POND'S EXTRACT

Invaluable for Piles, Catarrh, Rheumatism, Chilblains, Neuralgia, Inflamed Eyes, Sore Throat, Toothache, Old Sores, Wounds, Bruises, Scalds, Burns and All Pain.

ESTABLISHED FIFTY YEARS.

My Dear Sir—I wish I knew just what to say about POND'S EXTRACT. I knew it was good, but I did not know how EXCEEDING good it was. The Italians call it "AQUA DI DIO"—Water of God. We use it for Sore Eyes, Toothache, Earache, and all sorts of aches; moisten a cloth and rub the patient when burning with fever; in fact for everything. It is indispensable in the Medical Mission department of our work in Italy.—REV. W. C. VAN METER, Supt.

"Fifty years! How many have been the medicines which this length of time has produced? What a host have sprung into existence, and buoyed up by extensive and oftentimes very sensational advertising, have flourished for a brief period, and then are known no more. The fiat of a discerning public has consigned them to oblivion.

"On the other hand, POND'S EXTRACT, recommended, indorsed, prescribed by the most eminent members of the medical faculty, has grown and grown into public favor, ever onward; its reputation world-wide and established; its virtues indisputable. The verdict of the people, the experience of every household, have awarded it the highest rank in the list of curative agencies, because of its inherent worth and that it does all that it proposes to do."—[Exchange.

MR. HILL ACROSS THE ROAD

GREAT NORTHERN MAGNATE BLOCKS A RAILWAY SURVEY.

THE DULUTH & WINNIPEG.

Survey to a Connection With the Soo Pacific Stopped Because Rights of Way Cannot Be Secured Through Indian Reservations—The Canadian Pacific Will Make a Fight.

DULUTH, Minn., Feb. 9.—The preliminary survey for the extension of the Duluth & Winnipeg road to a connection with the Soo Pacific at Carrington, N. D., has been stopped, and the surveyors called in. It is not the condition of the money market that is responsible for this, but the attitude of J. J. Hill, who was in Washington the past week ostensibly on political matters, but really for the purpose of keeping Winnipeg from securing rights of way through Indian reservations. But there is no intention on the part of the Canadian Pacific to allow Mr. Hill to balk it in its plans, and there will probably be a battle royal.

LOST ART FOUND.

Des Moines Man Makes Good Razors of Copper.

Some time ago the GLOBE printed an interesting interview with Oscar Vanderbit, district passenger and land agent of the Northern Pacific at Des Moines, Ia., on the occasion of a visit here. Mr. Vanderbit is interested with another gentleman in the manufacture of various articles of tempered copper. The gentleman with whom he is associated in this enterprise is the discoverer of the long lost tempering copper. At the present time Mr. Vanderbit and his partner are devoting all their time and energy to applying their idea on the railroads in the form of journal bearings, and on electric cars in the form of trolley wheels and commutator bars. They have made a number of cutting tools of this tempered copper, including razors and knives, which maintain a remarkably keen edge, are unaffected by heat or acids, are susceptible of a high degree of polish, and are certainly handsome in appearance. In a private letter Mr. Vanderbit says that in two or three months he shall make further experiments in the cutlery line.

WESTERN PASSENGER ASSOCIATION RATE CLERKS' WORK.

There is some work on hand for the rate clerks of roads holding a membership in the Western Passenger Association. With a first class rate of \$45 to the North Pacific coast, and other rates based on that, the lack of unanimous agreement among the roads, coupled with the privilege reserved to act independently in its effect, resulting practically in its effect, according to one passenger man's idea, of agreement. It is evident that a determined spirit of opposition to the claim of a Canadian Pacific differential is paramount. The clerks will eschew those points in their work to which the Canadian Pacific differential is applied, leaving that work until the Western Passenger Association can get in a body blow at this cause of irritation. Should the association decline to accept the Canadian Pacific's \$7.50 and \$5 differential,

UNSATISFACTORY RESULT.

Long Session Between the Western Association Committee and Mr. Lomax.

CHICAGO, Feb. 9.—The advisory committee of the Western Passenger Association emigrant clearing house held a long session today with General Passenger Agent Lomax, of the Union Pacific, and the result was unsatisfactory all around. The Union Pacific demanded that the association lines pay its emigrant agents in New York the same commissions as are paid to the agents in the clearing house. Then the association lines said they would pay no commissions unless the Union Pacific worked in with the clearing house. Then the association lines said they would pay no commissions unless the Union Pacific worked in with the clearing house. STILLWATER NEWS.

The third competitive drill between the company K for a gold medal offered to the best drilled member by Captain McCluer was to have been held Thursday evening, but because of the non-appearance of one of the judges the drill was postponed until next Thursday evening. These drills have resulted in increased interest in the company and larger attendance.

UNION PACIFIC MEN HAPPY.

OMAHA, Feb. 9.—The Union Pacific men are greatly elated over the decision of the federal court of Denver, overruling the order of Judge Dundy here. Eugene Debs, of the American Railway Union, today said: "Unless the decision is reversed by Judge Caldwell, the old rate wages will be good in Wyoming and Colorado, and I am inclined to believe that Judge Caldwell will concur in the opinion just rendered. Our organization will hold a meeting at Cheyenne shortly, at which will be present representatives of all the men on the system. We shall do nothing rash, but shall act with good common sense."

FEED PIPES.

Col. Wilkinson, the right of way and tax commissioner of the Great Northern, is on the coast looking after titles and similar matters in the interest of the company. There was a report that that his stay in the West was to be permanent, but General Counsel Grover yesterday said that his line of work would necessarily cause him to remain away for some time, he would, in due course, return here.

SHOT DOWN BY THE GRAVES

CONSPIRATORS AGAINST PRESIDENT PEIXOTO'S LIFE ARRESTED, AFTERWARDS SECRETLY SHOT.

Startling Story of a Plot to Murder Brazil's Chief Ringleaders Composed of Influential People—The Secret Execution Has Worried Peixoto—He Calls for an Election.

SHOT DOWN BY THE GRAVES

Special Dispatch from Buenos Ayres. Copyright, 1894, by the Associated Press. BUENOS AYRES, Feb. 9.—Most sensational news has been received here from Rio de Janeiro, and it is believed, at least, to have some foundation in fact. According to dispatches received here the decision of President Peixoto to issue a decree calling for a presidential election, as well as for an election for members of congress, on March 1, was only reached after the president had been badly frightened by the discovery of a plot to murder him. There are several versions of the affair, and as they are contradictory it seems sufficient to say that the plot appears to have been widespread, and to have counted a number of influential people, including several officers, among the conspirators. So soon as the plot against the life of President Peixoto was discovered, the police were instructed to arrest the ringleaders, which was promptly done. The trial of the conspirators is said to have followed closely upon their arrest, and there being, in the opinion of the court martial, no doubt that they were guilty, they were sentenced to death. The next morning, according to the dispatches received here, the persons convicted of having plotted to take the life of President Peixoto were taken to a spot outside the line of fortifications and were shot while kneeling at the foot of the

FRESHLY-MADE GRAVES.

which were prepared to receive their bodies. After the fatal volleys the bodies of the conspirators were hastily placed in the graves by the soldiers composing the firing party. The earth was shoveled upon them, and the soldiers were cautioned not to say a word about the affair under the threat of being shot if they did so. The discovery of the plot against President Peixoto's life, the arrest of the conspirators, the court martial and secret execution, all seem to have been kept from the ear of the general public; but their effect upon President Peixoto is said to have been so great he signed the decree for the election on May 16. In addition to the conspirators executed, the dispatches also say a number of other implicated persons were sentenced to long terms of imprisonment, and those who had property were notified that it had been confiscated for the use of the government. Others still of the suspects sought refuge in flight, and are now on their way to England, and the United States. Advice from the south of Brazil seem to show that the rebels are still successful there. According to the dispatches received the insurgent army moving upon Porto Alegre is rapidly approaching that important place, the capital of Rio Grande do Sul, situated 160 miles from Rio Grande. In the south the insurgents are said to be receiving reinforcements daily, and to be strengthening their position on all sides. Regarding the approaching elections in Brazil, the belief is expressed
