

RAILROADS FOR THEM

Big Corporations Working Hard for the General Republican Ticket.

Scheme to Disfranchise Voters by Turning Them From Their Homes.

The Republican Campaign One Long Series of Lame Defense.

Germans Will Vote for Principle and Not for Nationality.

Can there be a shadow of a doubt in the minds of the laboring men that the Republican monopolists and wealthy corporations would be delighted to disfranchise them?

Don't they know that these same monopolists and corporations are scheming to get them out of the city on election day, to the end that Knute Nelson will be elected?

Pass by the employment agencies of the twin city and see the placard. Everywhere the railroad companies are advertising for men to go out of town. Extra inducements in the way of wages are offered, but they do not imagine for a moment that they will be given anything like permanent employment. Election over and the whole will be discharged.

The railroads have been hiring men by the thousands the past week to take them out of town so they cannot vote for Dan Lawler, the laboring man's friend and the protector of the principles of equal rights. The railroads have been doing this in the interests of the railroad lawyer and politician, the politician, excessive taxation, force measures and other outrages—Knute Nelson.

The whetting has lent its efforts to this scheme. It costs money, but the cash is forthcoming, and the barrel of the Republican national committee has been tapped to help bear the expense.

This is not a new trick. It has been a disgraceful phase of Republican campaigning for a good many years, and because Democrats have not the means to keep laboring men in employment in the cities against these disreputable inducements lured out by the railroad, wheat raisers and corporations that have the one object in view, the disfranchisement of the laboring men, the Democratic party loses thousands of votes each recurring election.

Again, there is great wonder expressed on the part of the laboring men of St. Paul, the men loyal to St. Paul's interest, at the light registration. Cannot they see in this explanation the cause? Cannot they see that thousands of legal voters have been taken from the city, and that statisticians will naturally publish to the world that St. Paul is a standstill?

Any intelligent and well-posted citizen must know that the registration is many thousands short of what it should be, and they should know that it is the corporation desire to elect Knute Nelson that is the cause.

VOTE FOR PRINCIPLE, Not Nationality, in This Great Campaign.

A tremendous effort is being made in St. Paul to excite national pride among the Democratic German-Americans, to the end that they will repudiate their political principles and vote for Kiefer. The whole tenor of the addresses before that big turn-out of German-Americans in Martin's opera house Thursday night was that all Germans should bear in mind always that they are Americans, and that they owe fealty to this government. They were told that the principles of the German-American people, that he would vote and labor for the perpetuation of the iniquitous robbery, the McKinley high tariff, and that he would support the damnable force bill. These declarations were received by the Germans in a way that left no opportunity for doubt. There was no uncertainty in the cheers that rent the air, and in the tremendous buzzes for Castle.

And when Castle responded to Kiefer or him when he was introduced by that gallant German-American, John Jessen, nothing could be more enthusiastic. Hon. J. N. Cassiday, the honored guest of the evening with Hon. D. W. Lawler.

A crippled old negro hobbled up Fourth street Friday afternoon soliloquizing on "prospects of the outlook." Reaching Wabasha street, still announcing the prospects of the outlook, he was surrounded by the jostling crowd clamoring for street cars, he raised his gray hair, shaded his eye with the palm of his left hand, and peered across the way. Suddenly his features became unusually animated, and, straddling a newsboy, he plucked across the muddy street.

REMEMBERED NELSON For His Valuable Services in the Legislature.

Wednesday evening last the leading citizens of the Third ward gathered at the rooms of B. Simon, on East Seventh street, and prepared to give a testimonial for August Nelson, the candidate for the legislature from that district.

In showing their appreciation for his past services, an elegant gold-headed cane. Among those who aided in the presentation were Ad. Conley, F. J. Bowlin, Andrew E. Brown, Joseph Ehrmann, Sr., Charles Ehrmann, J. H. Schmeier, H. E. Schmeier, J. R. Flanagan, Herz Bros., J. A. Shackford, Edward Evans, Edward J. Schmeier, J. A. Hoffmann, Frank Devitt, Joseph Hoffman, Lewis DeLano and many others. Ed. J. Schmeier made the presentation speech, to which the legislative record of his long and heartfelt thanks. Before the party dispersed the following resolutions were adopted:

Resolved, That we hereby tender our sincere thanks for those services, and resolved, That the actions he has gained our confidence and we have sincere wishes that he will continue the good work accomplished in the legislature.

GOOD LABOR RECORD. No Calumny Can Turn Votes From R. A. Walsh in the Ninth Ward.

The dissemination of so many falsehoods and misrepresentations regarding the legislative record of R. A. Walsh, the Democratic nominee for the legislature in the Ninth ward, prompts me through your valuable medium to briefly place before the electors in that district the true facts of his record. He is to those renegades who are endeavoring to cause division in the Democratic ranks, and thus secure the election of the Republican candidate. If appearances go for anything, it cannot be gained until this evening, McEllean, who was so justly booted in the Democratic convention, and who, ever since, has stood at the back door of every political hovel in the city, but in vain begging a nomination, offering as a recompense the sawing of the Republican woodpile, together with the brains of newly elected Republican politicians who, whenever they can do so, constitute themselves the People's party of the city.

McEllean and his lying minions, urged on by the wily schemes of the enemy of Democracy—in spite of the state records to the contrary—are currently spreading the lie that Mr. Walsh's record in the last legislature is not sound, that he voted against the eight-hour law, and that he voted against the anti-Pinkerton bill. Now, this is a malicious falsehood, and no one knows it better than the misguided wretches who are disseminating it. Mr. Walsh not only did not vote against the eight-hour bill, but it was he who drafted it, supported it in the legislature in a brilliant speech, and carried it in the face of every opposition. In regard to the anti-Pinkerton bill, the journals show that in its final passage through the house, where it had been amended, so that it would be a benefit and not a curse to the people already too much the victims of the overzeal of friends and enemies of the measure, he voted "aye" with the friends of the measure, and helped in every way its friends to carry it. He also voted against the anti-Pinkerton bill, but it was he who drafted it, supported it in the legislature in a brilliant speech, and carried it in the face of every opposition.

IT DESERVES DEFEAT. A Republican Scheme to Drug the Judiciary in Political Wins.

The Honored Agreement in Ramsey County Broken by Gov. Merriam

When He Ignored the Bar Body and Appointed Judge Cornish.

Why Hon. John W. Willis Will Be Elected to the Bench.

The judiciary is one of the great coordinate departments of government. The men appointed to administer that branch of the government ought to be men of the highest talent and the most unquestioned integrity. Other things being equal, the ablest advocates at the bar make the best judges, because their experience and special gifts enable them to discern the merits of a cause quickly and to analyze it with proper acumen.

The constitution of the state of Minnesota makes the judiciary elective at the hands of the people. This constitutional provision necessarily makes the contest for any judicial position a strictly political one unless some amicable agreement to remove such office from politics is arrived at by the respective political parties. Such an agreement has prevailed in the county of Ramsey for many years. The Democratic party has strictly observed its obligations under such agreement.

Nay, more, the Democratic party has been consistent in its extreme reference to the judiciary. Nearly twenty years ago Hon. Hascal K. Brill was appointed to the bench in Ramsey county as a partisan Republican. He had then recently been defeated as a Republican candidate for judge of the probate court. He was a partisan Republican organ, Hon. Cushman K. Davis, notwithstanding that fact, the Democratic party in Ramsey county has never sought to disturb Judge Brill in the tenure of his judicial office. Democratic organs have rendered him every courtesy and forbearance have rendered it possible for Judge Brill, in a Democratic county, to become a distinguished and eminent judge. The Democratic party could have annihilated him, politically speaking, at many an election, but instead of taking such a course, it has formally nominated him again, and again for the position which he now holds and adores.

Break the Agreement. When the number of judges of the district court was increased to six the equilibrium between the political parties was established by common consent and the personal of the judges, Hon. Orlando Johnson, an old Jeffersonian Democrat, and according to all the rules of honor, courtesy and political propriety, he should have appointed a Democrat.

He refused to do so. The Democratic members of the bar held but one conference to consider the subject of the pending vacancy. It was the vacant position in the district court, and the names of the candidates were not discussed. The conference selected the names of four Democratic members of the bar, and appointed a committee to present these names to a resolution, adopted by the conference, to the effect that the appointment of any one of these gentlemen would be satisfactory to the Democratic lawyers of the Second judicial district. Among the names thus presented was that of John W. Willis. The committee contemptuously ignored the request of this conference, and appointed to the vacant position in the district court, William D. Cornish, who had always been conspicuous as an extremely partisan Republican and an active politician.

William D. Cornish, a publican henchman at the polls on election day, checking all the names of those who had voted and sending earnings to the Republican party, but never been a stump speaker for the Republican party, as he is a member of the editorial staff of the Globe, and his name is not in his line. He has been widely known, however, as a member of political committees, and as the unhappy lot of the workers in the Seventh ward.

Fair play is a conspicuous American characteristic. If Gov. Merriam desired to break the agreement, he should have appointed in question he would have appointed Mr. Willis or some other equally qualified Democratic lawyer. This he failed to do.

At the recent Democratic county convention John W. Willis was nominated as the Democratic candidate for judge of the district court. Subsequently the Republican convention nominated Hon. W. D. Cornish.

The Bar Association of this judicial district has given no expression of opinion upon the present position. A self-constituted committee, composed of three lawyers, including personal friends of Judge Cornish, circulated among the members of the bar a letter of recommendation in favor of Judge Cornish, which was addressed to the nominating conventions of the Republican and Democratic parties. It was an extremely delicate matter for any member of the bar to refuse to sign such a recommendation. Any lawyer refusing to sign it became at once a marked man, and it might be placed upon the judicial black list. This letter of recommendation contained only these words:

"The bar of the respective Political Parties of Ramsey County, Minnesota, in view of the important and delicate character of the judicial office, national state and county, which will have the honor to confer upon you by the election, and in view of the danger that in such event the judicial office will either be neglected or involved in collateral contests, the undersigned, members of the bar of this county, feel that there are special reasons why your nomination should be supported to the nomination to be made for judge of the district court of this county, and we earnestly recommend the nomination of Judge Cornish."

That was the entire language of the instrument. It obliged none of the signers to support Judge Cornish. It did not purport to give any important reasons why he should receive the nomination. It is conceded that Judge Cornish has no vested right to a position on the bench.

The nomination of John W. Willis for judge of the district court has been received with cordiality and enthusiasm and perfect good will by the members of the bar. The Democrats who signed the recommendation which has been quoted are all supporting Mr. Willis heartily, with possibly one or two exceptions. It is a strange circumstance in this connection that, although the letter of recommendation was referred to in the conventions of the respective political parties, it was not presented to either the Republican or the Democratic convention. When the letter of recommendation was presented to the members of the bar, several of them refused to sign it. Among others who so refused was Thomas D. O'Brien, Esq., our present brilliant and able county attorney. When the Democratic county convention met, Mr. O'Brien presented to the convention the name of John W. Willis as a candidate for the judicial office, and supported his nomination in a speech of wonderful power and eloquence. The

Who prefers to go without furs when winter is tumbling down about our ears with a nipping and eager air that menaces discomfort every time we venture out of doors? Our assortment of these necessities of the season is as elegant as it is complete, and ladies can hardly realize what the season has brought in this line until they have inspected our splendid array of all the new styles in every material, which are going at an express train rate. Good things always go quickly, and you must come quickly not to miss them. The early buyer in furs always gets the cream of the stock. We have had an enormous trade this week, and sold more garments than in any one week since 1887. People have "shopped" during the pleasant fall, and now that cool days have come, are coming to us in crowds, showing that they know we have the right goods and prices. Our stock has been much depleted, and in some lines duplicates are impossible this year. We advise all that can attend to their furs now. We have once more a fine line of
