MILEAGE BOOKS IN BROKERS' HANDS TO BE BOUGHT.

CONDUCTORS TO IDENTIFY

If Conductors Cannot Identify by the Holder, the Mileage Book Must Be Taken Up-The Great Northern Schedule Difficulty Settled-Grand Chiefs Arthur and Sargent Leave Tonight.

The St. Paul Local Ticket association held an interesting meeting in the directors' room at the union depot yesterday. As had been previously intimated, the mileage book question proved the subject for consideration. A resothey will pass muster. Should any conductor be so forgetful as to leave his "eagle eye" at home, and thus fail to properly identify the passenger present-"eagle eye" at home, and thus fail to properly identify the passenger presenting the mileage book for passage, upon this a case will be built, and the road he represents will be "jacked up" by the association. Another important step taken was the adoption of a form of guarantee, to be given jobbers for the use of their commercial travelers when a mileage book is purchased. These are to be filled out and signed by the wholesale firm buying the book. It simply guarantees their being properly signed guarantees their being properly signed the traveling men themselves. The object of this plan is this: was reputed to be worth \$100,000 when the Girvin failure occurred. thority to issue a mileage book without the party receiving the same signs it in the presence of the agent. This very often imposes a hard task on the wholesaie firm, which the written guarantee is calculated to entirely obviate. Should the Western Passenger association indorse this new measure its adoption will probably become general throughout, the association's territory. rules ticket agents have no authroughout the association's territory. This will tend to cut off a large proportion of lucrative business for the brokers, and will, it is believed, afford ample protection both to the railroads and jobbing firms.
