

MINNEAPOLIS.

MINNEAPOLIS GLOBULES.

The Columbus Handle company has brought an action against E. K. Smith & Co. to recover \$300.34 for goods delivered.

Julia Asbjeld has brought a suit for divorce against Seiverd Asbjeld, charging drunkenness and cruel and inhuman treatment.

Ex-Ald. Tom Downs yesterday celebrated the fortieth anniversary of his settlement in Minneapolis, his having arrived in the future great city on June 16, 1853.

Marriage licenses were issued yesterday to Fred Seemans and Jennie Jory, Charles Johnson and Hannah A. Larson, Elmer Brown and Mary Berg, Warner Johnson and Aletha Dyst, Wallace E. Bridge and Elizabeth Phillips, J. P. Peterson and Christina Nelson.

The third annual excursion and picnic given by the United Order Ancient Druids, will occur at Spring Park, Lake Minnetonka, Sunday, June 18. Trains leave the union depot at 9:30 and 10 o'clock a. m., returning from the picnic grounds at 7:30 p. m.

The funeral over the remains of William Weston occurred at 5 o'clock yesterday afternoon from Warner's undertaking rooms. The services were in charge of the pastor of the Episcopal church, officiated. Music was furnished by the Elks' quartette which was beautiful and appropriate.

This year's graduates from the North side high school were received into fraternal brotherhoods at the annual banquet of the North Side Alumni association last night at the Holmes hotel. The occasion was an event, and there were about thirty present, including the new members.

Monnie E. Wilkinson, son of Rev. O. H. Wilkinson, 1033 Logan avenue north, some time since he went with a friend to Lake Minnetonka camping and fishing. The boys returned at three o'clock on Sunday morning, and when they returned sickness had set in, and typhoid fever resulted.

In a snug and airy compartment in a Wisconsin sleeper attached to the 6:25 Chicago train last night, as the cars rolled out of the station, two great Minneapolis Elks who were bound for the grand council of the fraternity at Detroit, Mich. They are going to a city where they will be entertained and where they will get a good taste of Michigan hospitality. The travelers were Dr. Freedman, ex-elder of the First Baptist church, Frank Cothran and C. S. Bartram.

LOST THEIR MONEY. But Are Thankful They Didn't Get Killed.

The residence of A. T. Williams, 1710 Hawthorn avenue, was entered Thursday night by burglars, and as a result Mr. Williams is out about \$100. He did not retire until after midnight, and then left everything secure. When he arose Friday morning he found his watch, shirt and vest gone. Hitting hastily down stairs he found the kitchen window open. It had been forced open by a jimmy, as the catch was torn up. On the floor he found a practical joke from which had been taken the diamond stud, the gold buttons and a diamond ring from the man's pocket. His watch, a very handsome and valuable piece, was also gone. Neither Mr. Williams nor his wife heard a sound, and are thoroughly grieved.

IS GOULD DROWNED?

Suspicious That the Engineer Is Not in the River.

Some of the police who were engaged in the search for the body of Engineer Gould, supposed to have been drowned near Camden place, think that there are indications that the missing man is not dead, but has departed for parts unknown. One of the officers says that the bare footprints which they found near the clothing leading into the water and certain suspicious appearances, as if made too plainly and made backwards out of the water. At any rate, there has not as yet been any trace of the body, although some of the searchers think that it may be under the logs of the large jam near by. The search has been for the present discontinued.

SHOT IN THE HEAD.

A Youth of Sixteen Is Instantly Killed.

A most distressing shooting affair took place shortly after 1 o'clock yesterday afternoon, and as a result Albert Daniel, a youth of sixteen, is dead. Bert Colton, a citizen, is responsible for the deed. The boys were shooting rats in Mr. Daniel's barn. In the rear of his residence at 1023 Fifth street south, Colton was handling the rats, and accidentally firing, hit a bullet in the back of his companion's head. The ball lodged in the brain, and death resulted soon after. Mr. Daniel is the head miller in the Washburn mill, and is very well known. The shooting is said to be purely accidental.

KNOWLEDGE

Brings comfort and improvement and tends to personal enjoyment when rightly used. The many who live better than others and enjoy life more, with less expenditure, by more promptly adapting the world's best products to the needs of physical being, will attest the value to health of the pure liquid laxative principles embraced in the remedy, Syrup of Figs.

Its excellence is due to its presenting in the form most acceptable and pleasant to the taste, the refreshing and truly beneficial properties of a perfect laxative; effectually cleansing the system, dispelling colds, headaches and fevers and permanently curing constipation. It has given satisfaction to millions and met with the approval of the medical profession because it acts on the Kidneys, Liver and Bowels without weakening them and it is perfectly free from every objectionable substance.

Syrup of Figs is for sale by all druggists in 5c and \$1 bottles, but it is manufactured by the California Fig Syrup Co. only, whose name is printed on every package, also the name, Syrup of Figs, and being well informed, you will not accept any substitute if offered.

tricklers—these peddlers selling powders of which they say "same as Pearline" "good as Pearline" "Keep a few cents on your waist against such." PEARLINE has no equal. B. JAMES PYLE, New York.

MINUTES PAST 2 AND THE WHOLE TIME WAS OVER IN ABOUT FIVE MINUTES.

James R. Harris Is Shot to Death by a Couple of Burglars.

He Grapples With Them While Demanding Money in His Bedroom.

The First Ball Strikes His Left Hand, and the Second the Lungs.

A Reward of Five Hundred Dollars Offered by Mayor Eustis.

James R. Harris, of the Stahl-Harris Lubricating company, was murdered in his residence, 627 Fifteenth avenue southeast, yesterday morning. Shortly after 2 o'clock a. m. Mrs. Harris was awakened by the light from a bull's-eye lantern flashed in her face. Near the foot of the bed she saw, in the dense shadow made by the open light, two men standing close together peering at the faces of the sleepers. At the moment she opened her eyes one of the men said, "We want money."

The lower portions of the intruders' faces were covered by handkerchiefs, and Mrs. Harris thought she recognized in the forms those of her two youngest sons. She laughed at the demand for money and answered, "We have no money, boys, but how you frightened me. Is it time to get up?"

Recognized as Burglars. While she was speaking the light was turned from her face and she caught a better glimpse of the men. Then the light was turned on her again. In the short space of time between the two flashes it had dawned upon her that the men were the men standing near the foot of the bed were not those of her sons who were playing a practical joke on their parents, but belonged to men who were there for no good. She lay there for a moment paralyzed with fear, for into the stream of light she saw thrust two murderous-looking revolvers, and the second of the men muttered in villainous accents that if she didn't get up and give them money they would shoot. It was then that Mr. Harris, who up to this time had been sleeping soundly, was awakened by the intense light which fell from time to time on his face. He at once

Sprung From the Bed and grappled with the men. He caught one man as he stood on the threshold of the bedroom door, which leads into the dining room, and as he clinched the man fired, the ball taking effect in Mr. Harris' left hand. The burglar next laid his rifle on the bed, and fired at the threshold and Mr. Harris must have been on the side of the dining room, struggling to pull the man from the bedroom into the dining room, for the ball from the first shot passed completely through the man's body and fell in the ceiling of the dining room near the center. Mr. Harris was a powerful man, and he had succeeded in forcing both burglars toward the kitchen, which led directly from the dining room, when a second shot from the revolver in the hands of the burglar nearest the kitchen took effect in Mr. Harris' right breast, about two inches from the nipple, the ball

Penetrating the Lung. The men were unable to bear themselves from the grasp of the wounded man, and crossing the dining room, they tore open a side door and escaped. At the first shot Mrs. Harris exclaimed, "Are you shot?" Mr. Harris answered, "No, I think not." But as he spoke the second shot was fired, and the burglars fled. Mrs. Harris got out of bed after the first shot, and had followed the struggling men into the dining room. As soon as the second shot had taken effect Mr. Harris, followed by his wife, staggered towards the hallway. The other occupants of the house were aroused by this time and the alarm was given. Neighbors called in Drs. Aizer, Leonard and Dunsmore, but in spite of their efforts Mr. Harris died between 7 and 8 o'clock. He was consequently interred in the city morgue.

Removing a Screen which Mr. Harris himself had put in the evening before the entrance to the pantry was an easy matter, for the window had been left open during the night. From the pantry the burglars passed through the dining room into the bedroom where the shooting occurred. They were in this sleeping apartment long enough to search for Mr. Harris' coat, vest, which lay on a chair. These they stole during the night, and this morning both garments were found by some boys in the rear of a newly built vacant house on Fourteenth avenue southeast, between Seventh street and the Great Northern tracks. A pocket book, containing about \$2,000 in unpaired notes, was in the coat, and a paper torn, and when Mrs. Harris saw the two men in the vest she thought it was this young son and a neighbor's boy. She thought the boys were trying to play a trick on her, and when one of them asked for money she laughingly said she had no money.

The moment Mr. Harris awakened he realized the situation, and without a moment's hesitation he sprang for the men. He was gradually getting the better of them when the fatal shot was fired. Even after he had received his death wound he fought on, and succeeded in forcing the men into the bedroom where they hid the door upon them. This door was bespattered with blood, as was the doorposts of the bedroom entrance. Mrs. Harris turned to follow the men, but she staggered towards the front hall. He managed to reach the foot of the staircase, and then he turned to follow the men as they picked him up and started to assist him to the bedroom, where

He Fell Again. They picked him up again more, but a second time he fell. Then they picked him up and carried him to the room in which he died. The floor of the hall and the dining room was covered with blood, but the fatal shot was fired from the wound in his breast. As nearly as can be remembered by Mrs. Harris she was awakened about 20

minutes past 2 and the whole time was over in about five minutes. Medical assistance was shortly summoned, and four physicians attended to the wounded man. His consciousness within a half-hour from the time of the shooting. There were, all told, nine people in the house, three sons, a daughter, the hired girl, besides Mr. and Mrs. Harris. None of the others heard any noise in the house until the first shot was fired and Mrs. Harris screamed. The burglars in fleeing took a side door on the right side of the house, crossed a narrow alleyway and disappeared into the vacant lot and disappeared in the direction of the railroad tracks. Some of the neighbors awakened by the reports of the revolvers ran to their windows and saw a man

Running at Great Speed toward Fourteenth avenue and the tracks. The other man must have come through a flower bed in the rear of the Harris property, for in the morning two deep imprints of a man's feet were found in the soft earth. They met close together, and indicate that the man jumped from the grass directly to the center of the bed. Several more marks are found leading to the fence, which in all probability the man leaped on his way to Fourteenth avenue. Some of the family say that the burglars were fired; but they were all fired in such rapid succession that no one is sure of more than two. One ball is still embedded in the dining room, and the other is in Mr. Harris' breast. The description of the burglars given by Mrs. Harris is meagre, but she has several additional facts discovered, may lead to the capture of the murderers. She says they were both short, rather thick-set men, smooth-shaven, and each had a handkerchief tied over the lower half of the face. Both wore dark suits and hats.

Wires Found Bent. This morning the wires of the fence were found bent near the center as though they had been struck by a heavy body, and what may prove a valuable clue was found there. It was a piece of black cloth torn from a coat, and left lying on the fence. It is thought that in running one of the men came in contact with the fence in the dark and bent it. This piece is now in the possession of the detectives, as are the exact imprints of the footprints of the burglars. There was also picked up near the shed door of the Harris house a dirty silk handkerchief, with a corner of blue, his last was probably dropped by one of the men as they were working about the house trying to effect an entrance. The hired girl's room directly over the pantry on the second floor. Two of the sons, Addison and Walter, sleep over the dining room. Walter sleeps directly over

The Family Bed Chamber, and Miss Mary Harris, the daughter, in the front chamber of the second floor. The other bedrooms were occupied by the burglars, although it was in Miss Harris' room where all the money in the house was kept. Mr. Harris himself never carried but little money about, but in his trousers pockets he had what little he needed for a journey to St. Paul, which he had intended to make yesterday. Mr. Harris was fifty-three years of age, and had lived in the city about two years. He had formerly been a member of the city fire department, and was a man who was loved and respected by all with whom he came in contact. He was a powerful body, and had a fine physique. He was in the habit of carrying about 217 pounds. He was president of the Harris Lumber company, and Gov. Nelson was an intimate friend of the deceased, and has been notified of the sad affair.

The Partner Talks. Henry K. Stahl, the partner of the unfortunate man, was seen at the office of the firm, Second street and Sixth avenue southeast, yesterday morning. He had just returned from the Harris residence. He said that some one had told him early in the morning that the Harris residence had been burglarized, and he immediately went to see if the report were true. He found the victim very low but still conscious. Mr. Harris tried to tell Mr. Stahl what happened, but even as he did his lungs filled and he was obliged to stop talking. Mr. Stahl said he had seen soon as he saw the wounded man, that he could not live, and within half an hour he was dead. Mr. Stahl could not give any special motive for the attack, as the family were not in the habit of having large sums of money about the house. He thought that it was simply the doing of prowlers, who had been caught while at work.

A Reward Offered. The following proclamation was issued by the mayor yesterday: "Whereas, James R. Harris, of the Stahl-Harris Lubricating company, was murdered in his residence, 627 Fifteenth avenue southeast, yesterday morning, and as a result of the murder, the sum of \$500 reward is hereby offered for the apprehension and conviction of the two persons who, at 2 o'clock on the morning of June 16, 1893, entered the residence of J. R. Harris, 627 Fifteenth avenue southeast, in this city, and while in the act of burglarizing the residence, shot and killed James R. Harris, a citizen of this city, and every man, woman and child is deeply interested in the arrest and punishment of the murderers of W. H. EUSTIS, Mayor.

The Autopsy. Drs. Simpson and Alger, who conducted the autopsy upon the remains of the murdered man, concluded their work late yesterday afternoon, and made their report to Coroner Sprink. The physicians found that a bullet fired from the dastard's well-aimed pistol penetrated the right breast, and then fractured the rib, and the bullet glanced off into the heavy muscles near the spinal column, where it lodged. The bullet was of the caliber .38. As to this there is no mistake. The evidence is of the utmost importance, for it confirms the statement made by Mrs. Harris, and shows that she was not mistaken when she said that she was shot in the back, and that one shot came from a different direction than the other. The bullet which was fired from the dastard's well-aimed pistol penetrated the right breast, and then fractured the rib, and the bullet glanced off into the heavy muscles near the spinal column, where it lodged.
