THE WOMANLY WOMAN. What Kitty Klyde Thinks She Ought to Be and Do.

It seems to me that when we speak of he "womanly woman," we have in our mind one who possesses all those attributes our fancy would give to her, and has the very qualities we most love

She is gentle and kindly in her mans. She is gentle and kindly in her man-der to all alike, rich or poor, high or low, well-bred or ignorant. She is never hanghty or supercillous; above all, she never wilfully or carelessly wounds the feelings of any with whom she comes in contact. In her home she is the bright, central figure, around which all natur-ally revolve. Her voice is soft, yet clear in its tones, and when she speaks, husband and children alike, attend upon her words. Her smile is somewhat rare ishe never giggles), but so bright and winsome as almost to seem like a bene-diction, and her sympathy is so well known and trusted that none of her loved ones ever fear to bring to her

very many women throughout our land who possess all these, and perhaps many more nobler virtues than I have

I think it is the poet Wordsworth who says, in speaking of an ideal woman: A spirit, yet a woman, too:
Her household motions light and free,
And steps of virgin liberty;
A countenance in which do meet
Sweet records, promises as sweet,
A creature not too oright or good
For human nature's daily food.

NELSON ON TRUSTS.

Indictments Against the Mississippi Valley Lumbermen Dismissed.

and Uncertain, Says the Judge.

Construction of the Act Under Which the Prosecution Was Conducted.

The Agreement Did Not Involve the Entire Traffic in Lumber.

The indictment found last spring in the United States district court against prominent lumbermen of the Mississippi valley, charging them with conspiracy to force the price of lumber upward, in contravention of an act of conward, in contravention of an act of congress, has been declared invalid by Judze R. R. Nelson, and the demurrer thereto sustained. H. G. Day, of the Albert Lea Standard, agitated the matter and pushed the prosecution against the Mississippi Valley Lumbermen's association, and used his most strenuous efforts to secure the indictment of a number of the officers and members of the association. An indictment was found last ciation. An indictment was found last January against Frederick Clarke, William H. H. Day, Benjamin F. Nel-son, Sumner T. McKnight, all of Minne-apolis; John Paul, of La Crosse; Willapolis; John Paul, of La Crosse; William Irvine, of Chippewa Falls; Eugene Shaw, of Eau Claire; Alexander Stewart, of Wassau, Wis.; Philip Reilly, of St. Paul; F. Weyerhauser, of Rock Island; W. H. Laird, of Winona; R. L. McCormick, of Hayward, Wis.; W. J. Young, of Clinton, Io.; G. H. Atwood, of Stillwater, and G. S. Shaw, of Clouds

quet.

The offense charged is that the association conspired to raise the price of lumber 50 cents per thousand. A demurrer to the indictment was filed and argued before Judge Nelson in June. The decision of the court is that the allegations of the indictment are too inallegations of the indictment are too in-definite and uncertain, and it should not stand. The opinion of Judge Nelson exhausts the subject, as will be seen by

a perusal thereof as given below. What Is a Combination?

What Is a Combination?

The indictment intends to charge officers under the act of congress entitled "An act to protect trade and commerce against unlawful restrainants and monopolies." The statue declares contracts, combinations in the form of trusts or otherwise and monopolies to restrain trade or commerce among the several states and foreign nations filegal, and makes them offenses and affixes the punishment. The indictment purports to charge the defendants with violating the law by entering into a contract and unlawfully engaging in a combination in the form of a trust and confederating together in a conspiracy in restraint of trade among the several states. There are twelve counts in the indictment. In order to administer the law the court must determine what is an unreasonable and unlawful restraint of trade accesses. determine what is an unreasonable and un-lawful restraint of trade or commerce by con-tracts, trusts and conspiracies and whether a contract is injurious to the public. In all cases at common law it must be made to ap-pear that the acts complained of

the public, and this is true whether the remedy sought to be applied is by civil or contact. In her home she is the bright, ceptral figure, around which all naturally revolve. Her voice is soft, yet clear in its tones, and when she speaks, husband and children alike, attend upon her words. Her smile is somewhat rare lishe never giggles), but so bright and winsome as almost to seem like a benediction, and her sympathy is so well known and trusted that none of her loved ones ever fear to bring to her helr burdens and perplexities.

In the womanly woman is blended wisdom and discretion, a gentle firmness that disarms all suspicion of trying to rule, a willingness to ever yield a ready deference to all, and a tact that enables her to know when to speak, and when to be silent.

Have I drawn an impossible picture? I think not. Indeed, I believe there are very many women throughout our land who possess all these, and perhaps Threatened the Interests

Cannot Be Sustained. Do the facts set forth in the last six count Do the facts set forth in the last six counts describe an offense which the statute forbids? The first of these counts charges, in substance, that the defendants were each dealers in lumber in the United States, and each transacted business at numerous towns and cities in different states, and on Sept. 7, at Minneapolis, they mutually agreed together that they would raise the price of lumber 50 cents per 1,000 feet in advance of the market price of pine lumber in the states of Wisconsin, Minnesota, Iowa, Illinois and Missouri, and in pursuance of such agreement they did price of pine lumber in the states of Wisconsin, Minnesota, lowa, Illinois and Missouri, and in pursuance of such agreement they did then and there raise the price of pine lumber 50 cents per 1,000 feet in each of said states in which they transacted business. How the advance in price by these parties in the several states mentioned could regulate thereby the price of all dealers is not set forth. It appears that the idea of the pleader was that a mutual agreement between several dealers that they would raise the price of the lumber owned or manufactured by themselves 50 cents per 1,000 feet above the market price necessarily advanced the price of all the plus lumber for sale in those states to that extent, and none could be purchased for a less price. While it may be true that some of the dealers might attempt to induce purchasers to be

Governed by the Price fixed in their locality by the parties to the agreement and try to keep up prices, yet competition in the commodity would soon bring the price down unless there were fraudulent or coercive means resorted to for the purpose of restraining other dealers and preventing them from exercising their own judgment as to prices. An agreement between a number of dealers and manufacturers to raise prices, unless they practically controlled the entire commodity, cannot operate as a restraint upon trade, nor does it ers to raise prices, unless they practically controlled the entire commodity, cannot operate as a restraint upon trade, nor does it tend to injuriously affect the public. Unless the agreement involves the absorption of the entire traffic in lumber, and is entered into for the purpose of obtaining the entire control of it for extortionate objects, it is not objectionable to the statute, in my opinion. Competition is not stifled by such an agreement, and other dealers would soon force the parties to the agreement to sell at the market price or a reasonable price at lesst. What has been said in regard to this count applies to the remaining five in which wrongful combinations and conspiracies in restraint of trade are alleged, and a monopoly of the whole or a part of the trade and commerce in lumber in the several states mentioned. The allegations are too indefinite and uncertain and the demurrer to all the counts is sustained.

UNDER HAPPY AUSPICES. The Engagement of Julia Marlowe

Begins at the Metropolitan. "All the world loves a lover" is the ruer for its triteness, and when the over is such an one as Romeo, and loves such a lady as Juliet, all the world loves with him. Miss Marlowe's engagement at the Metropolitan opened last night with that immortal story of unhappy passion. The house was crowd-ed, and Miss Marlowe, and Mr. Taber as well, received several curtain calls.
Of Julia Marlowe's Juliet so much has been said that comment is unnecessary It is, perhaps, a more finished produc tion than when seen last, but has lost none of that exquisite charm of simple youthfulness and beauty in which Miss Marlowe so far exceeds other actresses. She is the ideal Juliet in face, in bearsne is the ideal Juliet in face, in bearing and in action, and invests the stiff speeches with a naturalness that makes one forget that the language is blank verse. to the project. The next most important matter that came up was an improvement on the Selby avenue line that is calculated to prevent accidents and provide certain safety to those who travel back and forth on this thoroughfare. Attorney Munn and Engineer McCook were present, and explained the proposed iment, and explained the proposed im-provement very minutely, and the mat-ter was referred to the city engineer with instructions to investigate and re-port at the meeting Wednesday after-noon. The device is in the nature of one stationary and one movable ladder underground, extending from the top of the bill to a point somewhere near the hill to a point somewhere near Pleasant avenue at the bottom. It is ar-ranged with a hook that will work after the nature of a dog and ratchet, and at any time anything happens to the car so that it cannot be controlled, this hook will catch on one of the rungs of the ladder and stop the car immediately and at any place along the line. It is also proposed to enlarge the telephone house, located at the foot of the hill at present, to twice its size, and put in a friction drum that will connect with the endless chain by a shart, also underground. The company have been working on this for some time have been working on this for some time and think they now have a perfect mode of safety for travelers. It will necessitate an extra slot running down the hill, and it is proposed to make it six inches wide and four inches deep, so that a person or animal stepping into it will be able to be easily extricated. It will not interfere any with travel, as but few teams go up or down this hill, but this question brought up a discussion that it would be advisable to close this street to travel and place gates at both ends. It is quite rikely that this will be done in the near future.

Bedroom Suit.

AN HONEST, WELL-MADE Suit; many have been sold in this city for \$30 not worth a cent more. It has a bed 6 feet high, 4 feet 6 inches wide. Heavy raised carving across top panel and sunk carving on panel below. The Dresser is made to match with oxidized trimmings, has large bev-

eled plate mirror, 24x30 inches. The cabinet work is good. The Combination Commode has a neat splasher on the back. This is only one of our many in Oak, Mahogany, Birch, White Maple and other woods, and all marked equally low. We have Suits in hardwood for \$10.50 and \$11.50 if you want them. We show the best graded stock in the city at lowest prices.
