

TO GLOBE PATRONS.

Hon. Charles E. Flandrau Outlines the Policy of the Globe. As Ever, It Will Be True to Democratic Principles and Men. The Establishment Perfectly Solvent and Splendidly Equipped. Recent Legal Proceedings Only a Difference Among Owners.

To the Patrons of the St. Paul Globe: The St. Paul Globe has for many years been the leading Democratic organ of the state of Minnesota, and I may say, of the great Northwest. Its fidelity to Democratic principles, the Democratic party and Democratic men has never been questioned. Its ability in the advocacy of everything that pertained to good government from a Democratic standpoint stands equally unquestioned.

Unfortunately misunderstandings and difficulties have arisen among its owners and proprietors, not with reference to its political character, but more with reference to its business management. These difficulties culminated in a suit by a stockholder which was instituted to contest certain steps which had been taken in its conduct. It is not financially embarrassed, nor in any sense of the word insolvent. On the contrary, it possesses a magnificent plant and the thorough equipment in every particular of a first-class daily newspaper.

The contesting parties were unanimous upon one point, and that was the preservation of the paper with its commercial and political influence unimpaired. To promote this end, all parties interested agreed that the paper should be temporarily placed in the hands of a receiver, who should conduct the same until such time as an harmonious reorganization might be consummated; and all interested parties agreed upon myself as such receiver, presumptively because it is generally accepted throughout the Northwest that my fidelity to Democratic principles would in the conduct of the paper be satisfactory to its former patrons and to Democrats generally.

I accepted the appointment, and can safely promise to the Democracy of the Northwest that, while I shall in no sense become the editor of the paper, I shall, as long as I occupy this position, be its guide and conductor. It will be my purpose, as long as I control the publication of the GLOBE, to make it, if possible, better and a stronger advocate of Democratic principles, in regard to the finances of the country and in every other respect, than it has heretofore been. And I ask my comrades of the Democratic party all over the Northwest to aid and assist in the maintenance and advancement of what ought to be, and can be, if it is within my power to make it, the great central organ of the party throughout this vast region, which has recently shown such promising symptoms of wheeling into the Democratic lines.

Under my administration there will be no material change in the personnel of the paper, and no change whatever, except in the line of substantial improvement. Respectfully, CHARLES E. FLANDRAU, Receiver.

RATES AND FINANCES.

Chauncey Dewey Says the Railroads Will Soon Be Running Cheap Excursions.

He Believes that the Financial Scare and Stringency Are About Over.

CHICAGO, June 16.—Hon. Chauncey M. Dewey, of New York, looking as rosy and as fresh as a schoolboy, and wearing a jaunty straw hat, stood in the corridor of the Madison hotel this noon, awaiting on the coach to take him to the exposition. He said: "My primary object in coming to Chicago is to attend the meeting of the Sons of the American Revolution, and only incidentally to see the exposition, which I hope to have the opportunity of looking over this afternoon and tomorrow, for I shall be compelled to return home on Monday. I have been invited to deliver an address in connection with the Bankers' club, and I am able to get my brain together tonight. I shall do so."

"What do you think of the Eastern roads' proposals, relating to the direction of popular excursions rates to the world's fair?" Mr. Dewey was asked. "We shall make an excursion rate that will be satisfactory to everybody, and I believe that all the other Eastern railroads will do the same when the proper time arrives. We shall run weekly and semi-weekly excursions to Chicago, which will not in any wise interfere with our regular service, and the rates will be placed within the reach of all. Up to this time any attempt on the part of the railroads to run such excursion trains would have been a loss, and no railroad will enter into any business which does not promise to make an adequate return. Now that the exposition is completed, Chicago can look forward to a tremendous pouring of the people from all parts of the country, and you can feel assured that the railroad companies will do their duty to bring the people here as cheaply and comfortably as is in their power." Mr. Dewey said: "It is largely a matter of sentiment,

Returns in the German Elections Look Better for the Government. The Emperor Certainly Has Not Lost From the Dissolution. Reballots Will Be Necessary in More Than Half the Districts. Several Small Election Riots Reported From the Provinces.

BERLIN, June 16.—The most conspicuous two features of today's electoral returns have been the continued reports of Social Democratic gains and Richterists losses. Early this morning most of the news still came from the city constituencies, and the list of opposition deputies grew rapidly. This afternoon, however, dispatches from the agricultural districts revealed the other side of the page. From all that can now be ascertained it is reasonably safe to conclude that the government certainly has lost nothing by the dissolution and probably has won a little. At 10 o'clock this evening the returns may be summarized thus: In the 189 districts from which reports had been received eighty-five deputies had been elected. In the remaining ninety-five new ballots will be necessary. Of the eighty-five deputies elected, thirty-six will vote with the government, forty-nine against it. The parties siding with the government had lost three seats to the opposition; the parties working against the government had evened matters by losing the same number of seats to the opposition.

STARTLED A BISHOP.

Lively Incident at the Annual Meeting of the National Sons of the Revolution. The Members Conclude That They Will Not Try to Put Down Anarchy.

CHICAGO, June 16.—A lively incident today marked the annual meeting of the National Society of the Sons of the American Revolution. An amendment proposed by the Oregon-Washington society defining the objects of the national organization, and for discussion, Bishop Cheney, of Chicago, expressed a wish that the phrase, "To oppose by moral means the spread of anarchical ideas and lawlessness," be incorporated in the constitution. He said that the Western states realized that anarchism means more fully than the Atlantic seaboard states. Mr. Hall said the committee on organization was willing to have that clause admitted. In a second Gen. C. Breckenridge, of Washington, was on his feet, hotly opposing Bishop Cheney's proposition. "This society has no more business trying to put down anarchy than it has to put down hell," he said.

The general rapped out the exclamation, "I accept the amendment," and can safely promise to the Democracy of the Northwest that, while I shall in no sense become the editor of the paper, I shall, as long as I occupy this position, be its guide and conductor. It will be my purpose, as long as I control the publication of the GLOBE, to make it, if possible, better and a stronger advocate of Democratic principles, in regard to the finances of the country and in every other respect, than it has heretofore been. HAS RHEUMATISM.

President Cleveland Having a Slight Seize of This Painful Disease.

He Is Only Taking Two Meals a Day, in Order to Reduce His Weight.

WASHINGTON, June 16.—The president, though suffering from rheumatism, came to the White house today at his usual time. The cabinet meeting was attended by all the members, except Secretary Herbert, who is out of the city. It is impossible to ascertain definitely at the executive mansion whether the president will accompany Mrs. Cleveland to Gray Gables cottage, Buzzards' Bay, Mass., next week. The president has not yet himself decided. Mrs. Bissell, wife of the postmaster general, is understood to be accompanying the president. It is just possible that the president may make the trip all the way, or only as far as New York city. In either event he will remain only long enough to see Mrs. Cleveland safely on the boat or snugly ensconced in her seasonal home. The president does not expect to join her at Gray Gables for any lengthy stay until the middle of July.

The president's "infirmity of hard work and the heavy responsibility resting upon him, the president is steadily gaining in weight. His increase in weight has begun to be inconvenient. Already the effort of walking has become a burden, and Mr. Cleveland has himself forced to forego much of his customary exercise. This is a source of keen regret to him, and in order to reduce his size the chief executive is quietly pursuing the Banting system. Two meals a day is now all that he allows himself—light breakfast and dinner with simple meats and spring vegetables. Since taking possession of his country home, the customary midday luncheon has been religiously omitted, and in this way the president finds additional time for work, to which he devotes himself conscientiously from the time he reaches the White house in the morning until close on 6 o'clock, at which hour Mrs. Cleveland drives in and spirits her husband away from all worries, out into the fresh green fields and daisy-sprinkled meadows. In the peaceful retreat on Woody Lane their evenings are spent in undisturbed enjoyment, save for occasional visits from members of the cabinet and other personal friends."

All the Testimony in Favor of Lizzie Borden Now In. Her Sister Emma Appears in Behalf of the Accused Woman. Breach Between Lizzie and Her Stepmother Had Been Healed. Only One Witness, a Boy, Now Remains to Be Examined.

NEW BEDFORD, Mass., June 16.—There was less of a crowd at the court house this morning at the resumption of the Borden trial than at any time since the beginning of the trial. The decision rendered in the admission of the evidence for the defense, which was the man with the bloody hatchet was in order the first thing this morning, and after the jury had been polled counsel entered into a consultation with the justice upon some points which the latter desired to hear. Following this the court said it was clear that the evidence offered on the head above referred to could not be admitted. Mrs. Mary R. Holmes, a neighbor and member of the church with Lizzie Borden attended, was called to the stand. Witness was asked whether Lizzie went down to look at her father's body before the funeral, was objected to, but the court, assuming the question to be preliminary, allowed it to be answered. Mrs. Holmes testified that she saw Lizzie go down to look at her father's body before the funeral, was objected to, but the court, assuming the question to be preliminary, allowed it to be answered.

Booze-Befuddled Reds Threaten the Life of Dr. Walker Again. The Disciple of Esculapius Appears and Dares Them to Shoot. Company D Understood Now to Be at the Scene of the Trouble. Fatal Accident on the Milwaukee--Other News of the Northwest.

SPECIAL TO THE GLOBE. FAIRBANKS, Minn., June 16.—The company of United States regulars sent out from Fort Snelling is supposed to have arrived at Leech Lake agency late this afternoon, though no direct word to that effect has come from that point. Mrs. Mart Vranchevich has arrived from the reservation. Her husband was present when Dr. Walker shot the young Indian. After the fracas Mr. Vranchevich left the reservation, as the Indians desired to secure him. He held the Indian's horse while Dr. Walker took the sack containing the six bottles of whisky from the young buck. When the Indians heard the troops were coming they sent for their comrades north of them to come to their assistance, as the latter are good fighters. Yesterday about fifty mounted braves rode around the doctor's house saying: "We have got you now." They were all loaded with whisky, and but for Mr. Fairbanks, a merchant, who has great influence with the Indians, Dr. Walker would not be alive now. Walker has not shown the white feather, as when Indians threatened to shoot him he came to the door and dared them to do so.

WRECK ON THE MILWAUKEE. Brakeman Dave Kinney the Only Person Killed. Summit, S. D., June 16.—One of the worst wrecks known on the Hastings & Dakota division of the Milwaukee occurred this morning nine miles west of here shortly after 4 o'clock. The west-bound freight broke in two, three or four cars back from the engine. These cars were equipped with air brakes, and hence were stopped almost instantly. The rear end section crashed into them with frightful force, pinning cars of lumber, machinery and merchandise into the ground. Brakeman Dave Kinney, of the head end, was killed, the balance of the crew escaping without injury. Kinney was found in the front of the engine, his body crushed under a pile of ties. The back of his head was crushed and one thigh was broken. He was a young man, unmarried.

FORGERIES FOOT UP \$2,500.

Badger Young Man Going at the Face That Kills. RICHMOND CENTER, Wis., June 16.—W. E. McKinney, a well known young man living in the town of Richwood, is in jail here on a charge of forgery. The forgeries have been going on for years, and the present case is light by the maturing of certain notes which supposed signers were called upon to pay. It is alleged by the authorities that the forger had a partner in the deed to a valuable farm owned by an Elder McKinney, and then mortgaged the place for \$750 to McIntyre & Liston, of Muskego. The Richwood County bank holds a note for \$621, purporting to bear the names of J. S. McKinney, the young man's father, and W. E. McKinney as signers. The State Bank of Boscobel had a note for \$300 purporting to be signed by W. E. McKinney and signed by J. S. McKinney, which was a forgery like the rest, but was settled, as was a note for \$500 on the State bank of Muskego. Other small forgeries coming to light, and the total amount of the forgeries now foots up to nearly \$2,500. McKinney's trial will take place at the September term of the circuit court.

HAUGEN ON SILVER.

He Believes in a Repeat of the Sherman Law. WEST STURGEON, Wis., June 16.—A letter from Congressman N. C. Haugen was received today by a prominent citizen, in which the congressman defines his position on the silver question very clearly. In the course of the letter he says: "From my standpoint, I believe that there is no other measure which so lightly so clear the financial sky, so lighten the burden of debt upon the oppressed, and so clear the minds of man as the repeal of the Sherman law, but if it should be brought up in the same shape as it was last winter, I shall be compelled to again vote against it, as I cannot fully endorse the Democratic programme by so doing."

They were all loaded with whisky, and but for Mr. Fairbanks, a merchant, who has great influence with the Indians, Dr. Walker would not be alive now. Walker has not shown the white feather, as when Indians threatened to shoot him he came to the door and dared them to do so.

THE DOCTOR'S DANGER.

WRECK ON THE MILWAUKEE. Brakeman Dave Kinney the Only Person Killed. Summit, S. D., June 16.—One of the worst wrecks known on the Hastings & Dakota division of the Milwaukee occurred this morning nine miles west of here shortly after 4 o'clock. The west-bound freight broke in two, three or four cars back from the engine. These cars were equipped with air brakes, and hence were stopped almost instantly. The rear end section crashed into them with frightful force, pinning cars of lumber, machinery and merchandise into the ground. Brakeman Dave Kinney, of the head end, was killed, the balance of the crew escaping without injury. Kinney was found in the front of the engine, his body crushed under a pile of ties. The back of his head was crushed and one thigh was broken. He was a young man, unmarried.

FORGERIES FOOT UP \$2,500.

Badger Young Man Going at the Face That Kills. RICHMOND CENTER, Wis., June 16.—W. E. McKinney, a well known young man living in the town of Richwood, is in jail here on a charge of forgery. The forgeries have been going on for years, and the present case is light by the maturing of certain notes which supposed signers were called upon to pay. It is alleged by the authorities that the forger had a partner in the deed to a valuable farm owned by an Elder McKinney, and then mortgaged the place for \$750 to McIntyre & Liston, of Muskego. The Richwood County bank holds a note for \$621, purporting to bear the names of J. S. McKinney, the young man's father, and W. E. McKinney as signers. The State Bank of Boscobel had a note for \$300 purporting to be signed by W. E. McKinney and signed by J. S. McKinney, which was a forgery like the rest, but was settled, as was a note for \$500 on the State bank of Muskego. Other small forgeries coming to light, and the total amount of the forgeries now foots up to nearly \$2,500. McKinney's trial will take place at the September term of the circuit court.

HAUGEN ON SILVER.

He Believes in a Repeat of the Sherman Law. WEST STURGEON, Wis., June 16.—A letter from Congressman N. C. Haugen was received today by a prominent citizen, in which the congressman defines his position on the silver question very clearly. In the course of the letter he says: "From my standpoint, I believe that there is no other measure which so lightly so clear the financial sky, so lighten the burden of debt upon the oppressed, and so clear the minds of man as the repeal of the Sherman law, but if it should be brought up in the same shape as it was last winter, I shall be compelled to again vote against it, as I cannot fully endorse the Democratic programme by so doing."

NEXT THE JURY.

The Whalen Case to Be Decided Today. SPECIAL TO THE GLOBE. JAMESVILLE, Wis., June 16.—Two physicians today swore that Charles Whalen was insane when he battered Gerald Spaulding's brains out with a coupling pin near Portage, April 1, 1892. One physician and seven non-professionals swore today that Charles Whalen was sane when he battered Gerald Spaulding's brains out with a coupling pin near Portage, April 1, 1892.
