NEW BORING TOOL Invented by a Woman, and Will

Cut a Square Hole. Mrs. Clark, of 105 Grove street, in this city, has invented and almost perfected a piece of mechanism that will seemingly realize a fortune for her when placed on the market. It is nothing less than an attachment for boring a square hole with an augur. A good description cannot be given without a cut to illustrate. Mrs. Clark's arrangement for trate. Mrs. Clark's arrangement for accomplishing the feat alluded to above is simple, yet apparently effective. It consists of what looks like a small steel bit, just large enough to clear the blades of the augur, which it surrounds. Some slight changes are necessary in the augur point; for instance, it would have to be grooved like a gimlet. The model shown in the GLOBE office last night was not perfect, but the principle is seemingly all right. The little steel box alluded to above is really a knife of four blades, which follows the course of the augur, and, as lows the course of the augur, and, as the inventor claims, cuts a perfectly square hole. A patent has been applied for, as the principle of this tool is en-tirely different from that of a similar

Review of the Movement to Establish the Freest Reciprocal Relations

With the People of the Great Dominion on Our Northwestern Border.

From a Modest Beginning Tremendous Results Are Fast Developing.

Maj. D. R. McGinnis Admirably Sketches the Move to Abolish Tolls.

The movement for the promotion of reciprocal trade relations between the United States and Canada has assumed such force and magnitude, and the coming international reciprocity convention, to be held in St. Paul June and 6 next, promises to be so largely attended that some account of the or .gin of the movement in the Northwest

annot fail to be of interest.

At a meeting of the Chamber of Commerce of Grand Forks, N. D., last July, a resolution was introduced asking the ecretary to correspond with the various ommercial bodies of the Northwest, including Manitoba, asking for an expression of views on the desirability of calling a convention to promote better social and commercial relations between the two countries. Letters were written to the chamber of commerce and Commercial club at St. Paul, the board of trade and Jobbers' union at Minneapolis, the chamber of commerce and Jobbers' union at Duluth, the chamber of commerce at West Superior and the board of trade at Winnipeg inquiring if they indorsed such a movement and if they would send delegates to a convention at Grand Forks. The response was favorable in each case and at a subsequent meeting of the Grand Forks chamber the replies were read, which created much enthusiasm, and on motion a reciprocity committee of ten was appointed, composed of the most prominent citizane, of the city. This committee citizens of the city. This committee met on July 22, and on motion from H.

P. Rucker it was decided to Hold a Reciprocity Convention, or conference, as it was modestly put by the committee. As the movement was then purely experimental, it was thought best to confine the call for dele-gates to Manitoba and the northwest territorities of Canada, and the states of North and South Dakota, Minnesota and Wisconsin in the United States, which was accordingly done. The lan-guage of the official call was for "a non-political joint conference," and its depolitical joint conference," and its de-liberations to be confined to "the extension of trade relations between the Canadian and United States Northwest, navigation on the great takes and a deep water ship channel from Lake Su-perior to the Atlantic seaboard."

Ir the Series That Will Result in a New State House.

Or ly Eighty-Seven Candidates for Secretary of the Board.

The initial step has been taken for the proposed new state house. The capitol commission met in the governor's office yesterday, and took the first action. There was a full attendance of the members, and the governor, by virtue of the powers conferred upon him in the capitol bill, presided. Channing Seabury was elected vice president of the board, and he was also chosen temporary secretary. Very yesterday's meeting, but plans were mapped out for future work, however, and the indications are that no time is to be lost in effecting something definite. It was decided to advertise for architectural plans and specifications under the provisions and restrictions of the law. This will be done at once, and competi-tion from all sections is expected. The board had before them a collection of photographs of capitol buildings of other states, which were scanned with interest, but no one style was selected from the lot. It was thought best to await the plans and sketches that will be submitted by the leading architects of the country.

Messrs. Seaburry, Lamberton and De Laittre were appointed a committee upon permanent secretary, and they will report at the next meeting, to be held in the governor's office June 28.

TOOK AN OVERDOSE. George Gray Meets Sudden Death

in a Hotel. George Gray, well known in St. Paul, died

at the Clarendon hotel yesterday morning under circumstances which at first pointed to suicide. Dr. Marquis, who was called, was informed by Mrs. Gray that her husband must have taken a dose of some kind of drug, and had probably taken too much. The usual antidotes were administered by the physician, but without avail. The remains were taken to Donnelly's undertaking rooms, and an autopsy will be held today. Gray has been an invalid for the past four years, and only returned to St. Paul on Thursday. His wife, a music teacher, has been the support of her husbaud for some years, Gray having been unable to do any work owing to a stroke of paralysis. Friends of the deceased do not put any stock in the idea of suicide, and say if death resulted from any drug it was owing to an overdose being taken. Gray was forty-seven years old, and has two grown children by his first wife, both residing in this city. CHARGED WITH SMUGGLING, But Hayes Says He Is Not the Man Wanted.

Henry J. Hayes was arrested yesterday by Deputy United States Marshal Sheehan, and lodged in the Ramsey county jail until he may be sent to Detroit, Mich., to answer to an indictment in the United States district an indictment in the United States district court for the eastern district of Michigan, charging him with the smuggling of opium into this country. A copy of the indictment implicating Hayes in connection with W. C. McPharson with smuggling ten cans of opium across the river from Windsor, Ont., to Detroit, Mich., accompanied the warrant. The marshal has been looking for Hayes for some time, and vesterday located him at his residence, 889 Reaney street. The man has a wife and two children. He was at one time in the employ of Booth & Co., and later did business for himself on Robert street. It is alleged in the indictment that Hayes paid the charges on the cans of opium at Windsor, and gave them to McPharson to smuggle across the river. The man arrested by Col. Sheehan asserted that he is not the man wanted.
