Knocked Unconscious. An Engineer Dies From Injuries Received.

Wilmington, Del., Dec. 11.—Benjamin Strickland, an engineer on the Washington express on the Philadelphia, Wilmington & Baltimore, was injured last evening between Landville and this city while the train was running at full speed.

In the second place, if there were no goats left, no one to be reformed, if all the wicked, picturesque, villainous, surprising, run-of-the-track people were to be reformed, what would be the reformers, why whatever sort of a crazy Sahara would this not such-a-bad-sort-of-a-world be.

We most of us have a leaning towards the good—the old Adam in us will make himself felt. And we so frank that we make no secret of the fact that we find the goats infinitely more entertaining than the sheep.

The Outlook Bright. Cotton Mills Are Doing Well in Massachusetts.

Fall River, Mass., Dec. 11.—The outlook for the local cotton manufacturers and operatives continues to be of the brightest character.

The actor who has power to move our strongest feelings to make the unwilling tears come at a speech, which, if we merely read we should sneer at as sentimentality, is not a sleep, he is not standing on the right side of that severe line that divides the reformers from their living material, but we like him, and we like his work.

The sweet singer who can make a hackneyed melody into a message from the angels is not the person, generally, who is very strict in the keeping of the ten commandments; but we like him, it's no denying that.

Just for Fun. How a Nutmeg Marriage Was Brought About.

Bridgmont, Conn., Dec. 11.—Miss Minnie Friedman gave an advertisement for a wife in a New York newspaper six months ago and answered it "just for fun." Her correspondent proved to be Daniel H. Langdon, a prosperous young Michigan farmer.

MANY ENGINES BURNED.

Fire Destroys \$400,000 Worth of Property in Colorado.

SALIDA, Col., Dec. 11.—At 6 o'clock this morning the Denver & Rio railway round house was discovered on fire, and, despite the efforts of the firemen, the flames, after almost totally burning that building and its contents, spread to the machinery shop, together with its valuable plant, was also destroyed.

The spirit of Christmas is abroad in the land. We are in a holiday mood.

The dry goods shops show more wondrous variety of looking things than any time in our history.

Bits of dainty things to charm the staid housekeeper's eyes, loves of ribbons fit to trim the hair, bits of dreams of material for girlish gowns that should cover only sunny hearts.

The fests know it and hang out their heads that they will have any leaves that grew in Vallambrosa, bits of glistening holly-thick-stem with gleaming bits of coral.

Little Lord Fauntleroy. Mrs. Burnett Tells of the Hero of Her Famous Story.

Mrs. Burnett in her talks to the children the other day in Chicago, says the story of the boy who was the original Little Lord Fauntleroy.

"Please tell us about Little Lord Fauntleroy," asked a little yellow-haired child from New York.

"Oh, well," said Mrs. Burnett, laughing again, and she told about the little lord who is as famous in his way as the boy who was the original hero of our boyhood.

"Just to show you," she said, "had a little girl friend in Washington, and they were talking together about their friends and family."

Little Chats. Bright Bits of Feminine Gossip on Every Day Topics.

Lotta, who by the way is recovering rapidly from the effects of the accident that caused her to leave the stars for a time, is as vivacious of the boards as she is on.

Speaking of women's clubs and their management, a certain woman remarked that she had often thought what curious gatherings they must be.

"Well," came the answer from an individual member of the club, "they are a very interesting thing to manage."

Every woman these days, no matter how old she is, or how many children she has, feels as if she were an old maid.

A confirmed old bachelor of most excellent family, who lives in his own house in Detroit, recently advertised for a hired girl.

"You see," he explained, "I want a good, thrifty, careful woman in my house."

"I understand," she replied. "She must cook, wash and iron, clean up the house, attend to the children, sew on buttons, do repairing, do the mending, attend the door, pay the bills as they come, and, in kindie my fire in the morning."

"Oh," she said, as she arose to depart, "you don't want a hired girl; what you want is a wife, for which kindie is no sedative nor crocheting anodyne."

Another reason for the discarding of the modernly fashionable fancy work among educated women is the spread of the unitarian spirit so characteristic of these latter days.

A pretty gown has the pointed yoke, the circle collar, the jeweled buttons, the carefully fitted bodice, the colored cloth, with black net over the cloth sleeves.

They do not serve well for entire gowns with velvet for trimmings. No prettier house gowns can be devised than those of these children like the bright plaids so much.

These awful skirts that figured so prominently in the fashion of the year for years in ladies' circles, were the result of the fact that the girls said that they had learned to do crewel work, while the mothers played croquet, with never a visit to tennis to disturb their lethargy.

Twenty years ago the necessity for physical exercise had not dawned upon the female intelligence, and the doctors' best hygiene were neither understood nor heeded by the public.
