TODAY'S WEATHER. WASHINGTON, Nov. 2.—For Wisconsin, Iowa, Minnesota, North and South Dakota: Fair; slightly warmer; winds shifting to southwest.

Table with 4 columns: Place of Observation, Direction, Force, and Remarks. Includes locations like St. Paul, Duluth, and various weather conditions.

GENERAL OBSERVATIONS. UNITED STATES DEPARTMENT OF AGRICULTURE, WEATHER BUREAU, WASHINGTON, NOV. 2, 1893.

The New York World is long on the president's silver attitude and short in his appointments.

PENNOYER has again been heard from. He officially thanks the Almighty for good crops and sends him a permit for repeal of silver buyout.

TOM REED utilized his five minutes, after the true Redfish style, in a canty rant about the "best" of the picture.

McBETH who make the "pearl top" lamp chimneys, is seen outside of the trade, and says that Carnegie is, too.

"To the national Democracy the people owe nothing, and give nothing but their unequalled contempt," says the Evening Wisconsin, edited, evidently, by the three traitors of Tooley street.

CONGRESSMAN WALKER introduced from Reed to a Massachusetts audience with the remark "I am an out-and-out free man in the country, and would be the next president of it, unless it were McKinley. Thus there drops more gall into the cup of the Sage of Indianapolis."

The Charleston, W. Va., Democrats do not share Gov. McCorkle's undemocratic ideas of protection to coal.

Every one who has had to crowd his or her way down the aisle and off the platform of a crowded street car will cordially join in a request for Mr. Lowry to examine the "wheelbarrow" car used by a Boston company.

The Paris exposition of 1889 had a larger aggregate attendance than the Columbian exposition at Chicago reached, but the cost of admission was only half at Paris when it was at Chicago, and the Paris show was open one month longer than the other.

WHEN Gov. McKinley speaks to the farmers of Ohio of the advantage they derive from the operations of his tariff bill they point to the fact that the measure has been in force for two years and a half, and yet the price of wheat is lower than it has been for twenty years.

"NO TARIFF BILL, disastrous to large interests can get through the senate," observes John Sherman. True for you, John; and none of that kind will be passed. It will be drawn strictly to the line of benefit to "large interests," and if the senate blocks it, why, it will be like George Stephenson's opinion of the hypothetical cow which his locomotive might run against—"damned bad for the cow."

The glass trust is dismantling the "wheeling" work and moving them to Pittsburg, where the Intelligencer raises a wail of desolation. Tut, tut, man; take your medicine. The trust is but carrying protection to its deeper analysis. What does it care for the men and boys and girls who have earned and spent in Wheeling the \$350,000 of annual wages whose loss you so lament? What does it care if they have work or must eat the bread of idleness?

A DELEGATION of colored men is visiting Washington for the purpose of urging the appropriation of \$1,000,000 for the purpose of organizing the members of the race in some part of Central or South America. No considerable number of our colored people have any desire to leave this country, and they could be induced to go, no matter what inducements might be offered them. Their political rights are as secure here as they could be anywhere else, and they have means of subsistence here which could not be improved by emigration.

Those German protectionists are a pretty cute lot of fellows. They don't prate about protecting labor or building up industries. They know that would set the nation into a broad guffaw. But they are fellows of infinite re-

source. When hogs from Yankeeedom were filling their markets with cheap pork, they got a lot of scientific chaps to discover the reason in it. That German hogs had been infecting German eaters of raw ham with trichinae for several centuries didn't count. The Yankee hog had to keep out. Now they are getting big prices for what little they have, and the Yankees offer to supply them out of their abundance, a handy scientist is promptly produced, who finds out in a few mysterious ways that our hogs are filled with trichinae, and the hogs must be shut out. Great heads those German protectionists have.

Next week's elections. Gubernatorial elections will be held a week from today in the states of Iowa, Ohio and Massachusetts, and the party managers are now engaged in the final round-up of the voters, and making estimates of the strength of the several candidates. Yet the campaigns are more than a little hazy, and the managers are not so sure of their ground as they would appear to be.

The campaign in Iowa has been one of unusual animation. Gov. Boies, the candidate of the Democrats, has the prestige of two previous terms in office. His opponent is a disgraced and disbarred pension attorney, who represents the worst element of the Republican organization. He has been repudiated by the voters, and his name is being regularly prohibited party is running a ticket of its own, and directing particular attention to the Republican ticket, which it is anxious to defeat. There are no issues other than political, and the campaign is being conducted in a very unusual manner.

AT THE THEATERS.

Spectacular "Uranian." The three great spectacular productions from the Carnegie Music Hall in New York will be presented at the Metropolitan next week, commencing on Tuesday evening with "From Chaos to Man." The closing paragraph of the review of this entertainment in the New York Evening Post says: "No operatic performance in America, nor Europe, not even at Bayreuth, has ever had so beneficial a result as this one."

Another Montanan thought that not only must the wage schedule drop, but that the mining machinery must be changed to reduce low grade ore with profit.

The Wonders of America was even more striking and beautiful in scenic and light effects at the Music Hall last night than ever. The play, which is a representation of the thunder storm in the Grand Canyon of the Yellowstone. Above the roar of the falls, the lightning and the downpouring of the heavy rain and the roar of the wind. The sky was hid by a mass of white clouds, and the scene was seen to pour from them in streams.

The specialty piece in "McCarthy's Missteps," this week at the Grand, are the "The Grand Old Man of the Mountain," a very laughable and, but without a doubt among the best seen in any one of these farces, and no one of these seems to go any better with an audience than Barney Barson's circus act, which is a very productive of laughter with an audience.

"The White Slave" opens at the Grand on Sunday night for the coming week. This play, which is a heartily applauded and successful effort, contains many elements known as being interesting that go to make up a play that proves a popular success.

Rhea is playing to a good business at the Metropolitan. The play, which is a heartily applauded and successful effort, contains many elements known as being interesting that go to make up a play that proves a popular success.

Theodore Bollmann German company will give its sixth subscription performance at the Metropolitan Opera House on Sunday night. The play, which is a heartily applauded and successful effort, contains many elements known as being interesting that go to make up a play that proves a popular success.

Indeed it is to be hoped that many of these senators and representatives in congress who have voted for repeal and for the tariff, will be able to recognize both gold and silver alike as did our forefathers in the constitution of this country.

The Democracy will govern, and its policy is: First, that American money shall be honest at any cost, whether the gold or silver, whose value is purely voluntary, like beer, spirits and wine. Second, that the basis, to be adopted as soon as possible, shall be gold and silver, and that provision shall be made by the government to issue as circumstances require, and such banking laws as are wise, practicable and in the interest of the people.

The New York Sun demands that the Democratic party resort to a direct tax to pay for the interest on the bonds to meet the impending deficiency in the treasury before it falls back on any other source of revenue. The direct tax is a tax on the business of brewing. Occupation taxes were among the first to be removed after the war, and the Democrats should be the last to restore them.

Virginia illustrates what a force for civilization into one party of all the whites of the South the party of Republican control, with its possible force bills, has been. As soon as that pressure is relieved the elements of the party begin to show a conservative tendency into new organizations on the lines of individual judgment. The solid South is no more a political factor unless Republican victories should weld the people together with a common purpose.

Free Coinage as it is. Hon. Isaac P. Gray, United States minister to Mexico, tells of the evils of silver monometallism as illustrated by the financial condition of the United States. The system is on a silver basis, and what is the result? Today the merchants and business men of Mexico are compelled to pay 7 per cent for exchange on any bank in the United States or in Europe. This is the result of the free coinage of silver.

WITH THE TRAVELERS.

St. Paul had a great many people within its gates yesterday from Montana, scattered among the various hotels. One of these, David Pratt of Billings, who is a prominent banker in that city, spoke interestingly of the prospects for silver in his state, and that the repeal bill has passed congress. He considered that before the mines would be reopened, the value of wages of from \$3.50 and \$4 per day down to \$2 and \$1.50 would be necessitated by the existing conditions.

The state capitol commission got a site on which to erect a capitol, right in the heart of St. Paul. There is where the capitol belongs, and the price paid, \$250,000, is not too much. Now let the work begin at once, so that poor laborers, who have been thrown out of employment during the summer, may have at least a crumb for winter.—Redwood Gazette.

The capitol commission has finally decided to allow a quarter of a million dollars as a cap for St. Paul. The capitol site is finally located in St. Paul at a cost of a quarter of a million of the people's money, instead of accepting a better site of Midway grants. The ways of the state are truly mysterious. The majority of the capitol commission were from St. Paul, but we suppose they were bound to do that, as the capitol is to be located in St. Paul.

THE STATE CAPITOL.

St. Paul is bound to be the capital of Minnesota, even if the people do have to come down with a quarter of a million dollars to allow him the privilege. The new site is said to be a very nice one, however.—Buffalo Gazette.

CLAIMS OF THE A. P. A.

An Essay on Bigotry, Egotism and Ignorance. Col. Stevens in Brainerd Journal: "We have a copy of the Loyal American, an A. P. publication, just issued in Minneapolis, in which it is said that 'while Brainerd is less than one-third Catholic, most of the offices are held by Romanists, and the government is actually directed by the clergy, and Rome.' The Loyal American adds that 'before another election takes place the A. P. will be prepared to say that they are not but loyal American citizens, and will support the state to be equally ruined.
