MR. MOTT'S little boy's legislature will reconvene today.

SINGULARLY enough, Chicago likes the new Columbian stamps, and New York does not.

This talk of Hawaiian annexation is rubbish. Uncle Sam doesn't want any more territory.

Either the feeling between Denmark and Anna, or between New York and Ireland is still very bitter.

An Illinois Pop is out in Kansas after J. B. Simpson's scalp.

WHAT ARE GLADSTONE'S fame and glory to him now? Naught but a hollow mockery.

THE NEW YORK Press club has paid \$100,000 for a site for its new club house, and the building is to be on the same scale of magnificence.

THE SOUTH Sea islanders, they assert, is better off in his breech-clout and ignorance than in the rags and rags of civilization.

THE WOOING OF PEPPER. The irruption of PEPPER into the "finest gentlemen's club in the world" was the signal for an outburst of ridicule, depreciation and abuse.

PENSIONERS AND POLITICS. "It would be well," says our rural contemporary, the Lake Crystal Union.

cal maneuver? According to Republican bias, it is in its inability to understand healthy opposition to the pensioning of healthy loafers who happen to be, or formerly to have been, Democratic voters.

GOV. NELSON AND THE GRAIN PROBLEM.

Gov. NELSON in his inaugural properly devotes a good deal of space to a consideration of the grain market question, which was the only state issue made in the campaign.

In the discussion of the question during the pendency of the question in the senate, one of the points was the ground cleared of mistaken statement, especially when recommendations are made to extend a system which are based on error.

Gov. NELSON says that the act of 1855 was enacted "in obedience to popular demand" for a system of regulating the weighing, grading and inspection of grain at the terminals in Duluth, St. Paul and Minneapolis.

To remedy the cause of these complaints, the justice of which was admitted by the attempt to provide any remedy, the legislature passed the act of 1855.

One of the members of the grain commission was asked how the law could possibly aid the farmer who sold to local elevators.

potent grave and irreverent senators the Republican side discover that PEPPER, even with his whiskers, is worth cultivating.

A REVIVAL OF KNOWNOTHINGISM.

Democrats can well afford to look askance at the present efforts to restrict immigration. The source of the attack on it renders its real motive suspicious.

The evils of immigration can be remedied without shutting it off. Characteristics of good character from the officials of the locality may be required, and will aid in shutting out the criminals.

The source of the movement, with other indications, shows that back of the pretense is a revival of Knownothingism.

If one could have only one article in the January Belfour's Magazine, that one that tells of "House Furnishing as an Art," that one that is worth the price of the book.
