debated until 5 o'clock, when senators, exhausted by the long session, voted unanimously for adjournment.

PITTSBURG, July 28.—Sylvester Critchlow, one of the strikers charged with the shooting of Frick, was today held for release on bail today, but he refused, and remanded to jail for trial. At the hearing several witnesses swore that they saw Critchlow with a gun at the scene of the shooting. Judge Magee said the case was close to murder in the first degree. Hugh O'Donnell's pelted ally, the United States marshal, said that all the time was for war and bloodshed. Critchlow's attorneys claim they will bring the case to trial, but he was behind the barricade that day. Critchlow was released on \$10,000 bail.

An Investigating Committee Finds Him Wasteful. WASHINGTON, July 28.—Representative Stump, of Maryland, from the committee on immigration and naturalization, submitted to the house today the report of the majority for the Ellis Island investigation, conducted under a resolution of the house. The report reviews the testimony taken by the committee on its visit to the immigration station at Ellis Island, and the purpose of inspecting the buildings there and the report of experts appointed to examine them, and says the committee has arrived at these conclusions:

That there has been great waste of public money in the construction of the improvements of Ellis Island; that all the buildings except two were badly constructed, of inferior material and poor workmanship, and should not have been accepted by the government in their present condition; that George B. Hibbard, the superintendent of construction of the buildings and improvements, was without experience and wholly unfitted for that position, and during the construction of the buildings he either knowingly and wilfully or ignorantly permitted inferior lumber to be used and allowed the contractor to disregard of the plain requirements of the plans and specifications, attended with serious loss to the government and illegitimate advantage to the contractors.

Wage Scale Conference. PITTSBURG, Pa., July 28.—The joint scale committee of the Amalgamated association and iron manufacturers held another conference today to settle the wage question, and adjourned for two weeks.

Modern American Poets. Boston Herald. Thomas Bailey Aldrich has poems in three American magazines for July. This is an unwonted amount of poetical contribution from a writer who has been rather sparing of his literary production of recent years. The pieces are all of a high order of poetical merit, and the magazine editors are well pleased to have him write, and Whitman and Holmes are not expected to continue many years in the future. Aldrich and Steadman are likely to prove their successors in the German and several of the postmarked Pittsburg were taken from Mollick and turned over to the New York police for nothing else was found on the prisoner.

Score One for the Pedagogue. Cincinnati Commercial-Gazette. "You have some fine ducks this morning," said the kindly old schoolmaster to a pouter.— "Yes, sir, but fresh today." "What is the price?" "You can take your choice, sir. I have them at all prices. I want to give my boys a treat, but I do not want them to be too tender. There are a dozen here—pick out four of the toughest birds in my shop." "Then you, sir," said the schoolmaster. "I'll take the other eight."

Pritchard-Hall Match. NEW YORK, July 28.—A dispatch received in this city yesterday from London stated that Pritchard's backer refused to allow him to fight Hall in America. The Coney Island Athletic club had made an offer of \$10,000 for the men to fight at their rooms, but the above dispatch seems to settle the matter and the battle will occur in England as originally intended.

Whoever wants soft hands, smooth hands, white hands, or a clear complexion, he and she can have both; that is, if the skin is naturally transparent; unless occupation prevents.

Either you do not wash effectually, or you wash too effectually; you do not get the skin open and clean, or you hurt it. Remedy.—Use Pears' Soap, no matter how much; but a little is enough if you use it often.
