FATHER CONNELLY INDICTED.

A Queer Cutting Affair Reported From Dennison.

BUFFALO BUILDINGS BURNED.

ABERDEEN, S. D., July 19 .- Some of the rainmakers and citizens of Aberdeen have formed what is to be known as the International Cold Wave company, with a capital stock of \$1,000,000.

The organization claims to have discovered the secret of producing cold waves. For instance, when the heat, running at from 90 to 100 degrees, drives in upon the Dakotas from the plains of Kansas or Montana, the company says it will set a counter breeze blowing from the ice fields of the North which will dissipate the hot wave and bring a temperature of about 68 to 70 degrees Fahr enheit. The company refuses to make public any part of the secret, but offers to guarantee what it proposes to do.

A PRIEST INDICTED For an Alleged Assault on a

School Girl. DULUTH, Minn., July 19.—The grand Jury of Lake county today returned four indictments against Father Connelly, the Catholic priest, who is charged with assaulting Lena Sutherland, an eighteen-year-old girl on May 29. Two of the indictments are for rape on separate occasions, one for abduction and one for indecent assault. It is alleged that the priest induced the girl to come to his house, drugged and then assaulted her. The defense does not deny criminal intimacy, but sets up that it was with the girl's consent: that the offense was Hauser, Grafton, grand outer guard. often repeated, and that there was a money consideration. NORTHFIELD, Minn., July 19.-The wife of Carl Anderson was attacked vesterday by a man while in her rooms over a store in the village of Dennison By desperate resistance she prevented the accomplishment of a criminal as sault, but she was unable to make herself heard, as the man fastened a jacket over her head. The man cut two gashes across her abdomen. She was attacked at 8 o'clock in the morning and was not found until 6 p. m., when her husband, who works on the railroad, came home Drs. Schmidt and Brubaker, of this place, examined the woman and found the intestines had been cut. There is no chance for recovery. Two men were arrested and taken to the woman for identification, but she said that neither was the one who attacked her. Intense excitement prevails at the village, and the guilty man would probably be lynched if found. Some circumstances surrounding the case suggest an attempt at suicide.

London, July 19 .- Delegates representing 248,000 coal miners in various parts of the country met in Birmingham active broker today, discussing the sitparts of the country met in Birmingham today to consider the proposal of the mine owners to reduce wages 25 per circumstance recently. That was the cent, the cut to go into effect on July 28. As was to be expected, there had been received at his office was a wide divergence of views for margins, and for the puras to the course to be chase of stocks from occasional followed, but after a somewhat lengthy and heated debate, a resolution was adopted declaring that the conference was opposed to the reduction. Delegates representing 198,000 miners supported the resolution, while the repre senatives of about 50,000 voted against it. The delegates representing the miners of Northumberland and Darham, who have only recently joined the miners' federation, and representatives from Cleveland, Cumberland and some other districts that are not affected by the reduction, urged that arbitration should be resorted to to settle the dispute. They argue that between 25 per cent and nothing there is a wide margin for compromise, and the Durham miners, with the sufferings caused by the recent long strike in that district still fresh in their minds, are not at all eager to be drawn into another contest with the

mine owners. No decision was reached today on the question of a strike if the mine owners persist in their intention to make a reduction: but decisive action will probably be taken before the conference adjourns, which will not be until Friday. The strike, should one occur, will be the largest movement of the kind that has ever taken place in the United

MUCH DISTRUST IN EUROPE OF AMER-ICAN SECURITIES.

FEAR OF A SILVER BASIS.

Stocks and Bonds Bought in Wall Street With Paper Money-New Yorkers Charge the Quaker Bankers Six Per Cent for

NEW YORK, July 19 .- A New York banking house received a practical illustration this week of the distrust in Europe of American securities, and the fear that this country may go on a silver basis. In its foreign mail it received \$50,000 of United States 4 per cent bonds, the European owners of which did not care to hold them so long as there was a danger that payment of the interest and principal might have to be accepted in silver. It was said that there had been other eases of this sort, and it was that which had enabled national banks to secure United States 4 per cent bonds recently at a sufficiently low price to warrant the taking out of uation, said he had noticed one unusual chase of stocks from occasional customers, and in some cases from strangers. Usually such payment sare made by checks or drafts of some kind, but in numerous cases this week the actual cash was put up. In nearly every case in which inquiry was made it was ascertained that the money had been drawn out of bank some weeks ago and held until the opportunity to invest it in stocks or bonds arose. The

currency was mostly in \$100 and \$50 The situation in Philadelphia remains practically unchanged. New York exchange is only obtainable there at from \$3 to \$5 per \$1,000. Some of the New York banks which have large balances to their credit in the Philadelphia banks are charging these banks 6 per cent for the use of the money. If the Philadel-phia banks object to pay the interest and say they cannot remit to New York, the New York banks lend out the oney in Philadelphia. They can do this without causing the Philadelphia banks to encroach on their supplies of cash, as clearing house loan certificates are in use there.

MINERS STRIKE.

Trouble Between the Strikers and an Armed Posse.

PITTSBURG, Kan., July 19 .- W. & J. evening by about 100 miners, who called lieved, however, that violence will be quit work. It is understood they went back to work this morning. Stockades were begun at Litchfield and Weir City today preparatory to putting men to work, but the strikers declared that n one will be allowed to use them.

Trouble is expected by the people at any moment. A miner said on the street that some one would be planted before Saturday night. Several hundred strikers met this morning near Weir City and marched first to the Kansas t Texas Coal company's Strip Pit No. 47. They were stopped by Under Sheriff Bent Douglass and Supt. A. B.Cockerill. who forbade their trespassing. At the works was a large and well armed posse. The strikers lined up at the edge of the premises, and Supt. Cockerill consented to allow a committee of reasonable size to go up to the works and try to persuade his men to quit. The ommittee used every argument possi ble, but the men refused point blank to

From 47 the strikers marched to th J. H. Durkee Coal company's slope ortheast of town, where a similar scene

was enacted. The men next went to the Granat strip pit on the Cherokee Zinc company land inside the city lines. Here the city officers joined the deputy sheriff and warned the strikers against trespassing. These men also refused to go out, as did Granat's men at another pit east of town, which was next visited.

From there the miners marchel to Clemon's strip on the Keith & Perry Coal company ground southeast of town. Clemon's men gave no satisfac tion further than a promise to confer with the other strippers, and act as they might do.

The strikers then took up the line of march to Scammon. They were orderly and quiet throughout.

PROMINENT KANSAS ATTORNEY SHOT DOWN BY A BANKER.

Banker Little Jumps Upon His Prostrate Victim and Beats

Him Over the Head With a

Deadly Weapon-Most Sensational Tragedy. KANSAS CITY. Mo .. July 19 .- The little city across the state line from here was shocked tonight by the murder of one

of its most prominent attorneys by one of its most prominent bankers. A. W. Little, cashier of the First National Bank of Kansas City, Kan., ex-president of the Armourdale bank, vice president of the McNeal-Little Banking company of Guthrie, O. T., and director of the First National Bank of Medicine Lodge, Kan., shot and killed Benjamin E. Johnson, one of the most prominent of the rising young attorneys of Kansas. The shooting took place about 9 o'clock this evening. Little, in company with United States Cam-missioner Hanks, was walking down Minnesota avenue, the principal street of the town. When they approached Crinolri's drug store at No. 630, Mr. Little was seen to walk in advance of Mr. Hanks. Mr. Johnson was sitting on a bench in front of the drug store with a number of friends.

Mr. Little hastened up to him, and, with an oath, exclaimed: "You shan't hound me any more." Then he deliberately drew a revolver from his pocket, and, pointing it at Johnson, fired. The bullet struck Johnson in the left side and caused instant death. He fell to the sidewalk and Little ferociously jumped upon the pros trate man and beat him repeatedly over the head with the butt of his weapon. Then he coolly arose, and, explaining his last action, said to the crowd which had gathered: "I was afraid I had not killed the scoundrel." He then gave himself up to the police and is now in jail. The cause of the tragedy is not known definitely. Johnson's friends say it was due to a finan-cial difficulty between the two men and Little's friends say there was a woman in the case, the facts of which fully justify the shooting. Little and Johnson were interested in a new coal company which was recently organized at Huntsviile, Mo. Its affairs became tangled up, and it is said that Johnson was responsible for Little losing considerable money in the venture and that

Little took his revenge in the shooting. Johnson leaves a young wife and baby. He was prominent in society of Kansas City, Kan, and was a prominent Knight of Pythias. WASHINGTON, July 19.—The banks of Minnesota are in splendid condition and holding far above the legal reserve. This is shown by the reports so far received by the comptroller of the currency from his call of July 12. Owing to the fact that no reports have yet been received from some of the distant banks, no tabulation has yet been made of the state, but enough are in to show that the strain of the past few weeks

has only served to strengthen the banks of the state. In the August number of the North American Review, Comptroller Eckels, in a financial article, makes special mention of the situation in Minnesota, and pays a compliment to the banking institutions of the state. The fact that not a single national bank in Minnesota has closed its doors during the severe stringency is worth much to the state in the East, and is

DUTY ON WOOL.

Changes Made of Interest to Im-

having due effect.

porters. WASHINGTON, July 19.-An important change has been made by the treasury department in the classification of woo that will lower the duty on some grades of the article nearly a hundred per cent. The change follows conclusive evidence offered by wool importers that certain grades of high class wool were practically analogous to grades classified lower in the wool schedule of the McKinley bill. Hereafter the material known as 149 and 150 Flamantine skin wool and 179 Kassapbatchia skin wool, second quality of the first or highest class, will be known as 396 and 397 Servian skin wool, and 389 Kasappatchia skin wool second quality of the third class. The changes in duty cannot be made clear to the layman through the language of the wool law, but the statement may be accepted as true that the duty is considerably lowered, in some cases, as previously stated, nearly 100 per cent. This statement is made at the treasury department. Wool growers and importers will be interested in the extent of the change as shown by the law. First-class wool, which included the three kinds transferred to Class 3, is provided for as follows: "Duties upon all wools of the first class shall be 11 cents per pound." follows: "On all wools of the third class and on all camel's hair of the third class, the value whereof shall be 13

charges, the duty shall be 32 per cent ad valorem.' "On wools of the third class and on camei's hair of the third class, the value whereof shall exceed 13 cents per pound, including charges, the duty

shall be 50 per cent ad valorem." Difficulty in classifying the wool known as "145 Turkey improved fleece unwashed" caused the department to omit the wool altogether from the schedule, leaving it with the appraiser to determine its quality. The value of this wool differs according to its condi-

POOR SERVICE.

Many Postoffices in Need of Additional Carriers. WASHINGTON, July 19 .- The atten-

tion of Acting Postmaster General

Jones was this morning called to a num-

ber of complaints of postmasters which have appeared in the newspapers reflecting upon the postoffice department because of non-compliance with their requests in the matter of allowances for letter carriers, etc. Mr. Jones said there was no question that New York city and a large number of other offices throughout the country were actually in great need of additional carriers and other facilities for carrying on the work of the offices, and while it would afford the department pleasure to comply with these requests, yet, as a matter of fact, it was powerless to so owing to the insufficient appropriations. The appropriations for the free delivery system of the country for the past fiscal year were not enough to meet the proper expenses on a basis of allowances of the last year, and yet the volume of postal business was continually and rapidly increasing. The appropriation should have been increased in proper proportion to meet the increase of business. Only about half a million increase had been allowed, which was \$150,000 less than the increase allowed for the previous fiscal year. The average annual increase of appropriations over the preceding year from 1885 to 1893 was over 10 per cent, while the increase of the present over the past fiscal year was a little over 4 per bent. The increase in the number of carriers in '93 was over 11 per cent, this being a higher percentage of increase than for any previous year. On Oct. 5, 1892, the chief of the free delivery service submitted his estimates of \$11 .-811,613 as necessary to meet the increased and increasing demands of that service. The appropriations committee of the house reduced this amount \$100,-000, and in submitting their estimates partment made the further reduction of \$500,000. The correspondence of the department, it is alleged, shows that this was done after November, 1892, when the result of the election had been made known. The department, while thus hampered by short appropriations, will try to do the best possible with those in hand without favor or discrimination.

Detailed Account of the Poisoner's Operations.

NEW YORK, July 19 .- The picture of Dr. Heary C. W. Meyer, published in the papers, recalls to Julius Dahlmann, who keeps a small shop at No. 16 Whitehall street, the face of a man he met in Denver in 1887, and who was introduced to him as Dr. Meyer. He recognized the face, albeit Meyer while Denver did not wear the whiskers

which now adorn his visage. Dahlmann says Meyer came to Denver from Chicago. He was intimate with a druggist, or druggist's clerk. named Klotz, who had been in a drug store in Chicago and compounded prescriptions for Meyer while there. Meyer practiced, or pretented to practice medicine while in Denver, but a friend of Dahlmann's called on Meyer to attend a child, Meyer having claimed to be specially proficient in doctoring children's ailments. When called. however, to see the child, Meyer excused himself, when he arrived at the residence, on the ground that the light was not good enough, as it was after dark, and he could not see well enough to look into the case. He never called at the house again, however. Dahlmann also saw him undertake to perform an operation on Klotz, but he showed such utter ignorance of the use of instruments that Dahlmann told Klotz's wife that she had better send

for a real physician to perform the operation. Meyer then abandoned it. Meyer brought to Denver with him a very handsome woman whom he called his wife, and a servant girl. They lived in fairly good style, but he did not appear to have much money. A Chicago man told Dahlmann that Meyer had spent nearly or quite all the money he had received from the widow of the man poisoned in defending himself

when tried on the charge. .Klotz, the druggist, had come from Chicago, and was living with a virago who claimed to be his wife, but Klotz's real wife lived in the East. When Klotz died his life insurance, which was \$1,000, was collected by the Denver woman. Klotz, while in Denver, was the editor of a paper printed in German. Sud-denly he became sick. He had been in the best of health, and was a robust, strong man naturally, but suddenly h was attacked with troubles in his throat and ulcers in the rectum, and got so he could scarcely walk. He was advised by a physician to go to Southern California and he did so. He returned in a few weeks, apparently restored in health, but his troubles came on again,

when he died. Meyer meanwhile seemed to be settled in Denver. But suddenly he disappeared. Two days after his disappearance there came out in a Denver newspaper an account of his operations

in Chicago

Before Klotz died Meyer had arranged to go into the druggist business with him; he could thus put up his own pre scriptions without recording them. Dahlmann says Klotz was always hard up, and he thinks Meyer secured a hold on him by letting him have a little money now and then. On Klotz's death WASHINGTON, July 19.-Charges of | it was supposed that he had not only

HOT ROW IN THE BOARD

Auditor Burns Roasts the

Board's Lavishness. MONEY IS YET DUE TO 17

According to the Claim of All of Its Officers.

THE ESTIMATE OF THE COUNTY.

The board of county commissioners had a red hot meeting yesterday afternoon, and adjourned until a week from today at 4 o'clock in the afternoon, when there is likely to be a very warm fight over the tax levy and the allowances to be made to the several county institutions. This matter, together with the board of control tangle, brought out an animated discussion yesterday. All of the commissioners were present, but the mayor failed to put in his appearance, and Mr. Lavalle

was called to the chair. The debate alluded to was begun when Commissioner Lavalle as chairman of the committee on expenditures, reported relative to the board of control was submitted. This provided for carrying on the expenses of the alms house and hospital by having the county auditor draw warrants on the county treasurer for the monthly bills for the succeeding six months. These are to be presented to the county treasurer, who will indorse on the warrants that they cannot be paid for the want of funds. They would then draw interest and become negotiable. It was stated that the overdrafts of the board of control amount to \$19,000, part of this, or \$8,000, being incurred for permanent improve-

ments. Chairman Kerwin, of the board of control, stated that there is a mistake in claiming that his board has overdrawn its account. He claimad that four years ago the board had an allowance of \$7,000, which they have not received, and that last year there was \$8,000 put into the tax levy, which was designed for permanent improvements, but which has not yet been turned over.
Auditor Burns—The board of control
spends too much money, and it must
realize that it must get down to an ex-

penditure of \$3,000 per month.

Mr. Kerwin-We have to take care of the poor. We can't get down below the needs of the people. We investigate every case. There are eighty inmates in the poor hospital to take care of. We turn away people and are trying to keep down expenses.

down expenses,
Mr. Burns—I don't want to see that
Mr. Burns—I the committee investigates the matter.
Commissioner Daly—It is impossible to regulate charities. We can't let people starve. Some times it costs more

than others and no scale of expenses can be fixed. Mr. Burns—They are sinking \$10,000 a year in the poor farm.
Commissioner Hanna—I don't want

that report adopted if it gives the board of control power to spend as much money as it wants to. Commissioner Lavallee—We want to provide for an overdraft by making the accounts negotiable, because the county has no other way to raise money to pay its date.

its debts.
Dr. Ancker—We are short not because we have spent more money than was appropriated, but because the money has not been collected. Our institution is run cheaper than any other in the country, and I can satisfy any one of the fact by the reports from other cities. There was \$62,000 ap-propriated to our institutions for 1892, but we have not specified. out we have not spent half of it. The \$7,000 allowed us four years ago was not collected, but was charged against us. We have not received the \$8,000 us. We have not received the \$8,000 allowed us last year for permanent improvements although we have made the improvements and paid for them. We were short \$25,000 at the beginning of this year and we have only spent \$.8,000 this year out of the \$55,

o00 allowed us for operating expenses
Mr. Lavalle—And if the over drafts
are paid it will make \$47,000.
Mr. Daly observed that it is a good
thing for the county that he is not on
the board of control, as he could not re-

the board of control, as he could not resist many cases of application for relief that are not now allowed.

The report of the committee was adopted by a unanimous vote and the bills will be provided for by warrants drawn, and which will bear interest and become negotiable.

Dr. Aneker invited the board to visite Dr. Ancker invited the board to visit

the hospital and poor house, and the invitation was accepted and the time fixed for 10 o'clock Monday morning.

The report of the county surveyor as to the bids for the pile bridge and grade ing on Edgerton street was made, and by resolution of the board the contract was let to P. H. Thornton for the grading and bridge at his bid of \$2,554.

County Auditor Burns submitted the estimate for the tax levy as required by the law. It provides for sweeping cuts in some departments, and will entail animated discussion before adopted. It is very probable that it will be amended

in some particulars by the board at an adjourned meeting to be held a week from today. The estimate was evidently a surprise to members of the board, bu no discussion was had on the matter. Commissioner Hanna said concerning it, that he is not familiar with many of the matters, but as to the road and bridge fund he wanted to be under-stood as saying that the estimate does not provide one-fourth enough money. The estimate provides as follows:

County revenue fund \$140,300
County bond and interest fund 42,010
County poor fund 30,000
County road and bridge fund 7,000

Total ... In his statement the county auditor speaks as follows:
The above estimate is submitted with the knowledge that it is possible to con-duct the affairs of Ramsey county on the figures submitted without in any manner injuring the public service. The net reduction in this estimate as The net reduction in this estimate as compared with the estimates of 18/2, amounts to \$50,000, and if allowed to stand by this board, and the city government consents to retrench in proportion when making up its annual budget, when the consents to retreach when the consents to reduce the consents the consents to reduce the consents the co there is no good reason why the tax levy for 1893 should not be reduced from 20 to 18 mills, as a practical starter on the road to retrenchment and reform

and lower taxes. The estimate makes a cut to a large amount in the poor fund, the road and bridge fund, the advertising fund, the fund for taking care of the court, nouse and city hall, as well as other matters.
