

## BIG TRADE IN MAY WHEAT.

PARDRIDGE SELLS HEAVILY AND FILLS THE CROWD UP.

JOHN CUDAHY A BUYER OF IT.

Dull Stock Market, but Speculation Was Decidedly Stronger-Comfort for Those Who Are Waiting for an Upturn-Good Baying of Sugar - Chicago Buys Gas Stock.

CHICAGO, Feb. 21.—There was a big trade in wheat today, fluctuations covering a 1%c range. At the close May was unchanged. Free selling and heavy covering by shorts sent the prices up and down the scale several times during the session. Better cables and light receipts aided in the advances. and disappointing second cables, and sales by elevator men and Pardridge were bearish influences. May corn closed 1/8c lower, May oats unchanged and provisions finished slightly higher for May pork and unchanged for May lard and ribs.

May wheat, which closed yesterday at 6016c, was offered at from 60c down to 59%c as soon as the market opened today and, for about twenty minutes the tendency was toward a still further decline. On free offerings it sold as low as 59% c before the decline was arrested, but it revived again at that point and during the next half hour gave indubitable evidence of a bull spirit. By 10:15 o'clock the price was up to 601/2c, a recovery of 118e in that time from the early drop. The receipts were lighter than for a long time. Liverpool was quoted firmer at 1/2d advance and with improved demand. The weather in ingland was called very cold. At London cargoes were quoted firmer and held for more money. Pardridge's brokers filled the crowd up with short wheat as soon as the market opened, on orders from him, it was claimed, and this proved a bear influence. The last named advance reached 60% c before it culminated, and the business done while it was in progress was lively and of considerable vol-ume. New York wired that second cables were disappointing, more especially here rose to 60½c, but it closed at 60@ 60½c, with May midway between the top and bottom figures of the day.

Corn was moderately active, with a fair volume of business early, the mar-ket ruling rather quiet late in the session. A comparatively steady feeling prevailed. The opening was firm at yesterday's closing prices, and after easing off 4c, rallied 4@%c, declined

market, which caused prices to re-te to nearly inside figures, the recov-ery leaving May, at the close, but %c from the day's top figures.

In oats there was a steady tone, and prices moved within ½c range and closed about the same as yesterday. The offerings were light and not a great many wanted. The strength came largely from the advance of 1/2c in cash lots. May closed at the top figures of the day. With the receipts of live hogs at the yards less than estimated and higher prices, provisions opened strong at a slight advance, but declined to a moderate extent on the temporary weakness in wheat. When that cereal rallied this market responded in sym-pathy, scoring a fair advance. The vol-ume of trading was light and the strength was contributed to by the scar-city of offerings, with the transactions confined to the local operators. The price fluctuated more or less with the up and down movement in wheat, but a contined to the local operators. The price fluctuated more or less with the up and down movement in wheat, but a firm undertone was apparent, independently of that cereal, on the support accorded to the market by the lecal operators. The unloading of a block of May lard eaused a temporary reaction to the content of the lard caused a temporary reaction in that future. At the close pork ruled strong, while lard and ribs were steady. Compared with last night, May pork is 7½c higher, May lard unchanged and May ribs unchanged. ribs unchanged. Estimated receipts for tomorrow:

c and ruled firm. The market followed

heat to a great extent, but at the top sides a good deal of July was put on

Wheat, 43 cars: corn, 260 cars; oats, 110 cars; hogs, 26,000 head. The leading futures ranged as follows:

smithering which followed weakness, The true inwardness of the heavy buying was traceable, it was thought, more to the prudential purchases of some heavy local shorts than to any important purchases for long account. John Cudahy, who was said to have been by far the heaviest buyer yesterday, was reproted to be again a diligent buyer of short wheat today. Other shorts with more moderate lines also took advantage of the early slump to take in their profits. Before the latternamed boom subsided, 60% was paid for a little May wheat. Elevator men were credited with selling a good deal of July wheat on the bulze, thereby reducing the premium between it and May from 2c to about 1%c. Bradstreet's report of the visible supply, as first received, gave a decrease of only 50,000 bu in the world's visible for the week. That was alterwards corrected to agree with the details of the statement to a decrease of 1,007,000 bu. The price of May wheat afterwards corrected to agree with the details of the statement to a decrease of 1,007,000 bu. The price of May wheat dropped to 59% con the first report, and reacted to 60% con the correction. There was a rumor about fire minutes from the close that the French chumber had rejected the bill to add to the duty on wheat, on which the price here rose to 60%, to ut it closed at 60% condeaved. The was a rumor about fire minutes from the close that the French chumber had rejected the bill to add to the duty on wheat, on which the price here rose to 60%, to ut it closed at 60% condeaved. has influence upon the market. The election in Pennsylvania yesterday was looked upon in the light of an instruction to the national lawmakers to modify their views on the tariff, and hence was made use of by the bulls to move up prices. Washington advices were scant as to new developments, and the dealings in the industrials were consequently re-stricted, neither side of the market

caring to operate heavily on dead reckonings. There was fairly good buying of Sugar, which gained % in the day, having at one time made an advance of %. Ing at one time made an advance of 36, subsequently losing it all and finally rallying 36. Distribing was very firmly held, the buying being mainly for the Western account. A brominent bear operator is credited with selling the stock short, and thus counteracting the influences of the purchasing movement, the result being that the shares advanced only the smallest fraction. Chicago Gas was also prominent in the dealings: buying on orders from Chicago.

cago Gas was also prominent in the dealings; buying on orders from Chicago sent it up 1 per cent in the morning, but when this support was withdrawn the short interest took an inning and broke the shares 1½ per cent, the closing sale being at a rally of only 3%. A report was circulated in the morning that the General Electric company was on the high road to prosperity and to a dividend in the common stock, and purchases thereby induced an advance of 1½ per cent. An official statement that there was nothing abnormal in the that there was nothing abnormal in the business of the company to cause an appreciation in the stock led to the realizations of the profits of the improvement, and this caused a reaction of \( \frac{1}{2} \). In the railway list St. Paul and Burlington did the bulk of the business. St. Paul was bought by London and the West, and cable advices were to the effect that the foreign shareholders had received assurances that the dividend

received assurances that the dividend for the current quarter would be duly paid. An advance of 5% was all that could be reached, and of this 3% had been lost at the close. A scarcity of Burlington shares in the loan market led the shorts to cover and led the shorts to cover, and caused an advance of ¾, but the later dealings were in a reacting market, and the closing price was ½c off from the best. Western Union fluctuated within a limit of ½ per cent, gaining ¾c on the day. In the rest of the list the transactions were trifling, and the changes in prices very slight, except that Wisconsin Central rose 3 per cent, and Cordage preferred and New York, Chicago & St. Louis 1 per cent, and Toledo & Ohio Central declined 2 per cent. The market closed generally per cent. The market closed generally firm. The probability of gold shipment was again brought forward by reason of a slight advance in sterling exchange, but the margin of profit at current rates is so slight as to make such ven-

which was certainly showing the first powerful resistance to the downward tendency—today's outside financial markets developed little that was new.

A COMMENDABLE PROJECT WHEREIN ART, EDUCATION, AND AKUSEMENT ARE HARMONIOUSLY

BLENDED. It is not always that distributions of books and pictures can be unreservedly commended.

for newspaper distribution since it happens to be cheap, because imperfect, or unsalable, or of doubtfui literary qual-And the picture may be weak, dim in outline, or have a washed-out appear-

It is often found that a book is selected

ance, owing to the fact that it is from a plate worn out and unfit for use. A damaged or badly printed book and an indifferent picture are worse than nothing, since they are a constant evesore and a permanent offense against

good taste. Such possessions are not worth having even as a gift. It is a wise precaution, therefore, to carefully inspect these so-called cheap offerings to ascertain if they are not too cheap to be worth shelf room.

In contradistinction to such as these

THE GLOBE points with pride to its dis-

tribution of the unequaled series entitled "Sights and Scenes of the World." several numbers of which have already been seen. These views are 320 in number, and are issued in parts of sixteen each, one

every week.

at a great expense, since to obtain them it was necessary to visit remote points n various quarters of the earth. These photographs once in possession it became necessary to prepare a graphic and interesting description to accompany each view.

The photographs have been secured

ble, both in a pictorial and historical sense, and time devoted to its study could hardly be more profitably or pleasantly employed. THE GLOBE therefore highly commends "Sights and Scenes of the World" to all of its readers, for th

The series, therefore, becomes valua-

series is equally adapted to old and voung. It also invites an inspection of the views at its distributing department. This invitation need not apply to old readers of the paper, since they well know that anything offered by THE GLOBE is well worth the time, trouble and expense necessary to obtain it.

Besides this, there is hardly a North-

western home in which the views are not welcomed each week. But new readers who may want to see what they are going to get are asked to call and look over any one or all of the numbers already on view-either one of which is worth much more than the cost of the entire series.

For any one of the numbers three coupons are required, with 10 cents in stamps or coin. Further particulars regarding this may be gleaned from the advertisement
