CASTEST MILE OF MEETING

Made by Charlie McDonald-Favorites Win in Four Out of the Five Races, but the Bookmakers Come Out of It Right Side Un-Nags That Will Contest Today.

The hot weather seems to help the running races at Hamline-at any rate very good time was made yesterday, the the fastest mile of the meeting being run by Charlie McDonald in 1:42. It was another favorites' day. Lizzie Keller, contrary to stable expectations, won the first; Eldorado, a five to one shot, got the second easily; Charley Wilson took the third as if he was making an exhibition run, Eagle Bird the fourth and Charlie McDonald fifth.

Although the players called the turn on who was to come first in four out the five races the bookmakers were not losers on the day, and probably most of them broke about even. All the runs were well managed, and there were good-sized fields. In fact, there is as satisfactory racing at Hamline as there is in the country.

THE RACES. First race, two-year-olds, that had not won more than one race this meet-

ing, five furlongs. Lizzie Keller won the race handlly. She was not backed by her owner, and it was understood by the wise she was not fit. In the betting she brought 2 to I, along with Carisruhe and Loretta. Tom Sayre, by reason of his good performance Monday, was the second choice. Lizzie Keiler got away first, but Sayre got a length ahead at the half-mile post and led to the stretch. Lizzie Keller made the turn first, and came into the stretch a length in advance and doubled her lead home. It was very close between Tom Sayre and

Notwithstanding the horses in th

race had previously done nothing at this meeting it looked as though they were a prime lot of three-year-olds out for a heavy stake, judging from the amount of jockeying at the post. They were at least thirty minutes in being sent off, and finally ran home in 1:174, as tired a set of "dogs" as have gone around the track. The race was not played much, and what money was put up was chiefly on Gracia and Simpleton. Elidorado, a 5 to 1 shot, had the race all the way around. Bland Raine made a fine spurt on the back stretch from fourth place and came near beating Eldorado out, but failed by a neck. Gracia, the favorite, ran a length and a half behind Bland Raine. Hugo came fourth, Simpleton fifth, Kekoma sixth, Optimus seventh. Time, 1:1734. Summary:

His Last Fight

QUEENSTOWN, July 26. - James J. Corbett, the pugilist, sailed for New York today on board the White Star line steamer Majestic. Before leaving he said that he was returning to the United States sooner than he expected in order to meet Peter Jackson and arrange a match with him before the latter starts for England. He said that he would not be prepared to fight Jackson for six months. This would be his last fight, and he intended to be in perfect condition when the battle took place.

A good many Minneapolis and St. Paul people who have been sojourning recently in the East have been afraid to return to their homes by the regular routes through Chicago, through lack of confidence in the ability of the East and West roads to send their trains through without interference. The result has therefore been that many have learned for the first time what an excellent route was opened to them to the seaboard when local capital and nerve built the "Soo" and made its connection with the Canadian Pacific. They found a route that was cool and free found a route that was cool and free from dust, and so comfortable withal in its unbroken continuity without change of cars that they wondered they had never patronized it before. The preva-lent ill wind is certainly blowing some good in the direction of this worthy achievement of pluck and capital, and it fully deserves all the good that blows its way.—Minneapolis Times.

A GREAT SLUGGING MATCH,

Which the Millers Are Easily Vanquished - Dungan's and Earl's Batting Terrific-Raymond and Everett Made Sev eral Fine Plays-Other Contests in the Two Big Leagues

The Detroit base ball team beat the Millers by a score of 25 to 15 at Minncapolis Athletic park yesterday afteron. It was a great slugging match. Young McFarland, the Southern league nenon, had a little conceit taken out of him. It only took two innings for the visitors to knock him out of the box, and he was only too glad to take a seat beside Manager Barnes. Ex-Um-pire Baker went in and pitched the remainder of the game. He was not so much of a puzzle as on Wednesday, and the visitors kept the Minneapolis balltossers chasing the ball all over the field. Campau, the new fielder of the Detroit team, made his debut. He only had one opportunity in the field, but he handled the bat with good results. Dungan and Earl's batting was terrific, the former made six safe hits out of six times at bat, and the latter made three me-run drives and a single. Burns also batted finely, making two singles, a double and a home run. The visitors played a good field game, while the work of the Millers was listless. The fielding of Everett and Raymond and the heavy batting were the features.

WASHINGTON, July 26 .- The day's roceedings in the house were dull in the extreme, and one by one the mem-bers left their desks, until by 3:30 o'cleck there were not a half hundred members in the chamber. The conference reto. The day had been assigned to the committee on interstate and foreign commerce, and some twenty or thirty bills reported from this committee were passed, among them the following: Amending the act for the construction

of a bridge across the St. Lou's river

between Minnesota and Wisconsin; to

bridge the Osage river in Missouri and

the Missouri river near Dewitt, Mo. At 4:25 p. m. the house adjourned.

BENNINGTON RECALLED.

Caused Chiefly by III Health of Officers and Crew. WASHINGTON, July 26 .- The reason for the rather unexpected order for the return of the Bennington is the bad state of health of the officers and crew The Utishmanian fever has appeared on board and suddenly began to spread in an alarming fashion. At present in an alarming fashion. At present nine men are ill, and it was felt to be an unwarranted exposure of the health and lives of the ship's company to keep the vessel longer in such an unheaithy port as La Libertad at this season.

It is positively stated here that the movement of the vessel does not in any way affect the status of the refugees aboard the vessel, and that matter will be adjusted hereafter on its merits.

aboard the vessel, and that matter will be adjusted hereafter on its merits. Unless a termination is reached by the date of arrival of the Bennington at San Francisco, the refugees will not be permitted to land. The number of these refugees has been reduced from about eighteen to four, Gen. Autonio Ezeta and three of his staff. The others were permitted to leave the ship, having made terms with the provisional government of Salvador. At prosent there is a hitch in the negotiations looking to the disposition of Ezetz and his staff.

GOLD RESERVE.

Net Gain of Four and a Half Millions Revenue in July. WASHINGTON, July 26 .- The gold reserve today received another severe blow by the engagements at New York of \$2,000,000 for export next Saturday This leaves the true amount of the reserve \$58,345,725, or \$3,654,570 lower than the lowest point reached prior to the February bond issue. Against this reserve there were outstanding on July 1 \$346,681,016 in United States notes, and \$152,584,417 in United States treasury notes of 1890, making an aggregate of nearly \$500,000,000 in currency and re-deemable in gold. The exportations of gold since the February bond issue aggregate about \$78,350,000, while the importations amount to about \$11,350,000, making the net loss of gold during the Croker bet heavily on Lux in the first last six months about \$67,000,000. So race on the strength of repeated fast far this month the treasury receipts amount to \$32,700,000, and the expend-

Coxevites Plead With Congress to Send Them Home. WASHINGTON, July 26.-Large and indignant delegations from the industrial armies encamped about Washington applied at the room of the house committee on labor today, not to urge their bills, but to plead for assistance. The expected has happened; their leaders had deserted them, and they sought congressional aid to return to the localities whence they had come. Coxey's men said that their leader left them in the lurch yesterday. Kelly's men averred that their leader had ries:

First race, five furlongs-Kismet won, bly abandoned them. The men who were brought from the Pacific coast by Kelly were indignant, and expressed a tervid desire to tar and feather their general. Mr. McGann told them there was not the slightest change of a gevernment appropriation for their return and sent them to the local superinten-

dent of charities.

LOCK WOOD'S BILL. Aimed at Laborers Who Retain Foreign Residence. WASHINGTON, July 26 .- The sub committee of the committee on immigration, which had charge of Representative Lockwood's bill to protect American labor on the borders, reported it favorably to the full committee today with several changes. The bill forbids the employment in the United States of persons who retain foreign residences. nominated by the secretary of the inties upon their employers.

July Heat Weakens Bables' Digestion.

No Strength to Resist Cholera Infantum.

Half the Funerals of July Are of Little Ones. Safety Lies in Lactated

Food and Cleanliness. The Proper Food Is Very Far

From Expensive.

July is dealing even more cruelly with the babies than a year ago. The fatal cases of cholera infantum ast week in this city were many, and there will be many more.

emphatically say so. Hot weather alone will not produce these disorders; it simply weakens the infant digestion, and makes it easy for improper feeding to bring on dreaded

improper feeding to bring on dreaded diarrhea.

What, then, is proper diet in July?
Healthy mother's milk has no rival; but when the child is being weaned, or when its natural food is thin and watery and unable to keep baby strong and well, lactated food must be used at once, either to supplement mother's milk or as a complete diet.

For years it has been noted that in countless homes and in the' large children's institutions, wherever lactated food has been regularly used, there have been few or no returns of deaths from cholera infantum in July and A ugust.

The reason is that this highly nutritious, predigested and especially palatable food is the very next thing in every respect to pure mother's milk. It is easily assimilated by the infant stomach, with but a trifting expenditure of vitality. It keeps up the little one's strength, and as it cannot possibly centain a particle of impurity, these two great causes of cholera infantum are successfully avoided.

And babies like it.

Any food, however nutritious, that baby will not readily take, has small chances of doing good. And it is here that lactated food stands pre-eminent in the minds of medical men. When teething, and during hot weather, when babies are most capricious in their appetite, it is found that they take lactated food with relish when nothing else will tempt them.

food with relish when nothing else will tempt them.

Members of boards of health and physicians, it will be found, feed their own children on lactated food. The fact known to physicians from the start that lactated food was prepared under the personal supervision of no less a man than Prof. Boynton, of Vermont university, gave it immediate standing among practitioners.

When a change of diet is needed because baby is not taking sufficient nourishment, lactated food is sure to delight mothers by the evident relish with which babies take it.

CALLED ON CLEVELAND. caker Crisp and Members of t House See the Executive. WASHINGTON, July 26. - Speaker Crisp was at the White house today, and his visit with the president caused a renewal of the comment as to the interest of the administration in supporting the tariff position of the house. Mr. Crisp declined to sav anything concerning the conference, or to even intimate whether the tariff deadlock between the house and senate was a subject for discussion. Representatives Kilgore, of Texas, and Bynum, of Indiana, also saw the president today. Mr. Kilgore is trying to stem the tide in the house, which has set in for the last two days toward a concession to most, if not all, that the senate asked. He thinks that the house will yet win the struggle, and so told the president. To his callers, the president expressed the same determination shown in the letter to Chairman Wilson. declined to sav anything concerning the

It was evident to him that he was It was evident to him that he was very fixed in his view of the justness of the contention he had presented and that there was no disposition to waver from it except through such mutual compromises as would give the house at least a good share of the concessions.
