The largest crowd of the season, 3,000 people, saw the Kansas City team go down before Manager Barnes' aggregation of ball tossers yesterday afternoon at Athletic park, Minneapolis. It was an exceedingly interesting contest, and enthusiasm ran high during the last two lanings. Umpire Baker made several questionable decisions, ordered Manager Manning off the grounds in the last inning and fined several of the visiting players. This made lots of fun for the cranks, and they jeered Manning's leather chasers with great delight. At the request of Manager Barnes the umpire allowed Manning to emain. Williams started in to pitch

Wilson made four singles out of five times at the bat, and McGuire made two pretty home runs. Burrell and Klusman also did good work with the stick. But there were ominous rumors current this morning that he had been seized with a slight attack of influenza. Henry of Navarre is perfectly conditioned, and the writer considers him a much safer investment than Dr. Rice, who, though he has not yet given any signs that his old trouble of bleeding at the nose may recur, yet is not a sound horse. Leonawell's work has not been altogether satisfactory. Sir Walter has good promise. Banquet, with 118 pounds up, is considered a better investment than Don Alonzo, his stable mate. Comauche's age is
