SENSATION IN COURT.

A Bold Front Changed to a Break-Down and Plea of Guilty.

Danforth Repents and Turns State's Evidence of a Sudden.

He Tells How the Two Held Up Dawson and Marks.

Moore Pleads Guilty, and Joins Danforth in the Sentence.

Michael Moore and Dan Danforth, two of the boys who held up Banker William Dawson Jr. at the point of revolver and relieved him of a seal overcoat, valued at \$15, a gold watch worth \$150 and 42 cents in cash, were yesterday sentenced to the reformatory.

Stack, the third man, escaped at the time and has not since been apprehended. Danforth is a boy of twenty years, and Moore is but eighteen years old. Both have lived in St. Paul all their lives and have respectable parents. Stack is also a St. Paul man, and is claimed to have been the leader by the other boys. Danforth pleaded guilty a couple of weeks ago, and Moore was placed on trial yesterday.

SHALL WE TAKE 'EM?

A St. Paul Man Urges the Annexation of the Hawaiian Group.

He Has Been There, and Declares They Are Now Americanized.

A Correspondent Has His Doubts of the Wisdom of the Course.

He Thinks the Sandwichers Are Scheming for Sugar Bounty.

"If the United States government fails to accept the opportunity to annex the Hawaiian islands a golden opportunity will be lost," quoth T. Brown, the stereotyper on a morning paper, last evening. "As you know, I spent a good many years in the islands. Most of the time I was at Honolulu. It is one of the greatest sugar-producing countries in the world, and the islands are principally managed in a commercial way by Americans. The climate is as nearly perfect as can be found under the sun, and it is healthy. As you know, the Hawaiian king, Kalakaua, was a native of the Hawaiian islands, and she was partial to the English government. Now, I fancy Great Britain would like to annex the Hawaiian islands, and if the United States refuses it, the annexation of England is likely to follow. Most of the islands are owned by American capitalists. Again the Hawaiian islands are principally managed in a commercial way by Americans. They are the Gibraltar, so to speak. In the event of war they would prove invaluable as coaling stations. And they are rich in agricultural products. It is the great sugar-producing country of the world, and the annexation would remove all duty. Honolulu is almost overwhelmingly populated by American merchants and capitalists. (Claus Schwab, the manufacturer of the largest sugar factory, has a strong foothold there, and it was at Honolulu that he made the biggest slice of his fortune.

"The natives are an anomaly. The natives are apt to be led by the party in power, no matter what the dynasty. They seem to lack independence. But they are a fairly intelligent people. They are studious, although not very industrious. They are principally engaged in agriculture towards indolence. They are prone to put off till tomorrow everything that doesn't really have to be done today. Some of the other islands are not so good. The great majority are very dark. The great product is sugar, and then follow bananas, coconuts and tropical fruits. It is the only island that produces really, I ever visited, and I have traveled quite a bit, for I have been in the islands for a part of my life. I was one of the marines in the war of the rebellion.

"The United States has a man-of-war in the islands, and this is of great interest there, and this is of the presumption of the English government to gain control of the islands. The direct path between San Francisco and Australia, and this one reason should be sufficient to prompt the government to accept the annexation proposition with an eagerness that would make it certain. Let me tell you, Honolulu is a fine city, and the climate is very pleasant. The manners and customs are the same as here, and the cable lines even are identical with those in St. Paul, for the Hawaiian islands are connected with a mighty foolish thing if the government overlooks this opportunity.

LOCATING THE BLAME.

President Egan Will Leave no Stone Unturned.

President Egan, of the Kansas City road, returned to his office yesterday from the scene of the frightful accident in Iowa, where he has been the past two days making a searching investigation into the facts that led to the shocking casualty. His investigation is not yet completed, and Mr. Egan was not ready yesterday to give a statement for publication. However, it will be submitted to the public through these columns at the earliest possible day.

Mr. Egan will leave nothing undone to locate the entire responsibility, but the consensus of opinion is that it was one of those unavoidable accidents that now and then occur even upon the best regulated railroads in the world.

"Our advisers today show that a terrific storm is prevailing all along our line," said President Egan to a GLOBE reporter. It is snowing and blowing all through Iowa, and the locomotive is falling fast. It is only with the greatest difficulty that we are keeping the wheels in motion. Still we do not apprehend any serious accident, and are bound to keep our line open. Every attention is being paid to the convenience and comfort of the passengers on the Kansas City train.

Rosina's Presence of Mind.

Very few, if any, actors or actresses have been the happy recipient of a hearty burst of applause from an audience encompassed in Cimarron darkness. This, however, actually happened to Miss Yokes at the theater at Hartford a short time ago. It appeared in the electric lights went out suddenly, and the auditorium, the stage and the back of the stage were instantaneously in absolute pitch darkness. Miss Yokes was alone on the stage at the time in the performance of the "Circus Rider," and Mr. Gottschalk as the servant "Latimer," waiting outside to receive the letter which Miss Yokes in her character of Lady Lucille Grafton was writing.

There was some little uneasiness in the audience which was dispelled by the silver voice of Miss Yokes. She said in the coolest and most collected accents, "Light, please, Latimer." The situation was really relieved in the most admirable manner, and the audience laughed and applauded notwithstanding that they were enveloped in a wall of darkness which rendered the play was not comparable in gloom. Almost immediately afterwards the gas man came on and lighted the footlights, and Miss Yokes proceeded with her letter as if nothing had happened.
