which requires but a trial to convine
the most skentical. In incorvence of which requires but a trial to convince the most skeptical. In ignorance of effects you may have unduly drained yoursystem of nerve force and vitality—which is electricity—and thus caused your weakness or lack of force. If you replace into your system the elements thus drained, which are required for vigorous strength, you will remove the cause and health, strength and vigor will follow at once. This is our plan and treatment, and we guarantee a cure or refund money.

Our 200 page book "THREE CLASSES OF MEN," should be read by every young, middle-aged and old man, sent sealed, free. Dr. Sanden's Electric Belt is no experiment as we have restored thousands to robust health and visor, after all other treatments failed, as can be shown by hundreds of cases throughout this and other States, who would gladly testify, and from many of whom we have strong letters bearing testimony to their recovery after using our Belt.

# OAKES MAY CHANGE.

He Has Been Offered the Presidency of the C., B. & Q.

Probability That He Will Accept, as the Salary Is a Tempting One.

President Perkins to Be Made Chairman of the Board of Directors.

Good Prospect for the Toughest Railway Fight of Recent Years.

CHICAGO, June 23 .- President T. F. Oakes, of the Northern Pacific, has been offered and will probably accept the presidency of the Chicago, Burlington & Quincy. He has not yet accepted the offer, but it was made with the full knowledge of his present salary and is so much greater that he can hardly refuse. The offer to Mr. Oakes originated in the desire of John M. Forbes, chairman of the Burlington directors, to retire from active business. He owns the largest block of Burlington stock, and wishes President Perkins, of the Burlington, to succeed him as chairman. This would accord also with Mr. Perkins' tastes.

## PREPARING TO FIGHT.

Northern Pacific Will Give the Great Northern a Hard Tussle. CHICAGO, June 23.—The Northern Pacific is preparing to give Jim Hill and the Great Northern road a fight that they will remember for many a long day. Whether or not an active fight will be begun at once depends upon the action taken at the special meeting of the 27th. If nothing is done at the meeting which promises entire protection to the Northern Pacific, that road will take matters into its own hands, and will in all probability make through rates to Chicago which will beautiful the second of the secon will take matters into its own hands, and will in all probability make through rates to Chicago which will through rates to Chicago which will have the effect of dragging down rates all over the Northwest. The Western roads are very seriously disturbed over the prospect of a fight, and will hold off the Northern Pacific as long as possible, but the latter road is naturally unwilling to sacrifice its Western business, and it will not. Just as Frank IV. rn business, and it will not. Just as soon as the meeting called for the 27th is over, white-winged peace will be hovering around or there will begin one of the toughest railway fights of recent years. The ticket offices of the Wisconsin Central and Northern Pacific in Chi. sin Central and Northern Pacific in Chi cago are to be merged within a short time, which means the sale of tickets through from Chicago to the Pacific coast, instead of tickets from Chicago to St. Paul, and from there to the coast.

Fourth of July Rates.

Fourth, of July has begun to assert its oming with flaming flyers announcing reduced round-trip railroad rates. The Albert Lea route yesterday issued posters showing that one and one-third fare will cover the cost of the round trip between all points on its line within 200 miles on St. Paul. The St. Paul & Duluth has announced the same rate to local points on its line. The excursion tickets are to be sold July 3 and 4, good to return not later than July 5. # NOT A TRUST.

CHICAGO, June 23 .- The American Preservers' company scored a victory in Judge McConnell's court this afternoon. The company was plaintiff in a replevin suit brought against Andrew Bishop, one of its agents, who formerly conducted a preserving and canning business on Michigan street. An effort was made during the trial of Bishop to prove the company was a trust organized for the purpose of monopolizing the trade. After the case had progressed far enough to catch the drift of the evidence to be introduced by the defendant in sub-stantiation of this fact, Judge McConnell ordered the evidence to be excluded from the jury and instructed the jury to find a verdict for the plaintiff.

# BUSINESS TROUBLE.

NEW YORK, June 23 .- Sheridan & Byrne, builders, are financially embarrassed, and Charles W. Gibbs has been appointed receiver in a suit brought by Thomas J. Sheridan against James E. Byrne to wind up their affairs. The unsecured liabilities of the firm are \$70,000, and their total liabilities, including mortgages, more than \$225,000. CHICAGO, June 23.—Leroy Payne, the liveryman, failed this morning for \$250,-000. His estimated assets are \$275,000. A bill for a receiver for his livery business was filed yesterday in the circuit

meeting of the directors of the Pacific Bank of San Francisco, held last night, it was decided not to open their doors this morning. In a statement issued by their vice-president, their liabilities, outside of capital stock and surplus, is placed at \$1,630,000. Assets, if properly handled, \$2,000,000.

The People's Home Savings bank closed its doors this morning. It affiliated with the Pacific bank, which closed yesterday. The resources are said to far exceed the liabilities. Wall Street Bears Make a Successful Onslaught on a Few Stocks.

CHICAGO, June 23 .- Corn broke over a cent a bushel today, dragging down oats and wheat. The occasion of the break in corn was the enormous movement which has started up within two days. The estimate yesterday of 320 cars for this morning was the first sign of a jump in receipts. When the receipts reached 346 cars there was some surprise and some weakness. When the estimate for Saturday was given out at 630 cars the trade was paralyzed. The 1.2 whole pit turned to the selling side. Early in the session the firm cables, the heavy shipments of yesterday, the liberal out-inspection helped to steady the market. If there is any con-centrated line on the bull side for Wright or any other manipulator no move was made on the break to indicate it. There was no recovery from 11.1 bottom prices. There were sales for the export of 300,000 bu of corn here and New York reported 224,000 bu taken there, but these operations were not generally known until after the close. The opening was 1/4c lower than the closing figures of yesterday, and prices

closing figures of yesterday, and prices further declined ½c, then rallied ½@ ¾c. again eased off, declining to inside prices, with July ½c and September selling to a point ¾c below yesterday's closing, ruled a little steadier, and the closing was ¾@½c lower for July and ½@e lower for September.

There was only a light business in wheat, and most of that was in the way of buying July and selling September by parties who were operating for the carrying charges. The premium was reduced to ½c, and at times barely that much could be obtained. The weakness in the market was due to the slump in corn and the failure of one er slump in corn and the failure of one er two more banks in California. Operators were also afraid of the New York bank statement tomorrow.

## New York.

NEW YORK, June 23 .- The stock market was weak and unsettled today. The bears jumped on the market at the bears jumped on the market at the opening and depressed prices \( \frac{1}{2} \) per cent, but a rally promptly followed, and for a time speculation ruled tolerably firm. The bank failures out Wost, however, conbined with the stringency in the local money market and the failure of the Reading plan of readjustment, started up a fresh selling movement as the day advanced, and in a few instances important declines were reinstances important declines were recorded. Lake Shore, Jersey Central, Lackawanna, Manhattan and Sugar yielded 1½@3 per cent. A number of stocks like the grangers, Atchison, Northern Pacific, Reading, New York Central, Missouri Pacific, General Electric, show merely fractional declines for the day. The dealings were strictly professional, the commission houses being indisposed to encourage new ventures by their clients in consequence of the difficulty in securing accommodations at banks. The bears considered themselves safe in their attacks upon the market be-cause of the likelihood of a heavy falling off in the bank reserves tomorrow, e shipment of currency for the week being estimated at \$6,000,000. The decline in Lackawanna and Jersey Central was accelerated by reports that the failure of the Reading

plan would probably precipitate fresh troubles upon the other companies engaged in the coal-carrying trade. At the close the market was weak in tone at a recovery of 1/8@% per cent from the lowest.
The Post say: "Nothithstanding the rise in Chicago exchange, snipments of currency continued heavy today; chiefly induced by the continuance of the San Francisco panic. Call money rates rose to the week's earlier level, and sterling exchange, reflecting the same influences, fell into renewed weakness. The sentimental influences of the day including yesterday's failures in the coffee trade, were thus for the most part unfavorable, and they were used industriously by the board room contingent. Business was very limited, and the sharp declines were concentrated on comparatively few stocks on the list." Bradstreet's weekly Wall street review will tomorrow say: "The financial situation keeps the speculative stock market in a narrow and exceedingly sensitive state. Irregularity has characterized the course of quotations, the only general feature being the rapid temporary advance of Wednesday, due to the sudden announcement that the expected invest to prove the from expected import movement of gold from Europe had materialized, and that \$500,060 had actually been taken in Lon-don for transfer hither. Rumors of other engagements were encouraged by the existing depression in exchange, although rates had not reached the level nor supplies of commercial bills attained the magnitude which, in the opinion of bankers, would justify a heavy inflow of specie. The large bear interest in the market was, however quick to take fright, and the rapid covering of their poor. and the rapid covering of their short contracts supplied the lack of outside buying power, and gave the market a brief spell of animation and strength. The announcement that the transfer of the \$500,000 of gold from London was a special transaction and the immedi-

special transaction, and the immediate recovery of exchange rates to figures which prohibited further gold imports was followed by the stoppage of the short covering and a renewal of bear tactics, which were encouraged by the abandonment of the Reading reorganization plan. The extension of the wave of financial disturbance to the Pacific coast and the demand on the New York banks from that quarter seemed to counteract the effect of the decreased demand from the region tributary to Chicago, although the issue of \$5,300,000 clearing house certificates and the decision of the treas-September wheat were fairly active in the forenoon, while cash was very slow with few trades. The afternoon ruled dull with declining tendencies, and the close was weak at 1/4c below yesterday fer cash and June, 1/2c down for July, and 1/3c down for September, as follows: and such factors as the increase of travel toward the Chicago fair and the Cash-No. 1 hard, 641/2c: No. 1 northdistinctly unfavorable European crop prospect are deprived of tangible influence. Europe took little interest in this market, Londor indeed, showing a sensitive disposition in regard to the possibility of gold wandrawals for export to this country."

## DUN'S REVIEW.

Volume of Trade Considerably Reduced by the Stringency. New York, June 23.-R. G. Dun & Co.'s weekly review says: "The improvement expected from the issue of clearing house certificates, thus utilizing credits instead of cash in local dealing credits because the control of the control of

orders for merchandise are deferred since there is no assurance of ability to carry the goods until they are sold, while in other departments orders are not re-ceived because the future is distrusted. The effect on the great industries has been less thus far than might have been feared, as most of the works are employed on orders booked before the trouble began, but many works are now reducing the number of hands, and others must soon suspend operations unless the prospect becomes clearer. Speculative markets have been much | native cows, \$3.25@4.10; canners, \$1.75 depressed by monetary stringency, wheat having sold for several days at the lowest price ever known at Chicago, though the wide margin between June and September offers strong temptation for use of money in carrying. The movement of grain from the farms is large for the season, and by no means indicates exhaustion of stocks, and visible supply decreases so slowly that pur-chases are little encouraged. The new harvest already begins, and prospects are decidedly brightened by much-needed rains in the Northwest during the week. Lower prices have increased the export demand, though it is not large enough to make much improvement on the enormous stocks in sight. Corn has been weak, with more cheering crop prospects, and hog products are weaker because of monetary stringency.

Rains have a good effect on growing crops. At St. Paul and Minneapolis prospects are much brighter. Chicago reports no distinct improvement, though July settlements will soon release large sums, and an easier market is expected. sums, and an easier market is expected. Speculation is much curtailed, and prices for wheat the lowest ever known. Local securities have shrunk severely, and provisions are lower. Clearings show a decrease of 40 per cent, real estate 30 and securities 40 compared with last year, and receipts of nearly all products decrease, Milwaukee reports money slightly easier. The state of foreign trade is not yet satisfactory, for exports of products fall below last year exports of products fall below last year at New York. In June thus far \$3,600,000, or about 14 per cent, while im-000, or about 14 per cent, while imports are still somewhat lower than a year ago. Trading in stocks is much affected by monetary conditions, and prices have heen depressed an average of 25c per share and some selling by foreigners of securities recently purchased. There is hope that July disbursemens, the issue of certificates and the increase grain shipments will bring better conditions, but the will bring better conditions, but the failures are still numerous and include some of importance. The failures for the week number 287 as compared with totals 487 last week. For the failures were 190.
