

A NOBLE "CHARITY BALL"

PROPOSITION FOR AN ENTERTAINMENT THAT SHALL BE UNIQUE AND NET NEEDED THOUSANDS.

Great Opportunity for St. Paul to Set an Example to Perplexed Municipalities—Aid-Glove and Horny-Hand Alike Can Find Scope for Fruitful and Satisfying Effort.

The GLOBE has a suggestion to make this morning that is right in line with the efforts being put forth to provide means of caring for the large numbers of men it is expected will be out of work in St. Paul this winter.

Heretofore it has been the custom for each labor union in St. Paul to give a ball or entertainment of some kind during the winter season, for the double purpose of social enjoyment and financial replenishment of the treasury.

Now, it will be a comparatively easy matter for the general committee—on which the trades assembly is represented—to secure the co-operation of the officers of the various unions in a move to abandon all separate balls or entertainments and combine in one grand event, to be held in the Auditorium.

There is no question but energetic and public-spirited citizens would take hold of such a project with the labor unions and help to make it a grand success.

As to the matter of tickets, it is thought to be sold at \$1 each, and the expenses, if any, would be very small.

A mere dancing programme would hardly be such an occasion. An entertainment of the highest merit could be given in the earlier hours of the evening, and let the dancers have the floor afterward.

UNFORTUNATE MESALLIANCE.

The Mehl Girl Leaves Her Colored Husband and Goes Home.

Jennie, the daughter of Mr. and Mrs. Eugene Mehl, whose marriage with a negro has caused something of a sensation in St. Paul, is at last repentant and has decided to go to the new home of her parents in New York to remain permanently separated from her husband.

It turns out that several of the most respectable colored people of St. Paul feel that the alliance was unnatural and have taken a deep interest in seeing that the aggrieved parents should have their daughter restored to them.

Just what will be done with Jennie in New York is not known definitely; but it is rumored that she will be placed in a convent.

It is evident from what was learned from the colored party that she is firmly resolved to do her parents' bidding in the matter, and is deeply penitent, and expresses an anxiety to go into a convent.

It is expected that Eugene will leave with her for New York some time this week.

On the executive committee for the coming year are T. A. Abbott, Miss Somers and one other Catholic member to be appointed.

On the house committee are Mr. Dougan and H. W. Phillips.

WARNING TO PUPILS.

How Disease is Spread by Use of Books and Pencils.

Dr. Hoyt as health commissioner having had his attention called to certain practices in the public schools which he considered detrimental to the health of the pupils yesterday sent the following letter to the board of education:

To the Honorable Board of Education, St. Paul, Minn.—Gentlemen: A few days ago I was informed by a prominent man of this city called my attention to the fact that there was a very serious danger to the health of our public schools in the matter of the indiscriminate use of lead and slate pencils by the pupils.

That in the majority of our public schools all pencils used by the pupils are either stamped at the close of the school, taken care of by the janitor during the night and indiscriminately distributed among the scholars in the morning.

For obvious reasons this practice is, in my opinion, a very dangerous one, and one that should be discontinued as a well-known fact that children engaged in the use of pencils will invariably have their hands soiled with lead, a considerable portion of the time. It is also a well-known fact that very often a pupil will attend school, sometimes for several days, suffering with a mild case of diphtheria before the same has been discovered by its parents or physician.

The citizens' committee of fifty, to consider methods of reducing the price of coal, will meet in executive session tonight at the senate chamber in the capitol.
