To all those who contemplate opening a savings account we recommend The State Savings Bank. Money deposited now draws 3 mos. interest Jan. 1, 1894.

JUDGE WILLIS REASONING.

FULL TEXT OF THE DECISION IN THE STATE ELEVATOR CASE.

EVERY BENEFICIENT MEASURE ENTIRELY PROPER FOR THE STATE TO EXERCISE ITS POWERS TO PROTECT CITIZENS FROM WRONG-BIPPE HELD TO HAVE NO TANGIBLE CAUSE OF COMPLAINT—NOT A REVENUE ACT.

Judge Willis has reduced to writing his reasons for refusing to enjoin the railway and warehouse commission and the state auditor from building the new elevator at Duluth, as asked by Henry Rippe, of Martin county. He says, among other things, that the act of 1885 providing for inspection, weighing and grading of grain, is one of great beneficence and was passed in response to a complaint of the citizens. It is entirely proper for the state to exercise its functions to protect citizens from wrongs by exercising police power to establish elevators, not for the purpose of engaging in the business of storing grain, but as incidental to inspection. A warehouse, such as is provided for in the act of 1885, is a practical and efficient agency in the hands of the state for inspection of grain. The state has the same power to erect a warehouse that it would have to erect a building for an office for a grain inspector, or a building in which to keep the weights and measures used in inspection. The warehouse or elevator so erected is not to be considered a public improvement in the ordinary sense of any structure which is necessary for the execution of some of the functions of government.

The proposition that the acts of 1885 and 1886, and the reason for enacting the laws charged for inspecting grain create a revenue which makes the acts operate as revenue acts, and not as inspection acts, is entirely untenable. The public debt against the state is created, even in case the elevator is not paid for prior to October, 1894, as no provision is made for bonds or certificates of indebtedness such as is contemplated in the act of 1885. The act is not such an internal improvement as is inhibited by the constitution. In the opinion of the court, the complaint states no cause of action against any of the defendants named therein. The act of 1885 does not curtail the liberty of the plaintiff. He does not suffer from prospective unjust competition, since he neither owns nor manages an elevator. Even in case the cost of the elevator should exceed \$200,000, the amount appropriated by the act of 1885, it would be merely an abuse of authority by the railway and warehouse commission and would not entitle the complainant to an injunction.

PARENTS DISAGREE. Receiver Named for the School Furniture Company. Judge Otis made an order yesterday appointing the Security Trust company as receiver of the effects of the St. Paul School Furniture company. This course was taken upon petition of Charles A. Dunn, who is a member of the company. Mr. Dunn states that he, together with D. D. Merrill, Charles H. Pratt and Edward K. Smith formed a company about a year ago to operate the school furniture factory at 23rd and Anthony Park. Each was to put in \$4,000. Dunn paid in \$3,200, Merrill \$25, Pratt \$1,250.50, but Smith paid in nothing, although he was given the position of business manager. The debts now amount to \$18,000. Mr. Dunn complains that the other partners have denied him access to the books. There is a quantity of partly manufactured furniture on hand, and for this reason Mr. Dunn does not want the works closed, but he wanted a receiver to take charge and continue to operate the factory, and to liquidate the other partners, who are named as defendants, be required to give him his share in the concern.

Depend Upon It. One thing you can depend upon—windy, sensational clothing advertisements to the contrary notwithstanding, you will not find decent, properly-made clothing at half price, but you can depend upon to choose from. The Plymouth Clothing House, corner Seventh and Robert.

STATE TEACHERS' WORK. A Committee Will Prepare for the Annual Meeting. The executive committee of the State Teachers' association met at the capitol yesterday and talked over informally plans for the annual meeting of the association at Minneapolis, on Dec. 27, 28 and 29. Those present were R. E. Denfeld, of Duluth, president of the association; H. L. Merrill, Hutchinson, chairman of the high school committee of the association; K. W. Buell, Preston, chairman of the committee on county superintendents; W. F. Webster, Minneapolis, chairman of the committee on elementary departments; C. H. Congdon, St. Paul, chairman of the committee on musical departments, and S. A. Farquhar, corresponding secretary.

Mr. Farquhar tendered his resignation as corresponding secretary, on account of business engagements. The resignation was accepted, and John N. Greer was elected to the vacancy. It was voted that the chairman of the various committees should be given authority in preparing programmes for their departments, and be prepared to report at a meeting to be held at the capitol a few weeks hence.

Judge Dickinson's Retirement. The resignation of Justice Dickinson, of the supreme court, which takes effect Oct. 1, means the loss to St. Paul of this distinguished and worthy citizen. He resigns as a matter of expediency for himself and Hon. Daniel Buck, his successor, as by his holding to the end of the year the coming term of the supreme court would be divided between the two, and by stepping out it will come upon Justice Buck. Justice Dickinson will go East to visit friends and enjoy a much needed rest. He will return about the first of the coming year, and take up a permanent residence in Duluth, because of a partner in the law firm of Billson & Congdon.

The Pioneer Fuel Company are still making liberal discounts for cash. See them before placing your order for coal.

Open Meeting of Clerks. A special open meeting of the Retail Clerks' association of St. Paul, will be held next Wednesday evening for the purpose of publicly discussing the plans presented by President James Morrow for the proposed new meeting hall, library and reception rooms for the clerks of St. Paul.
