## WAIL FROM WAILVILLE

Driven Into the Last Ditch, the Republicans Plead for Votes.

The State Conceded to the Democracy in a Maudlin Address.

An Abject Confession of the Weakness of Cause and Candidates.

The Legislature Goes With the Rest--A Tear for Davis.

It is the last wail of a despairing clique that sees defeat, overwhelming defeat ahead.

This is the only way to properly describe the so-called address issued by the chairman of the Republican state central committee yesterday.

Its every word and paragraph concedes the defeat of the defenders, abettors and patrons of ring rule and dishonest politics. It is a gasp for breath, and the mind of the man who penned it must be sadly out of gear.

Chairman Jamison, to use a popular phrase and one full of meaning, "has wheels in his head." Of course he has had a very hard row to hoe in this campaign, and it is no small wonder that he has become desperate--many stronger and abler men would have given up the job of defending all the light-toned robbers who have been fattening off of the state and nation for years, and zoning home long ago. But Chairman Jamison could have chosen some other method of winding up the offensive campaign that would have left him with a few particles of self-respect, and would have given the Republican ticket more votes.

The people of Minnesota have been against the Republican rings and combinations all through the campaign, and have refused to be caught by any of the baits so cunningly offered by Chairman Jamison, and the boodie that has been sent out in such quantities to all parts of the state has no power to stir or stem the tide.

Of course, this is discouraging to a man of Chairman Jamison's temperament, but it is no reason why he should tell the people how he feels and disgust them by a column of imbecile epithets and innuendoes that no decent, fair-minded or self-respecting citizen would be guilty of using. If there are any people who doubt that Chairman Jamison is in sore distress they need only read a few choice excerpts from this so-called address. A choice one follows:

"It is an attempt to deprive this great commonwealth of her vote and rights in the selection of a president and vice president and of her rightful share in the national legislature."

Who is attempting to deprive Minnesota of a vote in the electoral college? The Democracy is very much interested in having the full vote of Minnesota cast for president and vice president, and it is not attempting to bulldoze or buy the election of its candidates.

Since when has it become a crime to vote against Benjamin Harrison in this state?

Since when has it become a crime to vote for men who will oppose continued favorable legislation for the wheat, iron, pine and other rings in this state?

Since when has it become a crime in this state for the people to vote for legislators who will oppose the election of a man to the United States senate who believes that the Pacific railroads should have the greatest they owe the government practically canceled?

But Chairman Jamison grows wilder as he goes on in his ravings. Listen to the following:

"It is a scheme of deception, of fraud, of infamy, of the rejection with contempt of every principle that makes political action honorable or tolerable to honest men."

This sentence shows that the Republican state chairman is in the depths of despair, for no sane man would sign his name to such words as these.

And, by the way, do not such words sound strange coming from the lips of Bob Jamison, the tool of a gang that has not would resort to any trickery or any means to carry their ends. The people have not forgotten the boodie campaign of the Republican party in this state, any more than they have the fact that all through this campaign this same Jamison has been the apologist and defender of every ring and every misdeed committed in this state.

"It is for you, men of Minnesota, to say what you think of the fusion consummated between the bosses of the Democratic and the People's parties,

## A GRAND GREETING

By the People of Rice County to Hon. Roger Q. Mills.

The Procession the Largest That Ever Paraded Northfield's Streets.

Students' Clubs From Carleton and St. Olaf in the Procession.

South Dakota's Secretary Will Not Recognize the Prohibitionists.

Special to the Globe.

Northfield, Minn., Oct. 19.—Northfield was in gala attire tonight in honor of her guest, that prince of American statesmen, Hon. Roger Q. Mills, of Texas. Mr. Mills was met at the station by the Democratic city committee, officers of Carleton college and the St. Olaf and Cleveland clubs and prominent citizens, and was driven around the city. Tonight, amid a blaze of illumination, blare of trumpets and waving of flags, the largest crowd in the history of the city gathered to hear the leader of "tariff reform." Nearly all the business houses and public buildings were brilliantly illuminated, and the streets were packed. The Democrats were anxious to outdo the Republican demonstration of last night, and the parade of tonight was a most elaborate affair. The Northfield brass band headed the procession, followed by the Cleveland clubs of this city, Carleton college and St. Olaf. In all forming one of the longest parades that ever tramped the streets of this city. At 8 o'clock the leading men took the stage of the opera house, and after music Mr. Mills introduced himself. His speech was certainly no disappointment to his admirers, and will be a potent factor in keeping the Third district in the Democratic line.

REN WING, Oct. 19.—Great preparations are being made here by the Democracy to receive Hon. Roger Q. Mills, who speaks here tomorrow evening. It promises to be one of the greatest political demonstrations of the present campaign.

## CONCEDED HOPELESS.

Mrs. Harrison's Case Shows a Steady but Slow Decline.

WASHINGTON, Oct. 19.—Mrs. Harrison passed a good day and night. Her condition remains practically the same. Nervous symptoms, however, have been more pronounced than usual during the past three or four days. The natural tendency of the disease is to a slow but steady decline, and in Mrs. Harrison's case the gradual loss of vitality is so slight from day to day that frequently hardly any change in condition is noticeable.

While the hopelessness of her case is generally conceded, her vitality is still so great that, regardless of the possibility of a change for the better, there is no danger of an immediate crisis, save for the always possible appearance of additional complications. Her physician, Dr. Garntner, is authority for the statement that she may linger for several weeks in her present state, and that no possible complication would terminate fatally in less than forty-eight hours.

Telegrams were received from Indianapolis, Chicago and New York this morning, saying that it was reported in those cities that Mrs. Harrison was dead, and Private Secretary Halford was kept busy for an hour or so officially denying the reports.

## SEATS BROKE DOWN.

Three Hundred Children Fall on a Floor in a Heap.

WEST WINSTED, Conn., Oct. 19.—Eight hundred pupils of the public schools marched through the streets, and went to the rink to practice chorusing on the national airs for the big Columbus day celebration. Temporary seats were erected to hold 1,000 children. They were being seated on the upper seats, and the first 400 had been seated, when the five top rows collapsed. Three hundred children fell to the floor in a heap, and the screams caused a panic among the others. A crowd quickly gathered on the spot to rescue the children, some of whom were pulled out with broken arms, legs and collar bones.

Lawler Given an Ovation by Brainerd People.

Special to the Globe.

BRainerd, Minn., Oct. 19.—The Democratic rally tonight brought out the largest crowd ever seen at a political rally in this city. The torchlight procession is conceded to have been the largest ever seen in this part of the state. The opera house was crowded, and the speakers were here by the Democracy to receive Hon. Roger Q. Mills, who speaks here tomorrow evening. It promises to be one of the greatest political demonstrations of the present campaign.

## MURDERED WHILE HE SLEPT.

Strange Feature of the Case of the Man Found Dead in a Car.

MONTEVIDEO, Oct. 19.—A strange feature of the case of the unknown man found murdered in the car of wheat which passed through the head of the car on closer examination it appears that the wheat is so badly saturated with blood that it is probable that the man was killed in the car, as he slept. A further incident is that his coat was under his head as if it had been used for a pillow. That he was shot as he slept seems probable, with the revolver held in his hand, for the hair was burnt where the bullet entered. This man was evidently one of the numerous gangs of harvest hands that tramp the country at this season.
