The Inalienable Privilege of "Cussing" the Board of Public Works.

His Bold Declaration Elicited by a Naive Inquiry From Capt. Gorman.

Fourth Street to Be Repaved Two Blocks and Repaired the Balance.

The hearing on the preliminary order sent to the board of public works for the repaying of Fourth street from Broadway to Third street was considered and discussed by the board and property owners at a meeting yesterday afternoon. The majority of the property owners present were opposed to the street being repaved, especially that portion west of Jackson street.

J. H. Davidson made a strong talk against the work being done at this time. If the property owners along the street could stand the present condition of the pavement he thought the council and the board of public works should. It would be an outrage, he said, in the present hard times, to assess the owners for a new pavement. All that was needed between Jackson and Third streets was a thorough repairing of the

He Asserts His Actions Were Entirely Blameless, but Is Committed to Jail.

P. E. Irwin was arraigned in the police court yesterday on a charge of attempted assault on Carrie Sorrenson, a thirteen-year-old girl living at 702 Delaware street. The case was continued to Friday and Irwin committed to jail to await the hearing. The statement that Irwin had been keeping shy since the alleged attempt to assault was made have occurred up to an hour before his arrest. Irwin was arrested as he was entering the office where he was employed, and there was no great skill sed in the apprehension of him. The man for whom he works told the police officer his name, and gave him a description, and all that was done was to wait until Irwin came to report, as he does every day. Irwin has been employed in his present position eight years, and his employer says he is an educated and refined gentieman, with-out an instinct of brutality about him. In regard to the affair Irwin makes a simple and plausible statement, as fol-

The girl became frightened for some unknown reason and ened for some unknown reason and screamed. That is all there is about this affair."

HIT AT HERETICS.

The Congregational Club Has a Hot Discussion.

Heresy and heretics were discussed at last night's meeting of the Minnesota Congregational club, at the Dayton Avenue Presbyterian church, and thoroughly, too, for at the close of the meeting one of the brethren explained that when he came he thought he knew something about the subject, but as he was ready to go away he was convinced that he was poorly informed. Rev. George H. Wells, D. D., of Plymouth church, Minneapolis, opened the discussion, speaking from the text: "Be not carried about with divers and strange doctrines." He urged upon the club that all heresies and schisms had tended to the disorganization of the church, and impaired its practical efficiency.

Rev. Sam G. Smith, of St. Paul, who

Rev. Sam G. Smith, of St. Paul, who was next on the programme, came to the defense of the heretic, so called, who, he said, was really a builder up and not a destroyer of Christianity. The heretic was thrown out of the church by men was thrown out of the church by men who thought that they nad a right to dictate what their fellow men should think. The Nicene council itself was called by a heathen emperor who had personally violated every commandment in the decalogue, and in sixty years afterward another council was called because certain thinking men did not subscribe to the old creed. Dr. Smith argued that the personal character and conduct of the Christian, and not his personal subscrip-Christian, and not his personal subscription to any dogma or combination of dogmas, was the crucial test of his dogmas, was the crucial test of his Christianity. It was not the heretic, but those who excommunicated him, who were the disorganizers of the church. Rev. J. A. Stemen, of Minneapolis, followed with an historical paper on the creed revisions for centuries past down to the Briggs controversy, and was inclined to take sides against the stirring up of such troubles over hair-breadth differences. Rev. J. H. Chandler, ot St. Paul, closed the debate by mentioning the names of the debate by mentioning the names of Bushnell, Finney and other eminent Christian workers who had been denounced by their contemporaries as heretics, but who, if their works are to be considered, were to be found today

Some of the Prominent Men Expected at the Great Gathering.

The Official Call Setting Forth What Is Expected to Be Wrought.

Sufficient data and information are at

hand to warrant the statement that the

international reciprocity convention

will be one of the most important civic conventions to be held in this country the coming summer. The convention will be held in St. Paul June 5 and 6. There will be present from 700 to 1,000 delegates: and brainy men of the United States and Canada will discourse on grave and important international subjects. D. R. McGinnis, secretary of the general movement, and also secretary of the chamber of commerce of Grand Forks, is spending a week in the city to assist the local promotors in arranging the details for the coming convention. A meeting was held at the rooms of the Commercial club yesterday afternoon, at which there were present representatives from the chamber of commerce, the jobbers' union, the Commercial club, the builders' exchange, the real estate exchange, the architects' association, the board of trade and the Trade Journal association. The gentlemen representing these commercial bodies were very enthusiastic over the situation, and unanimously agreed that the affair is starting out with prospects of flattering success. It is conceded by them that the convention will be a large one, and will be freighted with the greatest importance to the United States and Canada. The meeting will be nonpartisan and non-political in significance, but, on the other hand, will be

He spoke enthusiastically of the stretch of country for a distance of 1,500 miles to the northwest, and declared that the Dakotas and Minnesota are the great bread-producing states of the country; that the commercial life of this great country is closely allied by nature to the United States and the Northwest in the Dominion of Canada. He referred to the great valleys and plains whose in the Dominion of Canada. He referred to the great valleys and plains whose trade is diverted from natural channels, to the detriment of the great wheat ocean. He said that the convention will take up for discussion the question of deep waterways, with a view of making concessions, and uniting the two countries on the question of transportation from the lakes to the seaboard. Mr. McGinnis was listened to with interest, and was highly complimented for his address.

The Official Call. The official call for the second international reciprocity convention, to be participated in by the Dominion of Can-ada and the United States, was formally ada and the United States, was formally issued yesterday, and is as follows:
Gentlemen: The first international reciprocity convention was held in Grand Forks, N. DEAD TO THE WORLD. A Western Guest Tastes St. Paul Hospitality.

Three men, all well dressed and wearing silk hats, were noticed walking on St. Peter street, near Sixth, yesterday atternoon about 4 o'clock. One of the trio, who was evidently under the influence of liquor, was seen to fall to the pavement, while his two companions walked briskly away. A guest at the Windsor sitting in the office saw the man fall and thought one of the men man fall and thought one of the men knocked him down. Milwaukee Alderman Roasts the City Government.

But Pardons All When Told It Has a Reform Result.

"You have a beautiful city here," said a Milwaukee alderman to the writer vesterday. "Yes, it is a metropolitan city, but I want to say to you that I believe it is shockingly managed. What

is the administration?" he asked. "That is not so easily answered as you may think it is," replied the St. Paul man. Politically it is nomadic. The present officials were elected last spring under the old 'retrenchment and reform' shibboleth that now and then seduces a prosperous city. Specifically, however, they sprung from the rank and file of the Republican party, and they made a pretense of 'holier than thou' princi-ples, and got in on the citizeus' ticket, or a ticket nominated and supported upon the 'anything to defeat the Democrats' plan."

"You do not surprise me," pursued "You do not surprise me," pursued the Cream City alderman with a smile. "We have experienced those spasmodic political upheavals that have demoralized the stability of a city. Let me explain," he resumed thoughtfully. "I knew that there was something radically wrong with your government the other day when a prominent citizen of St. Paul took me up on St. Anthony hill—I believe that is what he called it—to show me some of the magnificent residences of the wealththe magnificent residences of the wealth-ier classes. I was not a little impressed by the imposing structures, but my adby the imposing structures, but my administration was sadly marred by the abominable condition of the streets. Why, Milwaukee has never made special pretense in this respect, but I challenge you to find a parallel there. Even on your Summit avenue that you people all speak of so boastingly, the snow was piled up everywhere. The walks were in abominable condition, and the gutters were choked up so that the water could not pass off into the catchbasins."

The St. Paul man felt humiliated, yet

The St. Paul man felt humiliated, yet hewas honest, and conceded the truthfulness of the Milwaukee man's criti-"I stopped at the Merchants' hotel." continued the drastic visitor, "not be-cause it is the fashionable hotel, but because I liked its appointments. "Well, right in front of this hotel on Third street, right in front of the hotel that, I am told, has stood for

the hotel that, I am told, has stood for many years the acknowiedged political headquarters of the state, I was dumbfounded to see the pavement literally torn up, and to note that your city officials were making no effort whatever to repair it. I don't want to scold, but I really believe a little scolding would not hurt your mayor. It might wake him up to a realization of his duties."

Of course, the Milwaukee official was pardonable for committing a slight blunder. The municipal government may be culpable in a certain degree for the untidy condition of the streets complained of by the garrulous visitor, but the Milwaukeean is undoubtedly ignorant of the unfavorable tenets of the rant of the unfavorable tenets of the Bell charter, under which the administration is working.

POSITIVELY THE LAST.

There Will Be No Further Extension of the \$5 Rate.

It Will Close Finally April 30.

Important to All Who Desire Medical Service at a Low Rate.

The physicians of the Copeland Medical institute announced in the newspapers that until May 1,1893, they would treat persons until cured for \$5.00 a month, and furnish all necessary medicines free of charge. As the time is growing short, they want to remind the public of the promise they made, a promise which they intend to fill to the letter. Owing to the shortness of the time remaining in which to begin treatment, at the low rate of \$5.00 a month, it is advisable to begin treatment now, as there will surely be a large number of applicants for treatment. number of applicants for treatment during the closing days of the limited period. The physicians of the Copeland Medical institute consider that in now calling attention to the announcement of their promise made the first of the month, they are giving every one ample notice of the expiration of the \$5.00 rate.

IT IS PERMANENT.

To demonstrate the fact that the cures performed by the physicians of the Copeland Medical Institute are permanent, the following statement of Mr. Frederick Gehrman, a well-known mason, residing at 572 Martin street, this city, furnishes a forcible illustration:

"I had suffered," said Mr. Gehrman, "from catarrh of the nose and throat for ten years. I suffered more particularly from my nose, which, being entirely stopped up, made breathing through the nasal cavities absolutely impossible. My head would ache for days at a time, and these headaches were severe and frequent. I also experienced sharp pains in the chest. These pains would change from one side to the other, at times nearly driving me mad. My throat was filled with a disgusting mucus. I could feel the matter dropping from my head into my throat, and was compelled to hawk and spit almost constantly had tried a half-dozen different climates, but instead of recuperating as I had expected, I grew worse and worse. I had con suited different doctors. Some of them expressed the opinion that I was suffering with rheumatism of the muscles, but they all failed to help me. One of the doctors with whom I was treating avqised me to consult the physicians of the Copeland Medical Institute, which I decided to do. I desire to emphasize the fact that since I first consulted the physicians of the Copeland Medical Institute.

You will agree with me when I say I have great cause for feeling devoulty grateful for what these skilled men have done for me; in short, they have absolutely cured me, where all else positively failed. I feel that it is but just and right that I should in this manner recommend the doctors to all similarly afflicted."

THE \$5.00 RATE.

By applying during April patients not only obtain treatment and medicines for this month for \$5, but untit their course is up, if it takes six or eight months. That is where the advantage lies in applying now. This is fair to old patients who have never been called on during the existence of the \$5 rate to pay more, and who never will be, and it is a lasting favor to all who come now.
